

**School  
Processes**

**Demographics**

**Perceptions**

**Student  
Learning**

Programs the school provides and processes the school engages in; over time shows how classrooms change

Enrollment, attendance, drop out rates, ethnicity, gender, grade level; over time indicates changes in the context of the school

Perception of learning environment, values and beliefs, attitudes, observations; over time tells us about environmental improvements

Standardized tests, teacher observations of abilities, assessments; over time gives information about student performance
