Congratulations on Your New Puppy!

We have made every effort to provide you with a happy, healthy puppy. Your puppy has received his/her first series of vaccinations. These will require booster vaccines by your veterinarian in 2-4 weeks. He/she has also obtained a negative fecal result and received a broad-spectrum dewormer. Your puppy is also microchipped, and the contact information is currently registered to Big Cypress Golden Retrievers. Instructions on how to transfer the microchip to you is included in your packet. You will be given records of to provide to your veterinarian. *Your puppy will come with a 2-year health guarantee against congenital diseases, provided these conditions are met:*

1) From pick-up date, buyer has 72 hours to have the puppy's initial exam by a licensed veterinarian. In the unlikely event your puppy is found to have a life-threatening hereditary or congenital defect at this or any exam by the age of 25 months, we will replace the puppy with another one of equal value. You must notify us within 24 hours of the exam should there be an issue. If the buyer does not have the puppy checked by a licensed veterinarian within 72 hours of pick-up date, this health agreement will become null and void. The puppy must be returned with registration papers within 24 hours of notification, at no expense to the seller. The puppy must be accompanied by registration papers and a written report completed by a licensed veterinarian stating that puppy has a congenital or hereditary disease not associated with environmental factors (such as, but not limited to: hernias, undescended testicles, any injuries, parasites, etc.). Replacement will be subject to availability. We will provide a full refund if the puppy is returned within 72 hours of pick-up date. Seller is not responsible for vet bills, travel expenses, or other acquired costs in this event.

2) This guarantee does not include non-congenital illnesses (such as, but not limited to: kennel cough, Parvo, Distemper, Corona Virus, or any other contagious disease), after 72 hours of pick-up date. These diseases are highly contagious and can be contracted immediately after leaving the breeder. Your puppy should not come in contact with any other dogs (or environments where dogs may have been present) until the full vaccine series is complete.

3) Buyer must maintain the health of the puppy by keeping vaccinations, preventions, and check-ups current. Failure to do so or inability to provide sellers with records will make this guarantee null and void.

4) Buyer who purchases a puppy with a limited registration will agree to spay/neuter the puppy within 2 years. AKC recommends that the puppy's time frame for being spayed/neutered should be made on an individual basis and in conjunction with the veterinarian and owner. It is the responsibility of the owner to ensure that no accidental breeding occurs prior to being spayed/neutered.
