

Nouns

The nouns are listed alphabetically from the Brown-Driver-Briggs lexicon. Mostly they are alphabetized

according to the root word. But many of the nouns have prefixes such as **-מ**, **-א**, **-ש**, **-ת** and **-י**, (in order of occurrence). These prefixes can be interpreted as one-letter prefixes such as **-from**, **-self**, **-of** respectively, or future gerunds (verbal nouns), or just the foundational way the noun is spelled, all of which add another layer of meaning to the root word.
