home elevators by
 **savaria**

slim
luxury

Classic at its finest.

Your choice of luxury MDF or stainless steel cab, finished with stainless steel fixtures and automatic slim doors on the cab and landing. Refined elements include a touchpad phone on the cab operating panel (COP), and upgraded cab rollers for an ultra-smooth ride.

Luxury MDF in Walnut shown

Create a lifetime home

Your dream home deserves a dream elevator. Adding luxury and convenience for today also provides easy accessibility for all, making your home barrier-free for years to come.

Whether you are renovating or building new, a Savaria home elevator will enhance your home and its resale value. You demand high quality and excellent value for your investment; when you choose Savaria, you get the best of both worlds. A Savaria elevator is luxurious value, built reliably – just for you.

Customize your solution

Your home is a reflection of your personal style; your Savaria home elevator can be too. Create the perfect solution tailored to your unique needs and design sense, from a wide selection of model and configuration options, finishes, and accessories.

Or, eliminate the guesswork with pre-selected finishes and features, designed to work beautifully together. Choose from three upgrade packages – slim luxury, ultimate black or glass elegance – created to bring you distinct styling and popular options at significant savings.

ultimate
black

Make a bold statement.

Blackened stainless steel fixtures and integrated touchpad phone on luxury MDF, with black automatic slim doors on the cab.

**Savaria Zenith
finest ride quality;
whisper-quiet operation**

The Zenith is Savaria's top-of-the-line traditional home elevator. Based on our commercial-grade Orion MRL elevator, the robust Zenith features a unique geared traction counterweight design and high 1,400 lb capacity.¹ Requiring only a small space in a closet¹ for components, the elevator can be installed without a traditional machine room.

**Savaria Infinity
smooth-riding traditional hydraulic drive**

The Infinity's precision hydraulic drive system is dependable and compatible with the use of LEED-qualified Hydro Safe hydraulic vegetable oil. This design houses drive components in a machine room that can be located where best suited in your home. Available with capacity up to 1,000 lb, or choose the Infinity HD version for 1,400 lb capacity or larger cab size.²

**Savaria Eclipse
best-seller with machine roomless option**

The Eclipse is Savaria's most popular home elevator, and a cost-effective choice. The durable geared chain drive design installs quickly, provides a stable ride and does not require a separate machine room. An environmentally-friendly counterweight system reduces motor effort – and therefore power consumption. An Eclipse HD version is available with a 950 lb capacity and cab up to 48" wide.²

Luxury MDF in Pearl Matrix shown

Beauty, brawn & brains

Your Savaria home elevator is built with care using reliable components to provide you with dependable performance, and to meet or exceed the strictest elevator, electrical, mechanical and building safety guidelines.

Behind the beautiful exterior is one of the smartest brains around; the microprocessor-driven controller is demonstrably reliable and designed for up to 6 stops.

Choose from three feature-packed models with options to suit virtually any configuration: the Zenith, Infinity or Eclipse.

¹ consult your dealer for local code restrictions

² sizes higher than 15 square feet and 950 lb capacity available where code permits

luxury standards, unlimited options

Create your own personal elevator from our wide selection of options. Choose from a range of cab styles and sizes, then select your finishes to complement and complete your solution. You can even have your own contractor finish your elevator on site.

Elevator Cab Interiors

Your options include finished hardwood or unfinished veneer cabs in traditional species including oak, cherry and maple. We also offer scratch and fade-resistant luxury MDF panels in a variety of colors and finishes. Our standard elevator includes your choice of melamine or unfinished MDF, and white ceiling with four LED pot lights.

From automatic sliding doors to traditional gates...

choose from the widest range on the market to finish your home elevator perfectly.

Automatic Slim Doors

Add convenience and an elegant, modern appearance to your Savaria home elevator with automatic slim doors. These commercial-grade doors can be used as a complete system, or in combination with a swing-style landing door. Finish in stainless steel, powder coated paint, or framed glass.

Bifold Doors

A simple, automatic solution for cab doors. Select from architectural white or stainless steel.

Accordion Gates

Featuring a sturdy hard hinge to prevent deflection, accordion gates tuck discretely away to leave an unobstructed entry. Choose from a wide selection of panel colors and frame finishes. Add an automatic opener for convenience and ease of use.

specifications

Standard specifications

- Capacity: 750 lb, 950 lb, 1,000 lb or 1,400 lb (Zenith or Infinity only, code permitting)
- 2 stops with up to 10' of travel
- Fully automatic operation
- Running speed: 40 ft/min (Zenith, Eclipse) or 36 ft/min (Infinity)
- Illuminated automatic push button operation on hall call stations; in-use indicator lights
- Digital display (floor and directional indicator) in car operating panel (COP)
- Available alpha numeric button marking
- Homing feature
- 80" or 84" cab height
- ¾" melamine or unfinished MDF cab trimmed in black, clear or bronze anodized aluminum
- Surface-mount telephone
- 36 month limited parts warranty

Upgrades & Add-Ons

Home Elevator Models

Eclipse

The Eclipse is a smooth riding & space saving elevator as it does not require a separate machine room. It is quicker & easier to install compared to other elevators, and its simpler construction requirements make it easier to install in existing homes.

Features

- Machine roomless, requires less space for installation
- No shaftway construction required
- Standard finishes & safety features

Specifications

- **Weight Capacity:** 1000 lbs.
- **Max. Travel Distance:** 50'
- **Min. Overhead Clearance:** 96"
- **Min. Pit:** 8"

Infinity

The Infinity model has a precision hydraulic drive system, which provides users with a smooth & quiet ride. Auto-levelling at each landing ensures that the elevator meets the floor precisely.

Features

- High-efficiency hydraulic drive system provides the ultimate smooth ride
- Pressure valve allows for gentle stops and starts at all landing levels
- Standard finishes & safety features
- Heavy Duty option available

Specifications

- **Weight Capacity:** 1000 lbs.
- **Max. Travel Distance:** 50'
- **Min. Overhead Clearance:** 92-108"
- **Min. Pit:** 8"

Zenith

The newest of three traditional residential elevator models, the Zenith is the highest end model, offering the smoothest ride with a whisper-quiet operation.

Features

- Machine roomless, requires less space for installation
- Hide-away gate for max entryway and interior space
- Standard finishes & safety features

Specifications

- **Weight Capacity:** 1000 lbs.
- **Max. Travel Distance:** 50'
- **Min. Overhead Clearance:** 108"
- **Min. Pit:** 10"

MDRF - Routed & Lacquered

An MDRF cab offers you a raised panel look, at a fraction of the cost. The MDRF cab is available in a lacquered white finish.

Luxury MDF

Give your elevator an extra shine by upgrading to a Luxury MDF finish, with a matching ceiling. With 14 color options to choose from, you can blend your elevator with the interior design & décor of your home. When installed, the Luxury MDF panels are attached to steel.

Luxury MDF wall and ceiling color options

Cab Gates:

Elevator Gates -- Connected to the elevator cab, the gate travels with the elevator and opens when the elevator arrives at the designated floor. Choose from the following gate options:

- **Bi-Fold Gate:** Operates automatically like a bus door and is available in white and stainless steel
- **Accordion Gate:** Opens and closes to the side and is sold with an automatic gate operator for convenience. Available in a variety of materials/colors, including aluminum, vinyl, and acrylic.
- **Auto-Slim Gate:** Commercial style sliding gate that opens automatically. Can be used with either an auto-slim landing door or swing landing door. Available in metal (white, black and stainless steel) or custom-color.

Bi-Fold Gate

Standard

Accordion Gate

Auto Slim Gate

Landing Doors:

Landing Doors -- The elevator landing doors are attached to the structure of your home at each of the landing levels. The doors are “interlocked” with the elevator controls so that they will not open if the elevator is not present. Choose from the following door options:

- **Swing-Doors:** Provided by the general contractors, swing-doors generally match the other doors in the house. An electro-mechanical lock controls when it can open/close. Doors are generally wood but can be glass or metal if desired.
- **Auto-Slim Door:** Commercial style sliding door that opens automatically. Can only be used with an auto-slim gate. Available in metal (white, black and stainless steel) or glass.

Swing Door

Auto Slim Door

Swing Landing Door

With the selection of a swing landing door, you'll have the option of matching it to all of the other doors throughout your home. Typically, the swing door is purchased/installed by the general contractor. The swing door must be installed in compliance with the 3" x 5" or 3/4" x 4" elevator safety rule. EHLS will provide the interlocks for the landing doors.

Swing landing doors are available in:

- Wood
- Glass
- Aluminum

Please contact your GC for pricing information.

Slimline Automatic Landing Doors

Slimline automatic doors give your elevator a sleek look and are very convenient. With automatic doors, you won't have to worry about having to manually open and close the door when entering and exiting your elevator. Like a standard swing door, the slimline automatic doors must be installed in compliance with the 3" x 5" or 3/4" x 4" elevator safety rule.

Hardware Finish Package & Color Options

The standard hardware package includes: COP w/ Integrated Phone, 1 Handrail, 4 Ceiling Lights, and a Hall Call Station for each landing level:
