

Two-letter Roots

Words in Hebrew consist of at least two letters. This list is taken from the Brown-Driver-Briggs (BDB) Hebrew and English Lexicon. It lists the two-letter roots, their suggested root pronunciation, grammatical forms (verb, noun, adjective, adverb, preposition, conjunction, etc.), and samples of their location in the Torah:

Gn = Genesis; **Ex** = Exodus; **Lv** = Leviticus; **Nu** = Numbers; **Dt** = Deuteronomy, chapter(verse).

The list is not exhaustive, but it gives you a good introduction to the Torah word meanings based on their roots.
