

Creativity: Accessing Your Extraordinary Selves

With Joanne Geisel

August 22nd

9:30am to 3:30pm

Location: Calabash Elks 93 Carter Dr Calabash NC

Creativity is a word seldom fully appreciated. The brain's capacity for variety and great insights is limitless. Even as artists who utilize more portions of the brain than most, there are astounding ways to expand our consciousness to create even more dynamic, beautiful paintings. In this workshop we will explore ways to bring our artwork to new levels. This six-hour workshop, which is for all painting mediums, will explore how one combines the realistic components of composition, values, the color wheel (left brain) with the creative intuitive expressionism of the right brain.

Supplies:

- One painting surface that is larger than you usually work but no larger than 18x24
- 3-6 images from which to paint
- A large palette or two.
- Color wheel
- Graphite pencil
- Red pencil
- Your regular artist supplies
