Burbank, California

STERIL-AIRE IS THE ONLY UVC COMPANY TO ACHIEVE ISO CERTIFICATIONS IN BOTH ISO 9001:2015 & ISO 14001:2015

Steril-Aire continues to lead the UVC marketplace by earning two certifications. ISO certifications in both 9001:2015 & 14001:2015 assure Quality of Manufacturing with adherence to Environmentally Friendly practices.

International Standards Organization (ISO) QMS

A quality management system (QMS) is a formalized system that documents processes, procedures, and responsibilities for achieving quality policies and objectives. A QMS helps coordinate and direct an organization's activities to meet customer and regulatory requirements and improve its effectiveness and efficiency on a continuous basis.

ISO 9001:2015, the international standard specifying requirements, is the most prominent approach to quality management systems. Through diligent effort and a sustained desire to grow ever stronger in assuring top quality, Steril-Aire has been ISO 9001:2015 Certified.

International Standards Organization (ISO) EMS

The primary objective of the ISO 14001:2015 standard is to promote effective environmental management systems (EMS) in organizations. The standard specifies requirements for establishing an environmental policy, determining environmental impacts of products or services, planning environmental objectives, implementing programs to meet objectives, and conducting corrective action and management review.

ISO 14001:2015 can be used by any organization that wishes to set up, improve, or maintain an environmental management system to conform with its established environmental policy and requirements. In addition to the ISO 9001:2015, Steril-Aire's work toward increased environmental awareness and procedures, has resulted in the ISO 14001:2015 Certification being awarded as well.

Steril-Aire has put in the work to get certified providing customers the piece of mind to know they are dealing with a quality partner in the UVC environment.

###

Steril-Aire launched UVC for HVAC industry in 1994 and remains the leader today. Steril-Aire remains the unrivaled leader in development of high performance UVC solutions for air and surface decontamination.
