# WILDLIFE SCAVENGER HUNT

Fall adventures in Cedar Park parks and trails

**Preserve - Engage - Connect**

**Explorer:** _____ **Date:** _____

**Park or trail:** _____

**Your mission:** Spot wildlife, look for clues, and leave its home undisturbed. Find 5 for a great start, or try for 10 over several visits. Photos, sounds, and tracks count!

## Look, listen, and check off your discoveries

- ☐ A lizard on a tree, rock, or shrub
- ☐ A squirrel climbing or finding food
- ☐ A bird with red feathers
- ☐ A bird searching for food
- ☐ Three different bird sounds
- ☐ A bird walking or hopping on the ground
- ☐ A butterfly visiting a flower
- ☐ A bee or another flower visitor
- ☐ A grasshopper, beetle, or dragonfly
- ☐ A spiderweb - look without touching
- ☐ An animal footprint in soft ground
- ☐ Animal scat - look, never touch

**Bonus:** A roadrunner, deer, rabbit, armadillo, fox, raccoon, opossum, skunk, or owl call. Nighttime and elusive animals are optional - no chasing or touching!

## Draw your favorite discovery

What did you notice? An animal, a track, a plant, or a sound?

**I wonder...**

_____

_____

_____

_____

## Be a good wildlife neighbor

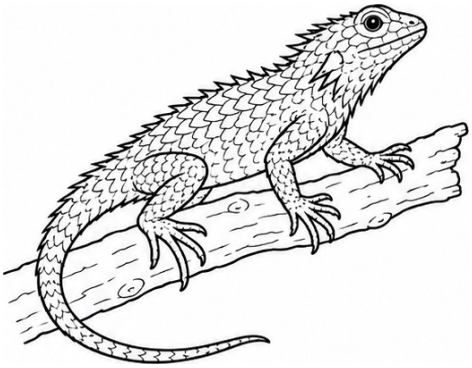

Bring water and a grown-up. Stay on trails. Keep dogs leashed. Never feed, catch, or chase wildlife. Leave nests, feathers, rocks, and logs in place. Pack out your trash.

Help PTFCP support the parks and trails we share with wildlife. Donate, volunteer, or join a Saturday Stroll.

Explore & support

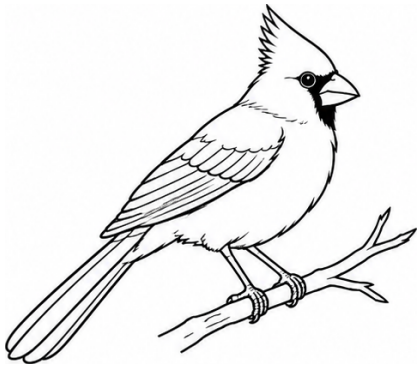

# COLOR OUR WILD NEIGHBORS

Color these Central Texas animals. Which might you see on a daytime walk? Which are mostly awake at night?

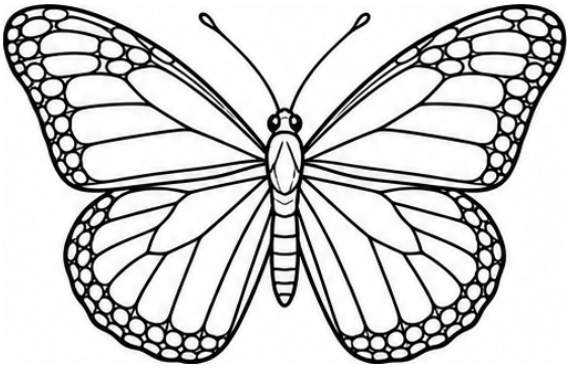

## Texas spiny lizard

Look for a lizard on a tree trunk.

## Northern cardinal

Look for a crest and a thick bill.

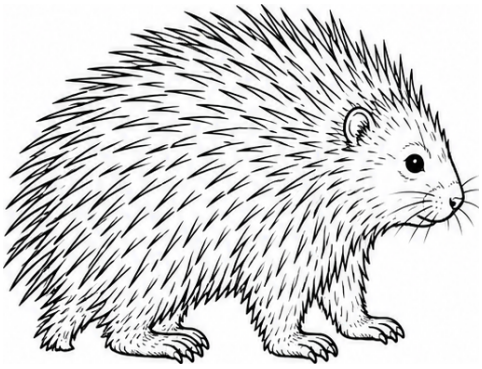

## Monarch butterfly

Fall travelers need flower nectar.

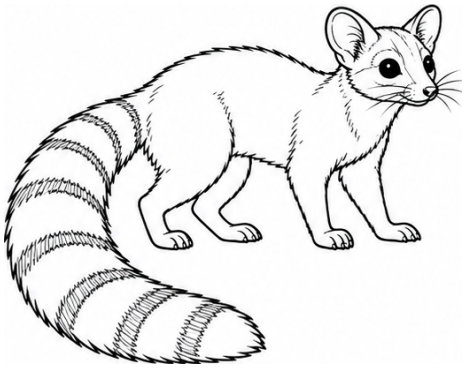

## Fox squirrel

Forgotten nuts can become trees.

## Porcupine

A nighttime climber. It cannot shoot quills!

## Ringtail

A nighttime mammal in the raccoon family.

### MY WILDLIFE PROMISE

I will watch gently, leave nature in place, and help keep our parks clean.
