

# PARENT INFO

## CHILDREN'S EAR PIERCING

We offer ear piercing for children aged **6 months** and up. For younger children, we recommend discussing the decision with your family doctor first.

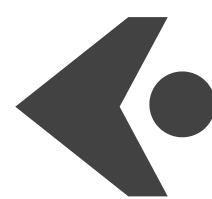

### GENTLER ON SKIN

Piercing needles create a clean, precise hole, minimising tissue trauma

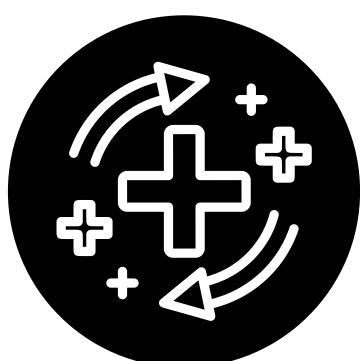

At my studio, I use the **needle method** exclusively for ear piercings — including for children. This is the same method trusted by professional body piercers and healthcare professionals, and here's why:

*amy harte*

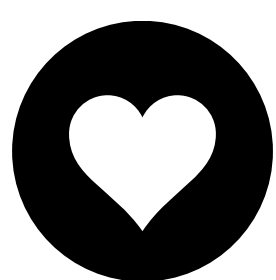

### LESS PRESSURE, LESS NOISE

Unlike guns, needles don't cause a loud "snap," helping keep little ones calm

### BETTER HEALING

Lower chance of bumps, scarring, and infection when proper aftercare is followed

## BEFORE APPOINTMENT

- Make sure your child is well-rested and has eaten
- Hair should be freshly washed and tied back away from the ears
- Avoid scheduling close to recent immunisations
- Please reschedule if your child is unwell, anxious, or showing signs of an ear infection
- Bring something comforting — a toy, blanket, tablet, or headphones
- Let us know in advance if you think your child may need extra support or a longer session

**Appointments usually take 30-45 minutes, giving plenty of time for setup, comfort, and aftercare explanation.**
