

Workshop 3. Hands on Interactive Workshop using TIBCO Spotfire® Analyst.

Duration

1 Day Workshop

Preparation

At least 2 weeks prior to workshop date, the following are required:

- business “points of pain” to be addressed.
- Dashboard topics to addressed.

Objectives

Working with attendees to:

- Create specific visualizations and dashboards using them.
- Master skills creating advanced dashboards.
- Discuss and showcase best practices for architecture, design, and deployment.
- Implement best practices in visualizations and data discovery.

Description

The Hand on interactive workshop is a tailored workshop based on your specific business and analytic needs. This interactive workshop provides

you with a Genware architect for day, working with your data and specific topics you need to master. The Genware architect will mentor the students in addressing questions and techniques supplied ahead of time.

Outcome

Students will leave the workshop with answers to their questions and solutions to their visualization needs.

Curriculum*

This curriculum is based on the questions sent ahead of time and any specific topics that the students would like to explore.
