

TextMyGov Announcement

The City of Anthon is thrilled to introduce TextMyGov, a convenient and smart text messaging service! This service will enable residents to effortlessly receive important notifications that will come directly from us.

We will officially launch the new text messaging system to the public on 11/23/2026. Residents may receive a text message from **91896** from the City initiating the service. You can choose to opt-out at any time by texting **STOP**.

If you don't receive the initial message, you can choose to opt-in by texting the keyword **"ANTHON"** to the number **91896**. After sending the initial keyword, you will be asked to reply "**YES**" to confirm opt-in. Residents may receive notifications for electrical outages, water service interruptions, upcoming events, reminders, and much more!

The City of Anthon's use of this technology is another example of how our community enhances resident services by implementing 21st-century solutions. We're excited about this new way of communicating with residents and look forward to sharing important City notifications. Other governmental entities across the country are utilizing this system with great success. Stay informed, stay ahead.

Sincerely,

Amy Buck
City Clerk
