*Your Custom Knitwear Partner Since 1962*

[www.514supplyco.com](http://www.514supplyco.com)

For three generations, our family has designed and manufactured active and leisure knitwear for the largest brands in North America.

Located in Montreal, Quebec, Canada, our team of knitwear veterans has proudly helped create your Custom Branded product with the Made in North America label for over 60 years.

When working factory direct, you are dealing directly with the team that is designing, developing and delivering your product.

Advantages of partnering with our North American factory:

- ✓ Reduced Development & Production Times
- ✓ Factory Direct Pricing and Service
- ✓ Duty and Tariff Free
- ✓ No Additional International Fees and Charges
- ✓ Quicker Turnaround with our Domestic Shipping Times
- ✓ In Stock Blanks All Year Long
- ✓ Custom Embellishment Programs
- ✓ Proudly able to tell your brand story as Made in North America
- ✓ Get to work with the best team in the industry!

We thank you for your continued support of North American Manufacturing

# ECO-CONSCIOUS COLLECTION

*Fall / Winter 2024*

Five1Four Supply Co. accepts the challenge to build better accessories - focusing on the research, development, and sourcing of sustainable yarns and yarn blends to produce mindfully engineered, style-forward, functional, and eco-conscious products.

# ECO-CONSCIOUS

Recycled polyester is obtained by melting down discarded plastics and re-spinning it into new polyester fiber. The PET scraps are broken into fiber components that can then be spun into the recycled yarns. There are two main advantages to this process: Using more recycled polyester reduces our dependence on petroleum as the raw material for our fabric needs. Diverting PET bottles for this process reduces landfill, and thus less soil contamination, air and water pollution.

Composition: 100% Recycled Polyester

Manufactured with premium merino wools; synonymous with elegance, durability, and renowned for imparting unmistakable softness, stability of shape, solidity and brilliant colours to accessories. Eyre Yarn is in accordance with Woolmark standards and complies with the immuno-environmental requirements specified in international standards.

Composition: 30% Recycled Wool, 50% Wool, 20% Recycled Polyester

## RECOVER

The Recover® system collects and sorts textile waste from all over the planet; cutting and shredding them to produce new fiber for the industrial spinning process. The Recover yarns contain a consistent percentage of 70% recycled cotton, blended with other materials such as polyester from PET bottles. All products made of Recover® textiles can be recycled at the end of their lives, returning into the system for a circular production loop.

Composition: 70% Regenerated Cotton, 30% Other

## RECYCLED ACRYLIC

Recycled pre-consumer acrylic.

Composition: 30% Recycled Acrylic, 70% Acrylic

A biodegradable fabric made of wood pulp cellulose. It is produced from branded Lyocell and Modal fibers and defines a new standard of sustainability and natural comfort. Tencel™ fibers are as soft as silk, cool as linen and as warm as wool.

Composition: 50% Tencel™, 50% Virgin Merino Wool

# ECO-50/50

FIVEFOUR  
Supply Co.  
MTL 62  
FALL / WINTER 2024

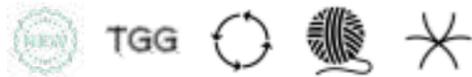

The 50-50 acrylic and wool blend makes the yarn flexible, easy to work with, and comfortable to wear. The blend is ideal for fall and winter fashion – a perfect combination of soft and warm. Easily dyeable.

# ECO-REPREVE

FIVEFOUR  
Supply Co.  
MTL 62  
FALL / WINTER 2024

Repreve® is the leading, most trusted, branded performance fiber made from recycled materials (including plastic bottles). Our process embeds properties like wicking, adaptive warming and cooling, water repellent, and more at the fiber level. Compared to making what's called virgin fiber, making Repreve® offsets using new petroleum, emitting fewer greenhouse gases, and conserving water and energy in the process.

# ECO-POLYLANA

FIVE1FOUR  
Supply Co.  
NYL 1.62  
FALL / WINTER 2024

A low-impact alternative to 100% acrylic and wool fiber using less energy, water and CO2 during production. Not just different, but better. Offering brands and retailers a more sustainable choice. Consumers will enjoy the same quality, the same value, but with an additional emotion of doing better.

# ECO-RECYCLED CASHMERE

FIVE1FOUR  
Supply Co.  
NYL 1.62  
FALL / WINTER 2024

Recycled Cashmere is made mostly from post-consumer garments that have been painstakingly sorted, shredded, and re-spun, allowing consumers to get a cozy luxurious blend at a wildly lower cost to the environment. Recycled Cashmere is guilt-free and just as soft.
