

# Learn From a Top-Tier Medical School

USF is the only medical school with graduate programs in health informatics 100% online.

## Step Into the Future of Healthcare

### Position Yourself for the Transformation of Healthcare Delivery – 100% Online.

Dedicated to creating an engaged, learner-centered environment since 1956, the University of South Florida is ranked by *U.S. News & World Report* among America's Best Colleges and Best Online Schools for 2013. In just a little more than 50 years, regionally accredited USF has established itself as one of the largest universities in the United States and one of the nation's leading research institutions. One integral component of the USF System is USF Health – a major academic medical center, known nationally for its innovative curriculum and interdisciplinary approach to healthcare.

USF Health is the partnership of the University of South Florida's Morsani College of Medicine, as well as USF's College of Nursing, College of Public Health, College of Pharmacy, School of Biomedical Sciences; School of Physical Therapy and Rehabilitation Sciences; and the USF Physician's Group. Breaking the boundaries of traditional healthcare delivery, USF Health has created a system where healthcare providers, researchers and educators work together to create a community of good health. Several USF Health graduate schools are ranked on *U.S. News & World Report's* prestigious 2013 list of Best Health Schools – including the colleges of nursing, physical therapy and public health. And USF's Morsani College of Medicine is ranked on *U.S. News* 2013 list of the country's Best Medical Schools.
