The following parties are involved in organized crime with each other, working each other's extortion, and they are stalking, voyeurism, home invading, abducting, and sexually assaulting you and everyone's children with maser instruments that work with satellites, tampering with the electrical signals in the bodies of others:

They will definitely abuse, harm, and kill any pets, infants, children, and the elderly. They can tamper with, harm, and kill fetuses also, so do not get pregnant for many reasons! Freeze your eggs if needed!

They all know for a fact some people are born child perverts, rapists, sociopaths, and psychopaths, so they have been connecting to the galvanism (weak electrical signals controlling a person's brain and body) with masers, which the maser is a precursor to the

laser that works on radio waves and microwaves invented in 1953, viewing people through their own eyes, experiencing everything the person is experiencing, controlling the person's motor functions, and they have been sexually abusing others, desiring to cause sexual confusion and dysfunction in people, especially the young. They do this to people as young as infancy. The concealed maser inventions can detect guilt and criminality in people.

I have gathered strong and damning factual evidence to this, and it is on my website: www.disastercopy.com You can read and download the information for free.

They can connect to anyone of the public from any location worldwide, and this includes criminals in prisons and mental wards being able to be connected to the public.

It's actually very easy to prove space travel humanly impossible, such as knowing how the solar winds work, which are constant and move at a million miles per hour, which they are the reason comets have tails. The space programs are all basically Christian scientists. They just wanted the satellites to use maser instruments to human traffic the public.

Technically, no one is legally in charge of any world country now, as every important government seat was likely filled with criminal proxies through duress. Marshall law needs to be declared, and any sleezy behaving or looking person is an immediate threat to the world's public, needing to be eradicated, as they are an extreme criminal danger to others.
