Lindshire Pond Duck Study

BOARD SPEAKING NOTES • NOVEMBER 18, 2026 • APPROX. 4 MINUTES

Good evening. Over the past two months, the Board-approved Duck Study Group gathered information from Texas Parks and Wildlife, the City of Taylor, Wildernex Wildlife Management, and District residents. Our goal has been to share what we learned, not to recommend a particular outcome.

The ducks are a familiar and valued part of Lindshire Pond. At the same time, the growing Muscovy population has raised questions about the pond environment, traffic safety, and impacts on nearby residents.

Texas Parks and Wildlife urban wildlife biologist Natasia Moore discussed concerns about the Muscovy population at the March 2025 Board meeting. We contacted her again in September. A count taken that month recorded 62 Muscovy ducks at the pond. She identified overpopulation as a concern, explaining that large numbers can affect vegetation, water quality, and native wildlife.

Moore explained a concept called ‘social carrying capacity.’ In plain terms, that means considering how many ducks the community can tolerate, based on resident concerns, wildlife conflicts, and other impacts. She said that, from an ecological standpoint, the long-term goal would be no non-native Muscovy ducks at the pond. However, she emphasized that changes could be gradual and should take community concerns into account.

The options discussed include egg oiling, which prevents eggs from developing and limits future population growth. If the Board chooses to reduce the existing adult population, trapping followed by humane euthanasia was the method discussed. Moore also advised that wild Muscovy ducks cannot simply be relocated or rehomed. Any proposed transfer would need legal review for compliance with federal regulations before action is taken.

For comparison, we contacted the City of Taylor. Taylor chose public education through signs, social media, and door hangers, along with egg oiling, without removing adult birds. Its parks director reported fewer ducks gathering at public ponds, although they still gather near homes where feeding continues. Taylor uses Wildernex Wildlife Management, which also offers adult population-management services.

To hear directly from residents, the study group conducted a short, voluntary survey. It was shared on Facebook, at the pond bulletin board, and through flyers delivered to approximately 50 nearby homes. As of November 14, we had 43 responses. Of those, 41 respondents said they live beside the pond or within a few blocks.

The results show an important distinction: residents can observe duck-related problems without feeling significantly affected by them. Thirty-nine of the 43 respondents selected ‘not at all’ when asked how much duck-related issues negatively affect their property or enjoyment of the area.

At the same time, 22 reported droppings on public walkways, 14 observed ducks creating traffic hazards, and five reported observing duck injuries or vehicle collisions. Seven said they clean or maintain their property at least once a month because of ducks. No respondents reported confirmed property damage, although two selected ‘unsure.’

When asked about managing the non-native population, 18 selected no management, while 11 wanted more information before deciding. Sixteen said they feed the ducks, either occasionally or rarely; none reported feeding them weekly or daily.

The written packet includes the research, charts for each closed-response survey question, and residents’ comments. These voluntary survey responses are not a District-wide vote. We offer the findings to the Board and the community for consideration, without recommending a particular outcome. Thank you.

Column1	How close do you live to Lindshire Pond?	What is the nearest street intersection to your residence? This information is optional and will help us identify areas where duck-related concerns may be more common.	How often do you visit or pass through the Lindshire Pond area?	What do you value about the ducks at Lindshire Pond?	How frequently have you needed to clean or maintain your property specifically because of ducks during the past 6 months?	During the past 6 months, which of the following have you personally experienced or observed in the Lindshire Pond area? (check all that apply)	Have you experienced any property damage or financial expenses that you believe were directly caused by ducks?	Overall, how much do duck-related issues negatively affect your use or enjoyment of the Lindshire Pond area or your property?	Were you aware that Lindshire Pond is home to both native duck species and non-native ducks?	Which approach to managing the non-native duck population would you most prefer?	How often do you personally feed the ducks at Lindshire Pond?	If you feed the ducks at Lindshire Pond, what types of food do you typically provide?	Is there anything else you would like the Board to know about the ducks or your experience at Lindshire Pond?
1	Within a block	Linshire and Jubilee	A few times a month	Contribute to the atmosphere and character of the pond	Never	No issues experienced or observed	No	1	Yes	Do not manage at all	Never		Don't mess up our pond!!!!!!!
2	Within a few blocks	Brantley bend and alcott	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Never	Duck droppings on sidewalks or public walkways, Ducks droppings on my property (yard, driveway, roof, patio, etc.), Ducks obstructing roads or creating traffic hazards	No	1	Yes	Do not manage at all	Occasionally (a few times per month or less)	Vegetables (such as peas or lettuce)	I love the ducks!!!! Don't harm them! Even though they make a mess they ate great and essential to our community.
3	Within a block	Lindshire/Alcott	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Contribute to the atmosphere and character of the pond	Weekly	Duck droppings on my property (yard, driveway, roof, patio, etc.), It can be annoying when they poop on my driveway but I love them and put up with it because of the joy they bring.	No	1	Yes	Use egg oiling to limit future population growth, without removing existing ducks	Occasionally (a few times per month or less)	Vegetables (such as peas or lettuce)	Obviously there must be complaints if there is a survey about this but I love living with the ducks and want that to continue. I understand if they need to be managed because of the volume of ducks but I vote for the most humane treatment and think residents can contribute. I love suggestions like signage, feeding rules, volunteer days, etc. to add some ownership as a neighborhood. I see way too much terrible behavior such as people feeding loaves of white bread, driving fast through the intersection, people fishing in the pond and leaving hooks/fishing line, leaving trash near pond. I would be down to participate or help with some sort of campaign or signs. Why not even a duck festival or some sort of event to raise awareness or funds that could go to addressing these issues? It is such a unique and special part of living here that we should take pride in.
4	Within a few blocks		A few times a month	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Never	Duck droppings on sidewalks or public walkways	No	1	Yes	Not sure / Need more information	Rarely (once or twice a year)	Vegetables (such as peas or lettuce)	
5	Within a block	Lindshire and Brantley	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Never	No issues experienced or observed	No	1	Unsure	Do not manage at all	Never		We love the ducks and ducklings and feel lucky to have them so close!! We brag to friends about them and like to show them off. We named the white one with the fancy hairdo "George". I get more mess in my yard from dogs than from ducks.
6	Within a few blocks	Rochelle and Ivanhoe	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond, I love the ducks!	Never	No issues experienced or observed	No	1	Yes	Not sure / Need more information	Never		
7	Within a few blocks	Lindshire & Slaughter	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Not applicable / Don't live close enough	Ducks obstructing roads or creating traffic hazards, Duck injuries or vehicle collisions	No	1	No	Not sure / Need more information	Never		
8	Within a block	Brantley cove/brantley bend	A few times a month	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks	Once or twice in the past 6 months	Duck droppings on sidewalks or public walkways, Ducks obstructing roads or creating traffic hazards, Duck injuries or vehicle collisions	No	1	Yes	Use egg oiling to limit future population growth, without removing existing ducks	Occasionally (a few times per month or less)	Vegetables (such as peas or lettuce)	Na
9	Within a few blocks	Rochelle	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Once or twice in the past 6 months	Duck droppings on sidewalks or public walkways, Duck droppings on my property (yard, driveway, roof, patio, etc.), Ducks obstructing roads or creating traffic hazards, Unpleasant odors or sanitation concerns	No	2	Yes	Use egg oiling to limit future population growth, without removing existing ducks	Never		
10	Within a few blocks	Rochelle and Larson Cove	A few times a month	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children	Never	Duck droppings on sidewalks or public walkways	No	1	No	Not sure / Need more information	Occasionally (a few times per month or less)	Birdseed or commercial waterfowl feed	
11	Within a few blocks	Brantley	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Contribute to the atmosphere and character of the pond	Once or twice in the past 6 months	No issues experienced or observed	No	1	Yes	Do not manage at all	Never		I didn't realize I needed ducks in my life until I moved to a street with a duck pond. Seeing them brings me daily joy and happiness.
12	Within a few blocks	Sugar Hill and Nightjar (a few blocks when you walk across the park)	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond, Blue Heron ponied 2 weeks ago that was over 5 feet tall!!!	Never	No issues experienced or observed	No	1	No	Use egg oiling to limit future population growth, without removing existing ducks	Never		Not about ducks, but need to repeat - I saw 2 Herons over 5 feet tall just a couple weeks ago!! Their legs were so long that in only a few steps they moved from the sidewalk to the wall and I couldn't get a picture. But WOW
13	Within a few blocks	Lindshire/jadewood	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Never	Duck droppings on sidewalks or public walkways	No	1	Yes	Do not manage at all	Rarely (once or twice a year)	Vegetables (such as peas or lettuce)	
14	Within a few blocks	Lindshire/Hunnicut Ct	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Contribute to the atmosphere and character of the pond	Never	Duck droppings on sidewalks or public walkways	No	1	Yes	Use egg oiling to limit future population growth, without removing existing ducks, Reduce the current duck population through humane management, combined with measures to limit future growth	Rarely (once or twice a year)	Birdseed or commercial waterfowl feed	
15	Within a block	Lindshire & Alcot	Several times a week	Enjoy watching ducks and their natural behaviors	Never	No issues experienced or observed	No	1	Yes	Do not manage at all	Never		Please do not f@#k up our beautiful duck pond!
16	Within a block		Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond, I appreciate wildlife but have no particular attachment to the ducks	Not applicable / Don't live close enough	No issues experienced or observed	No	1	Unsure	Do not manage at all, Not sure / Need more information	Rarely (once or twice a year)	Bread, crackers, or other baked goods	
17	Within a block	Lindshire and Rochelle	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond, We like to make up stories about their various cliques/gang affiliations.	Weekly	Duck droppings on sidewalks or public walkways, Duck droppings on my property (yard, driveway, roof, patio, etc.), Ducks obstructing roads or creating traffic hazards	No	1	Yes	Not sure / Need more information	Occasionally (a few times per month or less)	Vegetables (such as peas or lettuce)	We LOVE the ducks! I just want folks to stop feeding them trash, letting the toddlers chase/harass them, leaving fishhooks about, and driving too dang fast on Lindshire. These are all PEOPLE problems, NOT duck problems.
18	Within a few blocks	Jubilee / Rochelle	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Contribute to the atmosphere and character of the pond	Never	Duck droppings on sidewalks or public walkways, I worry about the ducks in traffic	No	1	No	Not sure / Need more information	Never		I love the ducks/wildlife there! I hope we can keep them happy, healthy and safe!
19	Elsewhere within the District		Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Contribute to the atmosphere and character of the pond	Never	No issues experienced or observed	No	1	Yes	Do not manage at all	Never		The ducks are amazing and have a great impact on the community. They provide a relaxing environment which helps after long hard days at work and school.
20	Elsewhere within the District		Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Never	No issues experienced or observed	No	1	Yes	Do not manage at all	Never		The ducks bring me and my family much joy. We love getting to see them grow and have babies. They have really helped us through some tough times getting to watch them. They are great for this community!
21	Within a block		Several times a week	I appreciate wildlife but have no particular attachment to the ducks	Never	Duck droppings on sidewalks or public walkways, Ducks obstructing roads or creating traffic hazards	No	3	No	Not sure / Need more information	Never		
22	My property borders the pond or park	Alcott Ln	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Contribute to the atmosphere and character of the pond	Never	Duck droppings on sidewalks or public walkways, Ducks obstructing roads or creating traffic hazards	Unsure	1	Yes	Do not manage at all	Never		
23	Within a block	Lindshire & hunnicut	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Once or twice in the past 6 months	Duck droppings on sidewalks or public walkways, Duck droppings on my property (yard, driveway, roof, patio, etc.), Additional cleaning or maintenance due to ducks, Ducks obstructing roads or creating traffic hazards, Duck injuries or vehicle collisions, I love the ducks but feel that when the duck population increases they suffer - we've seen many hit by cars & had to bury one that got hit in front of our house. Personally I think speed bumps would be helpful on Lindshire. Or a stop sign.	No	1	No	Not sure / Need more information	Rarely (once or twice a year)	Leftover human food	Love the wildlife in tanglewood- enjoy ducks, deer, owls, hawks. Not a big fan of feeding type activities for wildlife. All creatures great & small deserve respect & humane treatment in the space that we share.
24	Within a block	Lindshire & Alcot	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Weekly	No issues experienced or observed, It's nature of course some of the above answers	No	1	Yes	Do not manage at all	Never	Leave fresh water out in summer	The ducks are part of the neighborhood- I have lived one house south of the pond for 20-plus years. We would like to see the duck population (including the whistling species) left alone. And to keep the pond pump working so water circulates.
25	My property borders the pond or park	Lindshire	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Never	No issues experienced or observed	No	1	Yes	Do not manage at all	Occasionally (a few times per month or less)	Birdseed or commercial waterfowl feed	Do not get rid of the ducks!
26	My property borders the pond or park	Lindshire/Alcott	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond, They are the most important members of our community	Never	No issues experienced or observed	No	1	Yes	Keep the water pump circulating for the benefit of the duck population	Never		The ducks and the pond are an established part of the neighborhood. Please leave them be.
27	Within a block	2811 Alcott Lane	Rarely or never	I do not see a benefit to having ducks at the pond. Nor do I enjoy duck poop all over my driveway, sidewalks, or my front porch	Weekly	Duck droppings on sidewalks or public walkways, Duck droppings on my property (yard, driveway, roof, patio, etc.), Additional cleaning or maintenance due to ducks, Ducks obstructing roads or creating traffic hazards	Unsure	4	Yes	Remove all ducks as they do not enhance property values nor are they an enjoyable amenity.	Never		Put fish in the pond; let kids go fishing. Remove the ducks.
28	Within a block	Wadsworth Way and Jubilee Trail	A few times a month	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond, I value turtles and other wildlife also	Never	Duck droppings on sidewalks or public walkways, Unpleasant odors or sanitation concerns	No	1	Yes	Reduce the current duck population through humane management, combined with measures to limit future growth	Never		
29	Within a few blocks	Brantley Bend	Daily	Contribute to the atmosphere and character of the pond	Monthly	Duck droppings on sidewalks or public walkways, Duck droppings on my property (yard, driveway, roof, patio, etc.), Additional cleaning or maintenance due to ducks, Unpleasant odors or sanitation concerns	No	3	Yes	Reduce the current duck population through humane management, combined with measures to limit future growth	Never		
30	My property borders the pond or park	Alcott	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond, I do not see a benefit to having ducks at the pond, This pond brings great solace to people especially young teenagers I see sitting alone at the park. I would hate to think you would take away this area that may be saving those with mental illness or daily stressors. I also see the duck pady DAILY feed those ducks between 11:00 and Noon. She will be so upset if you do anything to those ducks. Please visit with her to discuss this change.	Daily or almost daily	Duck droppings on sidewalks or public walkways, Duck droppings on my property (yard, driveway, roof, patio, etc.), Additional cleaning or maintenance due to ducks, Ducks obstructing roads or creating traffic hazards, People can put up barriers to keep ducks off certain areas. Everyone that lives here knows the ducks are just something we have to live with because we have to coexist with them . It's the geese that are aggressive not the ducks.	No	1	Yes	Do not manage at all	Rarely (once or twice a year)	Vegetables (such as peas or lettuce)	You need to get that pond area a certified wildlife habitat so people cant complain about it. If they live by the pond and are complaining they should of known ducks would be a daily visitor. That park is not just visited by Tanglewood. I watch it like a hawk because I live directly across from it and have called the police a few times when I see issues.
31	My property borders the pond or park	Jubilee Trail	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Contribute to the atmosphere and character of the pond	Once or twice in the past 6 months	Duck droppings on my property (yard, driveway, roof, patio, etc.)	No	1	Yes	Do not manage at all	Occasionally (a few times per month or less)	Birdseed or commercial waterfowl feed	
32	My property borders the pond or park	Lindshire/Rochelle	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Monthly	No issues experienced or observed	No	1	Yes	Do not manage at all	Rarely (once or twice a year)	Birdseed or commercial waterfowl feed	We enjoy our pond
33	Within a block		Several times a week	Enjoy watching ducks and their natural behaviors, Contribute to the atmosphere and character of the pond	Once or twice in the past 6 months	Duck droppings on sidewalks or public walkways, Duck droppings on my property (yard, driveway, roof, patio, etc.), Ducks obstructing roads or creating traffic hazards	No	1	Yes	Reduce the current duck population through humane management, combined with measures to limit future growth	Never		
34	Within a few blocks	Jubilee and Rochelle	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond, It feels so nice to be connected to nature so close to home. Such a blessing many people don't have.	Never	No issues experienced or observed, Ducks ok, geese can be mean sometimes	No	1	Yes	Use egg oiling to limit future population through humane management, combined with measures to limit future growth	Never	We don't feed the ducks.	My wife and I love this feature of the neighborhood. It's such a blessing and unique area that makes this place special. The ducks are obviously very happy at the pond. If someone toured and bought a house fully knowing it was near a duck pond, and is now upset about ducks pooping in their yard - that's just ridiculous. Scoop it up, use it as fertilizer, etc. Appreciate nature while we still have it. Ducks are fantastic little creatures and are harmless.
35	My property borders the pond or park	Jubilee and Rochelle	Rarely or never	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Contribute to the atmosphere and character of the pond	Never	No issues experienced or observed	No	1	Yes	Do not manage at all	Never		40-year resident. LOVE the ducks. Big part of quality of life is watching them fly overhead, walking around neighborhood, etc., having to slow down for them at every once in a while as a civilizing effect on us. Just as we would yield to children or elderly. Pls don't take the ducks away!
36	Within a block	Lindshire & Rochelle	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Once or twice in the past 6 months	No issues experienced or observed	No	1	Yes	Do not manage at all	Never	I don't feed them	I would like context for the reasons behind this. The ducks are a huge positive for this neighborhood and create a unique atmosphere.
37	Within a block	Rochelle	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Contribute to the atmosphere and character of the pond	Never	No issues experienced or observed	No	1	Yes	Do not manage at all	Occasionally (a few times per month or less)	Birdseed or commercial waterfowl feed	We absolutely enjoy and love the ducks--especially the Muscovy ducks!! They have character and we have come to know some of the individual ducks, over years. I can't imagine living here in this neighborhood without our beloved Muscovy and other ducks. Please, please, let them live here. They chose this place and it is their home, like ours.
38	Within a block	Lindshire and Rochelle	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Never	Duck droppings on sidewalks or public walkways, Duck droppings on my property (yard, driveway, roof, patio, etc.), Ducks obstructing roads or creating traffic hazards, Duck injuries or vehicle collisions	No	1	Yes	Not sure / Need more information	Never		The pond will always naturally draw both native and nonnative ducks. If we are going to have a pond, we have to appreciate these ducks. Some minimal management may be required to support native birds. People should not move to an area with a duck pond if they do not want to have ducks in the street or yard. They are a lovely part of our green spaces.
39	Within a block	Lindshire and Alcott	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Never	Duck droppings on sidewalks or public walkways, Duck droppings on my property (yard, driveway, roof, patio, etc.), Ducks obstructing roads or creating traffic hazards	No	1	Yes	Reduce the current duck population through humane management, combined with measures to limit future growth	Never		Even though I experience duck droppings on my sidewalk and driveway, I still want them around. I do believe management for the non-native Egyptian goose is important as well. The ducks at the pond have brought me joy since I was a kid and now as a young adult!
40	Within a block	Lindshire and Rochelle	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Contribute to the atmosphere and character of the pond, They keep traffic speed down	Never	Duck droppings on sidewalks or public walkways	No	1	Yes	Do not manage at all	Never		If someone doesn't like ducks then don't move next to a duck pond and expect ducks not to be ducks.
41	Within a block	Lindshire/Alcott	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Once or twice in the past 6 months	No issues experienced or observed	No	1	Yes	Not sure / Need more information	Never		
42	Within a few blocks	Wadsworth and Ivanhoe	A few times a month	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Contribute to the atmosphere and character of the pond	Never	Duck droppings on sidewalks or public walkways, Duck droppings on my property (yard, driveway, roof, patio, etc.), Ducks obstructing roads or creating traffic hazards, Duck injuries or vehicle collisions	No	1	Yes	Use egg oiling to limit future population growth, without removing existing ducks	Never		We really enjoy the ducks in our neighborhood!
43	Within a block	Alcott Lane	Several times a week	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Never	Duck droppings on sidewalks or public walkways, They trample and or eat our plants at times. Not a big deal.	No	1	Yes	Not sure / Need more information	Occasionally (a few times per month or less)	Corn, oats, or other grains	I have lived here 28 years. They are apart of the culture. My kids, grandkids, and now my great grandkids all found/find great joy in the ducks. I would hate to see them diminished or gone.
44	Within a block		Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Never	No issues experienced or observed	No	1	Yes	Do not manage at all	Occasionally (a few times per month or less)	Birdseed or commercial waterfowl feed	
45	My property borders the pond or park	Jubilee and Lindshire	Daily	Enjoy watching ducks and their natural behaviors, Enjoy seeing ducklings or families of ducks, Educational or recreational value for children, Contribute to the atmosphere and character of the pond	Never	Duck droppings on sidewalks or public walkways, Ducks obstructing roads or creating traffic hazards	No	1	No	Not sure / Need more information	Never
