ART

Art Key stage 3

The Art Key stage three programme enables every student to experience a wide variety of creative opportunities through developing their own ideas and gathering inspiration from artists, craftspeople and cultures. Throughout they are able to experiment and encouraged to explore with a range of materials and techniques, with a focus on building confidence and competence at all levels. During each yearly programme a range of specialisms are delivered such as painting, drawing, sculpture, textile, low relief clay work, creative media and printing. Work is assessed against 4 assessment objectives (Develop, record, refine and present) these relate directly to GCSE so there is a smooth transition into Key stage 4.

Art Key Stage 4

At Key Stage Four students will build on prior knowledge from previous years and extend their learning through a range of exciting workshop based lessons, mock examinations, trips and visits to inspire personal investigations whilst studying a range of modern and traditional artists. Over the course of study an expectation is to present and document their coursework to a high quality standard and it will bring together the four assessment objectives; Develop, Record, Refine and Present.

The AQA Art, Craft and Design GCSE is 60% coursework and 40% examination.
