

RESTORATIVE PRACTICES TRAININGS

Winter 2023

These 1-day workshops are intended for Educators including members of school safety and security committees; teachers; administrators; paraprofessionals; school district safe school climate committees; and any school personnel.

School Climate Training 1-day Workshop

January 26, 2023

8 am to 3:30 pm [REGISTER HERE](#)

Check-in: 7:30 am, class starts promptly at 8 am
(if inclement weather, course will run Virtually)

This 1-day workshop provides what school climate is (definition and scope), the difference between School Climate and School Culture and the role of adults in school to foster a positive school climate.

Restorative Practices Training 1-day Workshop

January 27, 2023

8 am to 3:30 pm [REGISTER HERE](#)

Check-in: 7:30 am, class starts promptly at 8 am
(if inclement weather, course will run Virtually)

This 1-day workshop provides the necessary information for building and nurturing a restorative culture based on high quality relationships and the strategies to hold individuals accountable when harms are done to those relationships and community.

Each session is \$26 (Please bring your own lunch). Special thanks to the [Center for School Safety](#) and [ACES](#) collaboration for sponsoring these trainings.

Working restoratively is a social/relational rather than a behaviorist model. Embracing restorative practices is not a program but rather a way of thinking, being and operating in the day-to-day. Noted school climate experts, Jo Ann Frieberg and Patricia A. Ciccone of [School Climate Consultants](#), will lead each of these sessions.

For questions, contact Mary Pupazzoni at pupazzonim@wcsu.edu
