## **INFORMATION, AUTHORIZATION, & CONSENT TO TELEMENTAL HEALTH**

Thank you so much for choosing the services that I provide. This document is designed to inform you about what you can expect from me regarding confidentiality, emergencies, and several other details regarding your treatment as it pertains to TeleMental Health. TeleMental Health is defined as follows:

“TeleMental Health means the mode of delivering services via technology-assisted media, such as but not limited to, a telephone, video, internet, a smartphone, tablet, PC desktop system or other electronic means using appropriate encryption technology for electronic health information. TeleMental Health facilitates client self-management and support for clients and includes synchronous interactions and asynchronous store and forward transfers.” TeleMental Health is a relatively new concept despite the fact that many therapists have been using technology-assisted media for years. Breaches of confidentiality over the past decade have made it evident that Personal Health Information (PHI) as it relates to technology needs an extra level of protection. Additionally, there are several other factors that need to be considered regarding the delivery of TeleMental Health services in order to provide you with the highest level of care. I have also developed several policies and protective measures to assure your PHI remains confidential. These are discussed below.

### The Different Forms of Technology-Assisted Media Explained

**Video Conferencing (VC):** Video Conferencing is an option for us to conduct remote sessions over the internet where we not only can speak to one another, but we may also see each other on a screen. I utilize SecureVideo (with HIPAA compliant Zoom) through Psybooks This VC platform is encrypted to the federal standard, HIPAA compatible, and has signed a HIPAA Business Associate Agreement (BAA). The BAA means that Psybooks is willing to attest to HIPAA compliance and assumes responsibility for keeping our VC interaction secure and confidential.

I strongly suggest that you only communicate through a computer or device that you know is safe (e.g., has a firewall, anti-virus software installed, is password protected, not accessing the internet through a public wireless network, etc.). Additionally, it is important for you to choose a secure location to interact with technology-assisted media and to be aware that family, friends, employers, co-workers, strangers, and hackers could either overhear your communications or have access to the technology that you are interacting with.

### **Telephone via Landline:**

It is important for you to know that even landline telephones may not be completely secure and confidential. There is a possibility that someone could overhear or even intercept your conversations with special technology. Individuals who have access to your telephone or your telephone bill may be able to determine who you have talked to, who initiated that call, and how long the conversation lasted. If you have a landline and you provided me with that phone number, I may contact you on this line from my own landline in my office or from my cell phone, typically only regarding setting up an appointment if needed.

Please initial that you have read this page: \_\_\_\_\_

**Cell phones:**

In addition to landlines, cell phones may not be completely secure or confidential. There is also a possibility that someone could overhear or intercept your conversations. Be aware that individuals who have access to your cell phone or your cell phone bill may be able to see who you have talked to, who initiated that call, how long the conversation was, and where each party was located when that call occurred. However, I realize that most people have and utilize a cell phone. I may also use a cell phone to contact you, typically only regarding setting up an appointment if needed. Additionally, I keep your phone number in my cell phone, but it is listed by your initials only and my phone is password protected. If this is a problem, please let me know, and we will discuss our options.

**Text Messaging:**

Text messaging is not a secure means of communication and may compromise your confidentiality. However, I realize that many people prefer to text because it is a quick way to convey information. **Nonetheless, please know that it is my policy to utilize this means of communication strictly for appointment confirmations.** Please do not bring up any therapeutic content via text to prevent compromising your confidentiality.

**Email:**

Email is not a secure means of communication and may compromise your confidentiality. However, I realize that many people prefer to email because it is a quick way to convey information. **Nonetheless, please know that it is my policy to utilize this means of communication strictly for appointment confirmations.** Even though we will only utilize email for appointments and brief topics, I utilize a secure email platform that is hosted by Psybooks for your added protection. I have chosen this technology because it is encrypted to the federal standard, HIPAA compatible, and the company has signed a HIPAA Business Associate Agreement (BAA). The BAA means that the company is willing to attest to HIPAA compliance and assume responsibility for keeping your PHI secure. I also strongly suggest that you only communicate through a device that you know is safe and technologically secure (e.g., has a firewall, anti-virus software installed, is password protected, not accessing the internet through a public wireless network, etc.).

**Social Media - Facebook, Twitter, LinkedIn, Instagram, Pinterest, Etc:**

It is my policy not to accept "friend" or "connection" requests from any current or former client on my **personal** social networking sites such as Facebook, Twitter, Instagram, Pinterest, etc. because it may compromise your confidentiality and blur the boundaries of our relationship.

**Your Responsibilities for Confidentiality & TeleMental Health**

Please communicate only through devices that you know are secure as described above. It is also your responsibility to choose a secure location to interact with technology-assisted media and to be aware that family, friends, employers, co-workers, strangers, and hackers could either overhear your communications or have access to the technology that you are interacting with. Additionally, you agree not to record any TeleMental Health sessions.

**In Case of an Emergency**

If you have a mental health emergency, I encourage you not to wait for communication back from me, but do one or more of the following:

- Call Behavioral Health Link/GCAL: 800-715-4225 or other 24 hour crisis hotline in your area
- Call Ridgeview Institute at 770.434.4567 or your local hospital
- Call Peachford Hospital at 770.454.5589 or your local hospital
- Call Lifeline at (800) 273-8255 (National Crisis Line)
- Call 911.
- Go to the emergency room of your choice.

**Limitations of TeleMental Health Therapy Services**

TeleMental Health services may have certain limitations as compared to office visits, please know that I have the utmost respect and positive regard for you and your wellbeing. I would never do or say anything intentionally to

hurt you in any way, and I strongly encourage you to let me know if something I've done or said has upset you. I invite you to keep our communication open at all times to reduce any possible harm.

Consent to TeleMental Health Services

Please check the TeleMental Health services you are authorizing me to utilize for your treatment or administrative purposes. Together, we will ultimately determine which modes of communication are best for you. However, you may withdraw your authorization to use any of these services at any time during the course of your treatment just by notifying me in writing. If you do not see an item discussed previously in this document listed for your authorization below, this is because it is built-in to my practice, and I will be utilizing that technology unless otherwise negotiated by you.

- € Texting
- € Email
- € Video Conferencing
- € Website Portal

In summary, technology is constantly changing, and there are implications to all of the above that we may not realize at this time. Feel free to ask questions, and please know that I am open to any feelings or thoughts you have about these and other modalities of communication and treatment.

Please print, date, and sign your name below indicating that you have read and understand the contents of this form, you agree to these policies, and you are authorizing me to utilize the TeleMental Health methods discussed.
