# Annual Filing Affidavit

The State of Texas

County of Travis

I, Ron Peterson  
(Name of Duly Authorized District Representative)

of the Tanglewood Forest Limited District

hereby swear, or affirm, that the District named above has reviewed and approved at a meeting of the Board of Directors of the District on the 21 day of February, 2024, its annual audit report for the fiscal year ended September 30, 2021 and that copies of the annual audit report have been filed in the District office, located at 4301 Westbank Drive, Suite B-130, Austin, Texas 78746.

The annual filing affidavit and the attached copy of the annual audit report are being submitted to the Texas Commission on Environmental Quality in satisfaction of all annual filing requirements within Section 49.194 of the Texas Water Code and to the Texas Comptroller of Public Accounts in satisfaction of the annual filing requirements of Section 140.008 of the Texas Local Government Code.

Date: March 6, 2024. By: Ron Peterson  
(Signature of District Representative)

Ron Peterson, Board President  
(Typed Name and Title of above District Representative)

Sworn to and subscribed to before me this 6 day of March, 2024.

Yolanda Lara  
(Signature of Notary)

Yolanda Lara  
(Printed Name of Notary)

My Commission Expires On: 06/02/2024  
Notary Public in and for the State of Texas.

## Independent Auditors' Report

To the Board of Directors of  
Tanglewood Forest Limited District:

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the General Fund of Tanglewood Forest Limited District (the "District"), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

A Registered Company

ML&R WEALTH MANAGEMENT LLC

A Registered Investment Adviser

101 West 37th Street, 10th Floor

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the General Fund of the District as of September 30, 2021, and the respective changes in financial position and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 7 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information required by the Texas Commission on Environmental Quality (the "TCEQ") listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplemental information required by the TCEQ listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information required by the TCEQ listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## **Management's Discussion and Analysis For the Year Ended September 30, 2021**

In accordance with Governmental Accounting Standards Board ("GASB") Statement No. 34, the management of Tanglewood Forest Limited District (the "District") offers the following narrative on the financial performance of the District for the year ended September 30, 2021. Please read it in connection with the District's financial statements that follow.

For purposes of GASB Statement No. 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the "General Fund" column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the Statement of Net Position and the Statement of Activities.

### **Overview of the Basic Financial Statements**

The District's reporting is comprised of two parts:

- *Management's Discussion and Analysis* (this section)
- *Basic Financial Statements*
  - *Statement of Net Position and Governmental Fund Balance Sheet*
  - *Statement of Activities and Governmental Fund Revenues, Expenditures, and Changes in Fund Balance*
  - *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund*
  - *Notes to Basic Financial Statements*

Other supplementary information is also included.

The *Statement of Net Position and Governmental Fund Balance Sheet* includes a column (titled "General Fund") that represents a balance sheet prepared using the modified accrual basis of accounting. The adjustments column converts those balances to a balance sheet that more closely reflects a private-sector business. Over time, increases or decreases in the District's net position will indicate financial health.

The *Statement of Activities and Governmental Fund Revenues, Expenditures, and Changes in Fund Balance* includes a column (titled "General Fund") that derives the change in fund balances resulting from current year revenues, expenditures, and other financing sources or uses. These amounts are prepared using the modified accrual basis of accounting. The adjustments column converts those activities to full accrual, a basis that more closely represents the income statement of a private-sector business.

The *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund* presents a comparison statement between the District's adopted budget to its actual results.

The *Notes to Basic Financial Statements* provide additional information that is essential to a full understanding of the information presented in the *Statement of Net Position and Governmental Fund Balance Sheet* and the *Statement of Activities and Governmental Fund Revenues, Expenditures, and Changes in Fund Balance*.

Schedules required by the Texas Commission on Environmental Quality are presented immediately following the *Notes to Basic Financial Statements*.

## Comparative Financial Statements

### Statement of Net Position

|                                  | Governmental Activities |                     |              |
|----------------------------------|-------------------------|---------------------|--------------|
|                                  | 2021                    | 2020                | % Change     |
| Current assets                   | \$ 653,890              | \$ 508,884          | 28%          |
| Capital assets                   | 807,997                 | 825,538             | (2%)         |
| Total assets                     | <u>\$ 1,461,887</u>     | <u>\$ 1,334,422</u> | <u>10%</u>   |
| Total liabilities                | <u>\$ 36,204</u>        | <u>\$ 43,678</u>    | <u>(17%)</u> |
| Net investment in capital assets | \$ 807,997              | \$ 825,538          | (2%)         |
| Unrestricted                     | 617,686                 | 465,206             | 33%          |
| Total net position               | <u>\$ 1,425,683</u>     | <u>\$ 1,290,744</u> | <u>10%</u>   |

The District's total assets were approximately \$1.5 million as of September 30, 2021. Of this amount, approximately \$0.8 million is included in capital assets. The District had outstanding liabilities of approximately \$36,000 as of September 30, 2021, all of which are current liabilities.

| Depreciation                                        | 57,855                  | 52,415              | 10%         |
| Total expenses                                      | <u>785,011</u>          | <u>796,635</u>      | <u>(1%)</u> |
| Change in net position                              | 134,939                 | 56,448              | 139%        |
| Beginning net position                              | <u>1,290,744</u>        | <u>1,234,296</u>    | <u>5%</u>   |
| Ending net position                                 | <u>\$ 1,425,683</u>     | <u>\$ 1,290,744</u> | <u>10%</u>  |

Revenues were approximately \$920,000 for the fiscal year ended September 30, 2021, which is a 8% increase from the prior year. Property taxes provided approximately \$867,000 and other revenues provided approximately \$53,000. Total expenses decreased approximately \$12,000 to approximately \$785,000 for the fiscal year ended September 30, 2021, of which approximately \$727,000 related to service operations and approximately \$58,000 related to depreciation. Net position increased approximately \$135,000 for the fiscal year ended September 30, 2021.

### Analysis of Governmental Funds

|                                                                        | 2021              | 2020              |
|------------------------------------------------------------------------|-------------------|-------------------|
| Cash                                                                   | \$ 607,375        | \$ 462,724        |
| Receivables                                                            | 29,925            | 29,570            |
| Prepaid items                                                          | 16,590            | 16,590            |
| Total assets                                                           | <u>\$ 653,890</u> | <u>\$ 508,884</u> |
| Accounts payable                                                       | \$ 36,204         | \$ 43,678         |
| Deferred inflows of resources                                          | 17,345            | 16,990            |
| Nonspendable fund balance                                              | 16,590            | 16,590            |
| Assigned fund balance                                                  | 38,256            | 20,289            |
| Unassigned fund balance                                                | 545,495           | 411,337           |
| Total fund balances                                                    | <u>600,341</u>    | <u>448,216</u>    |
| Total liabilities, deferred inflows of resources,<br>and fund balances | <u>\$ 653,890</u> | <u>\$ 508,884</u> |

The *General Fund* pays for daily operating expenditures. When comparing actual to final budget, actual revenues were greater than final budget by approximately \$123,000 primarily due to more property tax revenue than expected. Actual expenditures were less than final budget by approximately \$27,000 primarily due to less professional fees and contracted services expenditures than budgeted, which was offset some by higher repairs and maintenance and capital outlay expenditures than expected. More detailed information about the District's budgetary comparison is presented in the *Basic Financial Statements*.

### Capital Assets

|                          | 2021               | 2020               |
|--------------------------|--------------------|--------------------|
| Land                     | \$ 528,688         | \$ 528,688         |
| Park improvements        | 1,804,128          | 1,763,814          |
| Pool facilities          | 660,165            | 660,165            |
| Accumulated depreciation | <u>(2,184,984)</u> | <u>(2,127,129)</u> |
| Total                    | <u>\$ 807,997</u>  | <u>\$ 825,538</u>  |

More detailed information about the District's capital assets is presented in the *Notes to Basic Financial Statements*.

### Currently Known Facts, Decisions, or Conditions

For fiscal year 2022, which is tax year 2021, the tax rate has been set at \$0.1865 per \$100 of assessed valuation for maintenance and operating expenditures. The adopted budget for 2022 projects a decrease in fund balance for the General Fund of approximately \$38,000. When compared to the 2021 final budget, revenues and expenditures are expected to increase by approximately \$153,000 and \$163,000, respectively.

### Requests for Information

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District c/o The Carlton Law Firm, PLLC 4301 Westbank Drive, Suite B-130, Austin, Texas 78746.

The notes to the financial statements are an integral part of this statement.

# **Tanglewood Forest Limited District**

## **Notes to Basic Financial Statements Year Ended September 30, 2021**

---

### **1. Summary of Significant Accounting Policies**

Tanglewood Forest Limited District (the “District”) was converted to a limited district on December 31, 1997, upon annexation of Tanglewood Forest Municipal Utility District by the City of Austin, Texas pursuant to Section 43.0751(f)(6) of the Local Government Code. The District owns, maintains, operates, and controls the parks and recreational facilities within the District’s boundaries. It also provides security for these parks and recreational facilities, maintains landscaping in the Slaughter Lane median, enforces restrictive covenants, and provides graffiti removal. The District’s initial term was to be no more than ten years ended December 31, 2007. In September 2007, the term was extended through December 31, 2017. In August 2017, the term was extended through December 31, 2027.

The District is governed by a five member Board of Directors (the “Board”) which has been elected by District residents or appointed by the Board. The District is not included in any other governmental “reporting entity” as defined by the Governmental Accounting Standards Board (“GASB”), since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. In addition, there are no component units which are included in the District’s reporting entity.

### **Government-Wide and Fund Financial Statements**

For purposes of GASB Statement No. 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the “General Fund” column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the statement of net position and the statement of activities.

The statement of activities demonstrates the degree to which the expenses are offset by program revenues. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by the District. Taxes and other items not properly included among program revenues are reported instead as general revenues.

### **Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Amounts reported as program revenues include charges to customers or applicants for goods, services, or privileges provided. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Major revenue sources considered susceptible to accrual include interest income. No accrual for property taxes collected within sixty days of year end has been made as such amounts are deemed immaterial; delinquent property taxes at year end are reported as deferred inflows of resources.

The District reports the following major governmental fund -

The General Fund includes financial resources used for general operations. It is a budgeted fund, and any unassigned fund balance is considered resources available for current operations.

### **Budgets and Budgetary Accounting**

Formal budgetary integration is employed as a management control device for the General Fund. The budget is proposed by the District's General Manager and Board Treasurer for the fiscal year commencing the following October 1, and is adopted on the modified accrual basis, which is consistent with generally accepted accounting principles.

### **Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity**

Investments - The District's investment policies and types of investments are governed by Section 2256 of the Texas Government Code ("Public Funds Investment Act"). The District's management believes that it complied with the requirements of the Public Funds Investment Act and the District's investment policies.

Prepaid Items - Certain payments to vendors reflect costs applicable to future periods and are recorded as prepaid assets in both the government-wide and fund financial statements. Prepaid assets are charged to expenditures when consumed.

Capital Assets - Capital assets, which include land, park improvements, and pool facilities are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of at least \$5,000. Such assets are recorded at historical cost if purchased or estimated acquisition value at the date of donation if donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized.

Capital assets (other than land) are depreciated using the straight-line method over the following estimated useful lives:

| Asset             | Years |
|-------------------|-------|
| Park improvements | 10-20 |
| Pool facilities   | 15    |

Ad Valorem Property Taxes - Property taxes, penalties and interest are reported as revenue in the fiscal year in which they become available to finance expenditures of the District. Allowances for uncollectibles are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Fund Balance - The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental fund. See Note 6 for additional information on those fund balance classifications.

Deferred Outflows and Inflows of Resources - The District complies with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period.

The District complies with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

Fair Value Measurements - The District complies with GASB Statement No. 72, *Fair Value Measurement and Application*, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into a three-level fair value hierarchy as follows:

- Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access.
- Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity.
- Level 3 inputs are unobservable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

There are three general valuation techniques that may be used to measure fair value:

- Market approach - uses prices generated by market transactions involving identical or comparable assets or liabilities.
- Cost approach - uses the amount that currently would be required to replace the service capacity of an asset (replacement cost).
- Income approach - uses valuation techniques to convert future amounts to present amounts based on current market expectations.

Use of Estimates - The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

### **Recently Issued Accounting Pronouncement**

In June 2017, the GASB issued GASB Statement No. 87, *Leases*, effective for fiscal years beginning after June 15, 2021. The objective of GASB Statement No. 87 is to improve accounting and financial reporting for leases by governments by requiring recognition of certain lease assets and liabilities that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. GASB Statement No. 87 establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB Statement No. 87, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and deferred inflow of resources. Management is evaluating the effects that the full implementation of GASB Statement No. 87 will have on its financial statements for the year ended September 30, 2022.

## **2. Reconciliation of Government-Wide and Fund Financial Statements**

Amounts reported for governmental activities in the statement of net position are different because:

|                                                                                                                                                          |                            |
|----------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|
| Governmental fund total fund balance                                                                                                                     | \$ 600,341                 |
| Capital assets used in governmental activities are not current financial resources and are therefore not reported in the governmental fund balance sheet | 807,997                    |
| Deferred tax revenue is not available to pay for current-period expenditures and, therefore, is deferred in the fund                                     | <u>17,345</u>              |
| Total net position                                                                                                                                       | <u><u>\$ 1,425,683</u></u> |

Amounts reported for governmental activities in the statement of activities are different because:

|                                                                                                                                                                                                               |                   |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| Change in fund balance                                                                                                                                                                                        | \$ 152,125        |
| Governmental funds report capital outlays as expenditures.<br>However, in the statement of activities, the cost of those<br>assets is allocated over their estimated useful lives as<br>depreciation expense: |                   |
| Capital outlay                                                                                                                                                                                                | 40,314            |
| Depreciation expense                                                                                                                                                                                          | (57,855)          |
| Revenues in the statement of activities that do not provide<br>current financial resources are not reported as revenues in<br>the fund-                                                                       |                   |
| Property tax revenue                                                                                                                                                                                          | <u>355</u>        |
| Change in net position                                                                                                                                                                                        | <u>\$ 134,939</u> |

### 3. Cash and Temporary Investments

The District's deposits are required to be secured in the manner provided by law for the security of the funds. At September 30, 2021, such deposits were entirely covered by Federal Deposit Insurance Corporation ("FDIC") insurance or secured by collateral pledged by the depository.

The Public Funds Investment Act authorizes the District to invest in funds under a written investment policy. The District's deposits and investments are invested pursuant to the investment policy, which is approved annually by the Board. The primary objectives of the District's investment strategy, in order of priority, are safety, liquidity, and yield.

The District is entitled to invest in: (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State of Texas or its agencies and instrumentalities; (3) certain collateralized mortgage obligations; (4) other obligations, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States; (5) obligations of states, agencies, counties, cities and other political subdivisions having not less than an "A" rating from a nationally recognized investment rating firm; (6) insured or collateralized certificates of deposit issued by a bank or savings and loan associations doing business in the State of Texas; (7) certain fully collateralized repurchase agreements; (8) certain bankers' acceptance and commercial paper with a maturity of 270 days or less; (9) certain no-load money market mutual funds and mutual funds; and (10) certain public fund investment pools. At September 30, 2021, the District had no investments.

#### 4. Property Taxes

The Texas Water Code authorizes the District to levy a tax each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located within its boundaries. Assessed values are established annually by the Travis Central Appraisal District. District property tax revenues are recognized when levied to the extent that they are collected in the current year. The uncollected balance is reported as deferred inflows of resources. Taxes receivable are due January 1 and are delinquent if received after January 31 and are subject to penalty and interest charges.

In October 2020, the District levied a maintenance tax rate of \$0.1896 per \$100 of assessed valuation to finance maintenance and operating expenditures. The total 2020 tax levy was \$870,401 based on a taxable valuation of \$455,543,137.

#### 5. Capital Assets

Capital assets activity for the year ended September 30, 2021 was as follows:

|                                                | Balance<br>September 30,<br>2020 | Additions | Retirements | Balance<br>September 30,<br>2021 |
|------------------------------------------------|----------------------------------|-----------|-------------|----------------------------------|
| Capital assets<br>not being depreciated-       |                                  |           |             |                                  |
| Land                                           | \$ 528,688                       | -         | -           | 528,688                          |
| Total capital assets<br>not being depreciated  | 528,688                          | -         | -           | 528,688                          |
| Capital assets<br>being depreciated:           |                                  |           |             |                                  |
| Park improvements                              | 1,763,814                        | 40,314    | -           | 1,804,128                        |
| Pool facilities                                | 660,165                          | -         | -           | 660,165                          |
| Total capital assets<br>being depreciated      | 2,423,979                        | 40,314    | -           | 2,464,293                        |
| Less accumulated<br>depreciation for:          |                                  |           |             |                                  |
| Park improvements                              | (1,536,042)                      | (43,693)  | -           | (1,579,735)                      |
| Pool facilities                                | (591,087)                        | (14,162)  | -           | (605,249)                        |
| Total accumulated<br>depreciation              | (2,127,129)                      | (57,855)  | -           | (2,184,984)                      |
| Total capital assets<br>being depreciated, net | 296,850                          | (17,541)  | -           | 279,309                          |
| Capital assets, net                            | \$ 825,538                       | (17,541)  | -           | 807,997                          |

## 6. Fund Balance

The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

Nonspendable - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

Committed - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

Assigned - For the General Fund, the Board may appropriate amounts that are to be used for a specific purpose. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

Unassigned - Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

The detail of the fund balances is included in the Governmental Fund Balance Sheet on page 8. Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board has the authority to assign fund balance for a specific purpose. In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

## 7. Risk Management

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District effectively manages its risk by obtaining coverage from commercial insurance companies for its fidelity bonds and the Texas Municipal League Intergovernmental Risk Pool ("TML Pool") to provide property and boiler and machinery coverage. All risk management activities are accounted for in the General Fund. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The TML Pool was established by various political subdivisions in Texas to provide self-insurance for its members and to obtain lower costs for insurance. TML Pool members pay annual contributions to obtain the insurance. Annual contribution rates are determined by the TML Pool board. Rates are estimated to include all claims expected to occur during the policy including claims incurred but not reported. The TML Pool has established claims reserves for each of the types of insurance offered. Although the TML Pool is a self-insured risk pool, members are not contingently liable for claims filed above the amount of the fixed annual contributions. If losses incurred are significantly higher than actuarially estimated, the TML Pool adjusts the contribution rate for subsequent years. Members may receive returns of contributions if actual results are more favorable than estimated.
