

The right to NOT wear a face covering or close your business

“My health is My responsibility”

Dear Business Owner,

This notice is two-fold. One is to inform you that you do not have to comply with shut down orders as it violates your constitutional rights for the same reason if you offer public accommodation you cannot deny entry to anyone who is not wearing a mask. The proposed State of Emergency declaration by the Governor was unsubstantiated and therefore does not give the Governor authorization of executive privilege to invoke draconian measures on the population. Mandates and Orders issued by the Governors are NOT laws. They are made to appear like laws to invoke compliance by the population to enforce measures that have since proven to be ineffective and detrimental to businesses owners and to the lives of the people living in the State. Anyone who denies entry, asks for medical reasons, harasses, arrests, threatens to arrest or tries to collect fines or shuts down a business for which a law does not exist is in violation of the following (not inclusive) sections of the Constitution:

Title 18 U.S.C. § 242 - DEPRIVATION OF RIGHTS UNDER COLOR OF LAW

TITLE 42 U.S.C. §1983 – CIVIL RIGHTS ACTION FOR DEPRIVATION OF RIGHTS.

TITLE 42 U.S.C. §2000A (A) – PROHIBITION AGAINST DISCRIMINATION OR SEGREGATION IN PLACES OF PUBLIC ACCOMODATION

Anyone who attempts to enforce the mandates can be held **personally and financially liable** for their actions in a court of law and this includes law enforcement personnel and Board of Health Departments.

Dear Lawful Public Servants:

Due to the glaring lack of empirical science and evidence-based support for the proposed Declaration of a State of Emergency, it fails to meet the most fundamental performance standards for validated authority to be lawfully transferred to any other Public Servants, thus making them potentially personally liable for any Civil Rights infractions or rightful litigation that’s sure to arise. All Public Servants are still bound to their Oath of Office and possess no lawful authority nor privilege granted under the proposed Declaration of Emergency, Chapter 639, Chapter 17 Section 2A, nor Executive Order #55 (MASSACHUSETTS) to enforce these mandates.

Therefore, all Public Servants remain strictly bound by the compulsory limits of the US and Massachusetts Constitution and the people they serve and shall treat and dismiss any, and all infringements with absolute impunity or willfully adopted at their individual discretion.

Signed,

WE THE PEOPLE

If further action is needed record Name and Address (and badge number for law enforcement) of person:
