

# Vision

---

At Padgate Academy, our ambitious Personal Development programme is integral to students thriving and developing in school and beyond. Through our programme, students gain the skills and knowledge to excel personally, contribute positively to the school community, engage actively in local or national initiatives, and understand their role in the global context. We prepare students for the future, providing direction, a moral compass, and the knowledge to be valuable members of society.

Our commitment is to develop self-confident, resilient individuals capable of making informed decisions in a changing world. We encourage students to contribute positively to society while embracing our core values of the acronym PRIDE.

- 
- P** positivity
  - R** resilience
  - I** integrity
  - D** determination
  - E** endeavour

Our curriculum prepares students for personal and academic success that go beyond the classroom. Our spiral age and stage developed curriculum encompasses statutory guidance, including Personal, Social, Health and Economic (PSHE) Relationships, Sex Education (RSE), Spiritual, Moral Social and Cultural development, Citizenship, British values, Religious education and Careers Information, Education and Guidance (CIEAG). Delivered through various methods; P.R.I.D.E lessons, enrichment activities, trips, assembly programme and bespoke Tutor time sessions.

Our focus is also on fostering our Academy values and developing the character virtues we believe are needed to flourish in life, emphasising holistic growth and the development of a strong moral compass.

By embedding personal development into every aspect of school life, we ensure that our students are well-equipped to navigate the complexities of the modern world and make the right choices by positively impacting on their communities, both locally and globally.
