Incident Data Sheet			
Report	djw	11/14/2013 1:5 kmb1	11/15/2013 10: N
On Thursday 11/14/13 at approximately 1220 hrs I, Sgt Derek WATTS, took a walk in criminal damage report.			
I met with the complainant Gilles KOUASSI who stated his 1997 Toyota Camry (IL-X627713) had the rear bumper either backed into or damaged. KOUASSI said he parked his car in the northern most row of the Library lot at approximately 1055 hrs and when he returned at 1205 hrs and it was damaged.			
KOUASSI and I relocated to where his car was parked. KOUASSI indicated which car was his and showed me the new damage to the drivers side rear bumper. He stated the Toyota Prius that is parked to the left of him now was there when he parked. I walked around the Prius and there was not any marks of any kind on it.			
KOUASSI stated that this is the third time in about eighteen months that his car has had damage to the rear bumper. I could not locate any paint transfer or any indication that the vehicle was struck by another vehicle. KOUASSI feels that his car is being targeted by someone. He stated he does not have any suspects. KOUASSI stated he would press charges if a suspect is caught.			
The damage is estimated at \$1000.
