Part 1 – Trusting information on websites

Starter

“List 3 things that make you click off a website when searching online”

5 mins

Task

10 mins

Visit the following websites:

www.bbc.co.uk

<http://havidol.com/>

1. For each write down one positive and one negative about the site.
2. Decide if the website is trustworthy or not.

So what should we look for?

6 Website Checks

- ✓ Professional look – *does the site look professional?*
- ✓ Quality Information – *is the information well written, have no spelling errors, is well detailed?*
- ✓ Links - *are they working?*
- ✓ Up-To-Date – *is it updated regularly?*
- ✓ Address – *does the web address relates to website?*
- ✓ Backed up – *is the information backed up by other websites?*

Check your understanding

- Open the worksheet called “Task 1 – Quick Review”
- Complete the worksheet without looking back at the information on the PowerPoint if you can!

Part 2 – Copyright laws

- YOUTUBE LINK

<http://www.youtube.com/watch?v=lnzDjH1-9Ns>

Copyright is a law

It is in place to **protect people's work and ideas.**

If you:

- **take people's work** (download music/films)
- **use people's work** (copy text/images from the internet for your school work)
- **steal people's ideas** (create a new vacuum cleaner with Dyson technology)

without permission and without acknowledging them, then you are breaking copyright law.

Activity 2

Open the “**Copyright Booklet**” file and complete the document with the information that you have learnt from today’s lesson.

If you use pictures from the internet to illustrate your work, don’t forget to quote your sources!

Let's summarise how to combat cyber
abuse

1. Record the evidence:

- record the **time and date**
- record the **user and the abuse.**

Use the print screen button!!!

With cyber bullying there is always a trail and keeping records is the most important thing when it comes to reporting the bullying

2. Tell a parent or teacher:

- Tell your parents, teacher or other trusted adult – don't stay silent and hope it will go away – it won't!
- As cyber abuse is completely unacceptable the police often get involved so don't be afraid if they are invited to investigate the case.

If very serious, you can report it to the police using the online CEOP button!

3. Don't reply to them:

Try not to reply to any messages you receive.

It can encourage the bullies more

And it may end up upsetting you more.

4. Keep personal information personal:

Never give out any personal details on the internet - your real name, address, age or phone number.

Even telling someone which school you go to can help them find out more about you and make the situation far worse.

5. Block:

- You can block email address or chat users if you are being bullied by email or instant messenger.
- You can also bar a particular number from contacting another phone on some handsets. Check your phone user guide to see if yours can.

6. Report:

- Use the 'report abuse' button which all websites/applications have.
- Tell them the problems you are having and they are obligated to investigate.

7. Time Away...

...Temporarily Suspend Your Account...

...or even Delete Your Account:

- If you are being bullied on a social network you could think about whether you want to delete your profile or make it temporarily inactive.

7 Ways to Combat Cyber-Abuse

1. **Record the evidence**
