Learn to recognize and use 4 classic compositional arrangements in a landscape to engage your viewer and create an emotional response.

We will analyze your reference photos and discuss how the design elements might be adjusted to improve the composition.

After completing a quick value study, you will sketch the image on your surface and complete the painting.

My goal is to teach you how to THINK about painting, rather than showing you HOW to paint.

You may paint your landscape, seascape, marsh scape in any medium and size. It's up to you.

Once you grasp composition, your paintings, and photographs, will be much more successful, and a lot more fun to create.
