

Music at Padgate

2021-2022

Looking to the future

How have I developed this year and what skills have I developed to take with me to study music at BTEC?

Music Technology Project

Using loops to compose an original piece of music through the use of BandLab to present to the class. Learning music technology terminology.

Planning a Festival Project

Working together to plan a festival, including choosing stages and acts. Preparing for BTEC music by developing planning and teamwork skills.

The Music Industry

Learning about how a pop band functions, practises and performs and elements of the music industry.

Mastering Just Play

Using Just Play to develop skills from year 7 and 8. Learning and using advanced skills on keyboard/guitar/vocals/ukulele.

Blues Performance

Learning about blues music and working in pairs to learn blues chords, vamp and blues scale.

Composition

Composing an original piece of music.

Song-Writing

Using Composition skills to compose own piece of pop music in groups to perform.

Performance techniques

What makes a good performance and how can we do this in front of an audience on an instrument (keyboard)?

Solo performance

Choosing a piece of music to learn on the keyboard and working towards a final performance.

Year 9 Learning journey
