THE FUTURE OF INTERACTIVE GAMING IS HERE AND IT ISN'T VR...

Hado is an augmented
reality entertainment
attraction unlike anything
you've seen before.

HIGH-ENERGY 3V3 TACTICAL DODGEBALL STYLE BATTLE

Players shoot glowing orbs of energy from their hand, reminiscent of the massively popular *Overwatch* or *Dragon Ball Z*.

Players can also raise futuristic shields in the vein of *Tron* or *Ready Player One*.

2020

A VIRTUALLY INTEGRATED EXPERIENCE

Because it's AR (as opposed to VR), players can *actually see everyone and everything around them.*

It's completely motion based so there are no cables or controllers. This allows players to run and jump freely without any physical constraints.

HADO IS THE PERFECT ATTRACTION FOR ANIME, GAMING, COMIC, AND POP CULTURE CONVENTIONS.

Con goers are blown away when they see their cosplay come to life in game!
