Words that are not defined in this Code of Ordinances or by the *Code of Iowa* have their ordinary meaning unless such construction would be inconsistent with the manifest intent of the Council, or repugnant to the context of the provision.

1.03 CITY POWERS. The City may, except as expressly limited by the Iowa Constitution, and if not inconsistent with the laws of the Iowa General Assembly, exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges, and property of the City and of its residents, and to preserve and improve the peace, safety, health, welfare, comfort, and convenience of its residents, and each and every provision of this Code of Ordinances shall be deemed to be in the exercise of the foregoing powers and the performance of the foregoing functions.

(Code of Iowa, Sec. 364.1)

1.04 INDEMNITY. The applicant for any permit or license under this Code of Ordinances, by making such application, assumes and agrees to pay for any injury to or death of any person or persons whomsoever, and any loss of or damage to property whatsoever, including all costs and expenses incident thereto, however arising from or related to, directly, indirectly, or remotely, the issuance of the permit or license, or the doing of anything thereunder, or the failure of such applicant, or the agents, employees, or servants of such applicant, to abide by or comply with any of the provisions of this Code of Ordinances or the terms and conditions of such permit or license, and such applicant, by making such application, forever agrees to indemnify the City and its officers, agents, and employees, and agrees to save them harmless from any and all claims, demands, lawsuits, or liability whatsoever for any loss, damage, injury, or death, including all costs and expenses incident thereto, by reason of the foregoing. The provisions of this section shall be deemed to be a part of any permit or license issued under this Code of Ordinances or any other ordinance of the City, whether expressly recited therein or not.

1.05 PERSONAL INJURIES. When action is brought against the City for personal injuries alleged to have been caused by its negligence, the City may notify in writing any person by whose negligence it claims the injury was caused. The notice shall state the pendency of the action, the name of the plaintiff, the name and location of the court where the action is pending, a brief statement of the alleged facts from which the cause arose, that the City believes that the person notified is liable to it for any judgment rendered against the City, and asking the person to appear and defend. A judgment obtained in the suit is conclusive in any action by the City against any person so notified, as to the existence of the defect or other cause of the injury or

damage, as to the liability of the City to the plaintiff in the first named action, and as to the amount of the damage or injury. The City may maintain an action against the person notified to recover the amount of the judgment together with all the expenses incurred by the City in the suit.

(Code of Iowa, Sec. 364.14)

1.06 RULES OF CONSTRUCTION. In the construction of this Code of Ordinances, the rules of statutory construction as set forth in Chapter 4 of the *Code of Iowa* shall be utilized to ascertain the intent of the Council, with the understanding that the term “statute” as used therein will be deemed to be synonymous with the term “ordinance” when applied to this Code of Ordinances.

1.07 EXTENSION OF AUTHORITY. Whenever an officer or employee is required or authorized to do an act by a provision of this Code of Ordinances, the provision shall be construed as authorizing performance by a regular assistant, subordinate, or a duly authorized designee of said officer or employee.

1.08 AMENDMENTS. All ordinances that amend, repeal, or in any manner affect this Code of Ordinances shall include proper reference to chapter, section, subsection, or paragraph to maintain an orderly codification of ordinances of the City.

(Code of Iowa, Sec. 380.2)

1.09 CATCHLINES AND NOTES. The catchlines of the several sections of this Code of Ordinances, titles, headings (chapter, section and subsection), editor’s notes, cross references, and State law references, unless set out in the body of the section itself, contained in this Code of Ordinances, do not constitute any part of the law and are intended merely to indicate, explain, supplement, or clarify the contents of a section.

1.10 ALTERING CODE. It is unlawful for any unauthorized person to change or amend, by additions or deletions, any part or portion of this Code of Ordinances, or to insert or delete pages, or portions thereof, or to alter or tamper with this Code of Ordinances in any manner that will cause the law of the City to be misrepresented.

1.11 SEVERABILITY. If any section, provision, or part of this Code of Ordinances is adjudged invalid or unconstitutional, such adjudication will not affect the validity of this Code of Ordinances as a whole or any section, provision, or part thereof not adjudged invalid or unconstitutional.

1.12 WARRANTS. If consent to enter upon or inspect any building, structure, or property pursuant to a municipal ordinance is withheld by any person having the lawful right to exclude, the City officer or employee having the duty to enter upon or conduct the inspection may apply to the Iowa District Court in and for the County, pursuant to Section 808.14 of the *Code of Iowa*, for an administrative search warrant. No owner, operator or occupant, or any other person having charge, care, or control of any dwelling unit, rooming unit, structure, building, or premises shall fail or neglect, after presentation of a search warrant, to permit entry therein by the municipal officer or employee.

1.13 GENERAL STANDARDS FOR ACTION. Whenever this Code of Ordinances grants any discretionary power to the Council or any commission, board, or officer or employee of the City and does not specify standards to govern the exercise of the power, the power shall be exercised in light of the following standard: The discretionary power to grant, deny, or

revoke any matter shall be considered in light of the facts and circumstances then existing and as may be reasonably foreseeable, and due consideration shall be given to the impact upon the public health, safety and welfare, and the decision shall be that of a reasonably prudent person under similar circumstances in the exercise of the police power.

1.14 STANDARD PENALTY. Unless another penalty is expressly provided by this Code of Ordinances for violation of any particular provision, section, or chapter, any person failing to perform a duty required by this Code of Ordinances or otherwise violating any provision of this Code of Ordinances or any rule or regulation adopted herein by reference shall, upon conviction, be subject to a fine of at least \$105.00 but not to exceed \$855.00.[†]

(Code of Iowa, Sec. 364.22[3])

3.02 ENVIRONMENTAL VIOLATION. A municipal infraction that is a violation of Chapter 455B of the *Code of Iowa* or of a standard established by the City in consultation with the Department of Natural Resources, or both, may be classified as an environmental violation. However, the provisions of this section shall not be applicable until the City has offered to participate in informal negotiations regarding the violation or to the following specific violations:

(Code of Iowa, Sec. 364.22[1])

1. A violation arising from noncompliance with a pretreatment standard or requirement referred to in 40 C.F.R. §403.8.
2. The discharge of airborne residue from grain, created by the handling, drying, or storing of grain, by a person not engaged in the industrial production or manufacturing of grain products.
3. The discharge of airborne residue from grain, created by the handling, drying, or storing of grain, by a person engaged in such industrial production or manufacturing if such discharge occurs from September 15 to January 15.

3.03 PENALTIES. A municipal infraction is punishable by the following civil penalties:

(Code of Iowa, Sec. 364.22[1])

1. Standard Civil Penalties.
 - A. First offense – not to exceed \$750.00
 - B. Each repeat offense – not to exceed \$1,000.00

Each day that a violation occurs or is permitted to exist constitutes a repeat offense.

2. Special Civil Penalties.
 - A. A municipal infraction arising from noncompliance with a pretreatment standard or requirement, referred to in 40 C.F.R. §403.8, by an industrial user is punishable by a penalty of not more than \$1,000.00 for each day a violation exists or continues.

[†] **EDITOR'S NOTE:** For criminal penalty for violations of this Code of Ordinances, see Section 1.14.

B. A municipal infraction classified as an environmental violation is punishable by a penalty of not more than \$1,000.00 for each occurrence. However, an environmental violation is not subject to such penalty if all of the following conditions are satisfied:

- (1) The violation results solely from conducting an initial startup, cleaning, repairing, performing scheduled maintenance, testing, or conducting a shutdown of either equipment causing the violation or the equipment designed to reduce or eliminate the violation.
- (2) The City is notified of the violation within 24 hours from the time that the violation begins.
- (3) The violation does not continue in existence for more than eight hours.

3.04 CIVIL CITATIONS. Any officer authorized by the City to enforce this Code of Ordinances may issue a civil citation to a person who commits a municipal infraction. A copy of the citation may be served by personal service as provided in Rule of Civil Procedure 1.305, by certified mail addressed to the defendant at defendant's last known mailing address, return receipt requested, or by publication in the manner as provided in Rule of Civil Procedure 1.310 and subject to the conditions of Rule of Civil Procedure 1.311. A copy of the citation shall be retained by the issuing officer, and the original citation shall be sent to the Clerk of the District Court. If the citation affects real property and charges a violation relating to the condition of the property, including a building code violation, a local housing regulation violation, a housing code violation, or a public health or safety violation, after filing the citation with the Clerk of the District Court, the City shall also file the citation in the office of the County Treasurer.

3.05 ALTERNATIVE RELIEF. Seeking a civil penalty as authorized in this chapter does not preclude the City from seeking alternative relief from the court in the same action. Such alternative relief may include, but is not limited to, an order for abatement or injunctive relief.

(Code of Iowa, Sec. 364.22[8])

3.06 ALTERNATIVE PENALTIES. This chapter does not preclude a peace officer from issuing a criminal citation for a violation of this Code of Ordinances or regulation if criminal

penalties are also provided for the violation. Nor does it preclude or limit the authority of the City to enforce the provisions of this Code of Ordinances by criminal sanctions or other lawful means.

MINORS

46.01 Curfew

46.02 Cigarettes and Tobacco

46.03 Contributing to Delinquency

46.01 CURFEW. The Council has determined that a curfew for minors is necessary to promote the public health, safety, morals and general welfare of the City and specifically to reinforce the primary authority and responsibility of adults responsible for minors; to protect the public from the illegal acts of minors committed after the curfew hour; and to protect minors from improper influences and criminal activity that prevail in public places after the curfew hour.

1. Definitions. For use in this section, the following terms are defined:
 - A. “Emergency errand” means, but is not limited to, an errand relating to a fire, a natural disaster, an automobile accident or any other situation requiring immediate action to prevent serious illness, bodily injury, or loss of life.
 - B. “Knowingly” means knowledge that a responsible adult should reasonably be expected to have concerning the whereabouts of a minor in that responsible adult’s custody. It is intended to continue to hold the neglectful or careless adult responsible for a minor to a reasonable standard of adult responsibility through an objective test. It is therefore no defense that an adult responsible for a minor was completely indifferent to the activities or conduct or whereabouts of the minor.
 - C. “Minor” means any unemancipated person under the age of 18 years.
 - D. “Nonsecured custody” means custody in an unlocked multipurpose area, such as a lobby, office or interrogation room that is not designed, set aside, or used as a secure detention area, and the person arrested is not physically secured during the period of custody in the area; the person is physically accompanied by a law enforcement officer or a person employed by the facility where the person arrested is being held; and the use of the area is limited to providing nonsecured custody only while awaiting transfer to an appropriate juvenile facility or to court, for contacting of and release to the person’s parents or other responsible adult or for other administrative purposes; but not for longer than six hours without the oral or written order of a judge or magistrate authorizing the detention. A judge shall not extend the period of time in excess of six hours beyond the initial six-hour period.
 - E. “Public place” includes stores, parking lots, parks, playgrounds, streets, alleys, and sidewalks dedicated to public use and also includes such parts of buildings and other premises, whether publicly or privately owned, that are used by the general public or to which the general public is invited commercially for a fee or otherwise; or in or on which the general public is permitted without specific invitation; or to which the general public has access. For purposes of this section, a vehicle or other conveyance is considered to be a public place when in the areas defined above.

- F. “Responsible adult” means a parent, guardian or other adult specifically authorized by law or authorized by a parent or guardian to have custody or control of a minor.
2. Loitering of Minors Prohibited. No minor shall loiter, idle, wander, stroll, or play in or upon any public streets, highways, alleys, vacant lots, or in any public parks, public buildings, or places of amusement and entertainment located within the City between the hours of 11:00 p.m. on any Sunday, Monday, Tuesday, Wednesday, or Thursday, and 6:00 a.m. of the following day and between the hours of 12:00 midnight on any Friday or Saturday and 6:00 a.m. of the following day.

 - D. The minor is on an emergency errand for a responsible adult;
 - E. The minor is engaged in interstate travel through the City beginning, ending or passing through the City when such travel is by direct route.
4. Responsibility of Adults. It is unlawful for any responsible adult knowingly to permit or to allow a minor to be in any public place in the City within the time periods prohibited by this section unless the minor’s presence falls within one of the above exceptions.
5. Enforcement Procedures.

B. Grounds for Arrest; Conditions of Custody. Grounds for arrest are that the person refuses to sign the citation without qualification; persists in violating the ordinance; refuses to provide proper identification or to identify himself or herself; or constitutes an immediate threat to the person's own safety or to the safety of the public. A minor shall not be placed in detention following a curfew violation.

The minor shall be released to the adult responsible for the minor upon the promise of such person to produce the child in court at such time as the court may direct.

D. Minor Without Adult Supervision. If a law enforcement officer determines that a minor does not have adult supervision because the law enforcement officer cannot locate the minor's parent, guardian or other person legally responsible for the care of the minor, within a reasonable time, the law enforcement officer shall attempt to place the minor with an adult relative of the minor, an adult person who cares for the child or another adult person who is known to the child.

6. Penalties.

A. Responsible Adult's First Violation. In the case of a first violation by a minor, the law enforcement officer shall, by certified mail, send to the adult responsible for the minor, written notice of the violation with a warning that any subsequent violation will result in full enforcement of the curfew ordinance against both the responsible adult and minor, with applicable penalties.

B. Responsible Adult's Second Violation. Any responsible adult as defined in this section who, following receipt of a warning, knowingly allows the minor to violate any of the provisions of this section is guilty of a municipal infraction.

† **EDITOR'S NOTE:** A suggested form of notice for the abatement of nuisances is included in the Appendix of this Code of Ordinances. Caution is urged in the use of this administrative abatement procedure, particularly where cost of abatement is more than minimal or where there is doubt as to whether or not a nuisance does in fact exist. If compliance is not secured following notice and hearings, we recommend you review the situation with your attorney before proceeding with abatement and assessment of costs. Your attorney may recommend proceedings in court under Chapter 657 of the *Code of Iowa* rather than this procedure.

- A. Description of Nuisance. A description of what constitutes the nuisance.
 - B. Location of Nuisance. The location of the nuisance.
 - C. Acts Necessary to Abate. A statement of the act or acts necessary to abate the nuisance.
 - D. Reasonable Time. A reasonable time within which to complete the abatement.
 - E. Assessment of City Costs. A statement that if the nuisance or condition is not abated as directed and no request for hearing is made within the time prescribed, the City will abate it and assess the costs against the property owner.
2. Method of Service. The notice may be in the form of an ordinance or sent by certified mail to the property owner.
(Code of Iowa, Sec. 364.12[3h])
 3. Request for Hearing. Any person ordered to abate a nuisance may have a hearing with the Council as to whether a nuisance exists. A request for a hearing must be made in writing and delivered to the Clerk within the time stated in the notice, or it will be conclusively presumed that a nuisance exists and it must be abated as ordered. The hearing will be before the Council at a time and place fixed by the Council. The findings of the Council shall be conclusive and, if a nuisance is found to exist, it shall be ordered abated within a reasonable time under the circumstances.
 4. Abatement in Emergency. If it is determined that an emergency exists by reason of the continuing maintenance of the nuisance or condition, the City may perform any action that may be required under this chapter without prior notice. The City shall assess the costs as provided in subsection 6 of this section after notice to the property owner under the applicable provisions of subsection 1 and 2, and the hearing as provided in subsection 3.
(Code of Iowa, Sec. 364.12[3h])
 5. Abatement by City. If the person notified to abate a nuisance or condition neglects or fails to abate as directed, the City may perform the required action to abate, keeping an accurate account of the expense incurred. The itemized expense account shall be filed with the Clerk, who shall pay such expenses on behalf of the City.
(Code of Iowa, Sec. 364.12[3h])
 6. Collection of Costs. The Clerk shall send a statement of the total expense incurred by certified mail to the property owner who has failed to abide by the notice to abate, and if the amount shown by the statement has not been paid within one month, the Clerk shall certify the costs to the County Treasurer and such costs shall then be collected with, and in the same manner as, general property taxes.
(Code of Iowa, Sec. 364.12[3h])
 7. Installment Payment of Cost of Abatement. If the amount expended to abate the nuisance or condition exceeds \$500.00, the City may permit the assessment to be paid in up to 10 annual installments, to be paid in the same manner and with the same interest rates provided for assessments against benefited property under State law.
(Code of Iowa, Sec. 364.13)
 8. Failure to Abate. Any person causing or maintaining a nuisance who shall fail or refuse to abate or remove the same within the reasonable time required and specified in the notice to abate is in violation of this Code of Ordinances.

50.07 MUNICIPAL INFRACTION ABATEMENT PROCEDURE. In lieu of the abatement procedures set forth in Section 50.06, the requirements of this chapter may be enforced under the procedures applicable to municipal infractions as set forth in Chapter 3 of this Code of Ordinances.

The police authority shall give the applicant a certificate of authority. The applicant shall then apply to the County Treasurer for a junking certificate and shall surrender the certificate of authority in lieu of the certificate of title.

A change in the ownership of the commercial rental property shall require written notice of such change to be given to the City within 10 business days of the completion of the change of ownership.

4. **Mobile Homes, Modular Homes, and Manufactured Homes.** A lien for nonpayment of utility services described in subsections 1 and 2 of this section shall not be placed upon a premises that is a mobile home, modular home, or manufactured home if the mobile home, modular home, or manufactured home is owned by a tenant of and located in a mobile home park or manufactured home community and the mobile home park or manufactured home community owner or manager is the account holder, unless the lease agreement specifies that the tenant is responsible for payment of a portion of the rates or charges billed to the account holder.

92.08 LIEN NOTICE. A lien for delinquent water service charges shall not be certified to the County Treasurer unless prior written notice of intent to certify a lien is given to the customer in whose name the delinquent charges were incurred. If the customer is a tenant and if the owner or landlord of the property or premises has made a written request for notice, the notice shall

also be given to the owner or landlord. The notice shall be sent to the appropriate persons by ordinary mail not less than 30 days prior to certification of the lien to the County Treasurer.

(Code of Iowa, Sec. 384.84)

(Ord. 199 – Nov. 18 Supp.)

92.10 TEMPORARY VACANCY. A property owner may request water service be temporarily discontinued and shut off at the curb valve when the property is expected to be

vacant for an extended period of time. During a period when service is temporarily discontinued as provided herein there shall be no minimum service charge. The City will not drain pipes or pull meters for temporary vacancies.

92.11 WATER LEAK PAYMENT ADJUSTMENT POLICY.

1. When a water leak occurs between a pit set water meter and the customer's improvement being served by water and sewer, the customer shall pay a charge for that month for sewer and water that is determined by using the average of the preceding 12 months' charges for sewer and water.
2. Except for properties metered by a pit set meter, when a water leak occurs in or under a customer's improvement being served by water and sewer, the customer shall pay for all water registered on the meter and shall pay a charge for sewer for that month that is determined by using the average of the preceding 12 months' charges for sewer.
3. The foregoing adjustments will only be allowed if a customer corrects a leak within 10 days after being advised by the City either through a water and sewer bill, or directly if the City notices that a particular customer has an unusually high reading for that month. The City shall not be liable for any failure to advise any customer of a suspected high reading prior to the issuance of a water and sewer bill. No extension of the above 10-day grace period shall be given, unless approved in writing by a City water official or the Superintendent.
4. When the customer is the Anthon Community Center and any water leak occurs, the City may, in its discretion by majority vote of the Council, issue a charge for that month that is determined by using the average of the preceding 12 months charges for water and sewer.

(Section 92.11 – Ord. 213 – Oct. 20 Supp.)

A shallow well is a well located and constructed in such a manner that there is not a continuous layer of low permeability soil or rock (or equivalent retarding mechanism acceptable to the department) at least five feet thick, the top of which is located at least 25 feet below the normal ground surface and above the aquifer from which water is to be drawn.

² The separation distances are dependent upon two factors: the type of piping that is in the existing sewer or drain, as noted in the table, and that the piping was properly installed in accordance with the standards.

³ Solid wastes are those derived from the treatment of water or wastewater. Certain types of solid wastes from water treatment processes may be land-applied within the separation distance on an individual, case-by-case basis.

⁴ Solid waste means garbage, refuse, rubbish, and other similar discarded solid or semisolid materials, including but not limited to such materials resulting from industrial, commercial, agricultural, and domestic activities.

(Section 93.04 – Ord. 205 – Nov. 19 Supp.)

93.05 INSPECTION. The City shall have the right to inspect properties in close proximity to public water supplies for the purpose of determining compliance with this chapter, as follows:

1. The Superintendent and other duly authorized representatives of the City bearing proper credentials and identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling and testing in accordance with the provisions of this chapter.
2. While performing the necessary work on private properties referred to in subsection 1 above, the Superintendent or duly authorized representatives of the City shall observe all safety rules applicable to the premises and the property owner shall be held harmless for injury or death to the City personnel. The City shall indemnify the property owner against loss or damage to property by City personnel and against liability claims and demands for personal injury or property damage asserted against the property owner and growing out of the inspection operation, except as such may be caused by negligence or failure of the property owner to maintain safe conditions.

93.06 VIOLATIONS. Provisions for violation of this chapter shall be as follows:

1. Any person found to be violating this chapter shall be served by the City with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.
2. Any person who shall continue any violation beyond the time limit provided for in subsection 1 above shall be guilty of a simple misdemeanor. Each 24-hour period in which any such violation shall continue shall be deemed a separate offense.
3. Any person violating any of the provisions of this chapter shall become liable to the City for any expense, loss or damage occasioned the City by reason of such violation.

BUILDING SEWERS AND CONNECTIONS

96.01 Permit

96.02 Permit Fee

96.03 Plumber Required

96.04 Excavations

96.05 Connection Requirements

96.06 Interceptors Required

96.07 Sewer Tap

96.08 Inspection Required

96.09 Property Owner's Responsibility

96.10 Abatement of Violations

96.01 PERMIT. No unauthorized person shall uncover, make any connection with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the City. The application for the permit shall set forth the location and description of the property to be connected with the sewer system and the purpose for which the sewer is to be used, and shall be supplemented by any plans, specifications, or other information considered pertinent. The permit shall require the owner to complete construction and connection of the building sewer to the public sewer within 60 days after the issuance of the permit, except that when a property owner makes sufficient showing that due to conditions beyond the owner's control or peculiar hardship, such time period is inequitable or unfair, an extension of time within which to comply with the provisions herein may be granted. Any sewer connection permit may be revoked at any time for a violation of these chapters.

96.02 PERMIT FEE. The person who makes the application shall pay a fee in the amount of \$100.00 to the Clerk to cover the cost of issuing the permit and supervising, regulating, and inspecting the work.

96.03 PLUMBER REQUIRED. All installations of building sewers and connections to the public sewer shall be made by a State-licensed plumber.

96.04 EXCAVATIONS. All trench work, excavation, and backfilling required for the installation of a building sewer shall be performed in accordance with the provisions of the *State Plumbing Code* and the provisions of Chapter 135 of this Code of Ordinances.

96.05 CONNECTION REQUIREMENTS. Any connection with a public sanitary sewer must be made under the direct supervision of the Superintendent and in accordance with the following:

1. **Old Building Sewers.** Old building sewers may be used in connection with new buildings only when they are found, on examination and test conducted by the owner and observed by the Superintendent, to meet all requirements of this chapter.
2. **Separate Building Sewers.** A separate and independent building sewer shall be provided for every occupied building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway. In such cases the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.
3. **Installation.** The installation and connection of the building sewer to the public sewer shall conform to the requirements of the *State Plumbing Code* and applicable rules and regulations of the City. All such connections shall be made gastight and

watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.

4. Water Lines. When possible, building sewers should be laid at least 10 feet horizontally from a water service. The horizontal separation may be less, provided the water service line is located at one side and at least 12 inches above the top of the building sewer.

5. Size. Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four inches.

6. Alignment and Grade. All building sewers shall be laid to a straight line to meet the following:

- A. Recommended grade at one-fourth inch per foot.
- B. Minimum grade of one-eighth inch per foot.
- C. Minimum velocity of two feet per second with the sewer half full.
- D. Any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with approved fittings.

7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.

8. Sewage Lifts. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer.

9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in the *State Plumbing Code* except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:

- A. Clay sewer pipe – A.S.T.M. C-700 (extra strength).
- B. Extra heavy cast iron soil pipe – A.S.T.M. A-74.
- C. Ductile iron water pipe – A.W.W.A. C-151.
- D. P.V.C. – SDR26 – A.S.T.M. D-3034.

10. Bearing Walls. No building sewer shall be laid parallel to or within three feet of any bearing wall that might thereby be weakened.

11. Jointing. Fittings, type of joint and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.

12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings. Such encasement shall extend at least six inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.

13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement

floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.06 INTERCEPTORS REQUIRED. Grease, oil, sludge and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as specified in the *State Plumbing Code*, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.
2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. Maintenance. All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

96.07 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued or attached with a gasket and stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent's direction if such connection is approved.

96.08 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid underground shall be covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.09 PROPERTY OWNER'S RESPONSIBILITY. All costs and expenses incident to the installation, connection, and maintenance of the building sewer shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

96.10 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines, whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within 30 days after date of official notice from the Council of such violation. If not made within such time, the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3])

2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two milligrams per liter as CN in the wastes as discharged to the public sewer.
3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

average daily flow greater than two percent of the average sewage flow of the City, shall be subject to the review of the Superintendent.

B. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to: (i) reduce the biochemical oxygen demand to 300 parts per million by weight; or (ii) reduce the suspended solids to 350 parts per million by weight; or (iii) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than 150 degrees F (65 degrees C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease or oils, whether emulsified or not, in excess of 100 milligrams per liter or 600 milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances that may solidify or become viscous at temperatures between 32 degrees F and 150 degrees F (0 degrees to 65 degrees C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half inch in any dimension.
5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits that may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of State, federal, or other public agencies of jurisdiction for such discharge to the receiving waters.

8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or federal regulations.
9. Excess Alkalinity. Any waters or wastes having a pH in excess of 9.5.
10. Unusual Wastes. Materials that exert or cause:
 - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
 - B. Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).
 - C. Unusual B.O.D., chemical oxygen demand or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - D. Unusual volume of flow or concentration of wastes constituting “slugs” as defined herein.
11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance that, either singly or by interaction with other wastes, is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
12. Damaging Substances. Any waters, wastes, materials, or substances that react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.
13. Untreatable Wastes. Waters or wastes containing substances that are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES; POWERS OF SUPERINTENDENT. If any waters or wastes are discharged or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;
2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;
3. Controls Imposed. Require control over the quantities and rates of discharge; and/or
4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

97.07 CONTROL MANHOLES. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a 24-hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples).

(IAC, 567-69.1[3])

98.06 MAINTENANCE OF SYSTEM. The owner of an on-site wastewater treatment and disposal system shall operate and maintain the system in a sanitary manner at all times and at no expense to the City.

Reusable containers shall also be lightweight and of sturdy construction and have suitable lifting devices.
 - B. Commercial. Every person owning, managing, operating, leasing or renting any commercial premises where an excessive amount of refuse accumulates and where its storage in portable containers as required above is impractical, shall maintain metal bulk storage containers approved by the City.
2. Storage of Containers. Residential solid waste containers shall be stored upon the residential premises. Commercial solid waste containers shall be stored upon private property, unless the owner has been granted written permission from the City to use public property for such purposes. The storage site shall be well drained and fully accessible to collection equipment, public health personnel, and fire inspection personnel. All owners of residential and commercial premises shall be responsible for

proper storage of all garbage and yard waste to prevent materials from being blown or scattered around neighboring yards and streets.

3. Location of Containers for Collection. Containers for the storage of solid waste awaiting collection shall be placed outdoors at some easily accessible place by the owner or occupant of the premises served.

4. Nonconforming Containers. Solid waste placed in containers that are not in compliance with the provisions of this section will not be collected.

2. Interfere with Collectors. Interfere in any manner with solid waste collection equipment or with solid waste collectors in the lawful performance of their duties as such, whether such equipment or collectors be those of the City, or those of any other authorized waste collection service.

3. Incinerators. Burn rubbish or garbage except in incinerators designed for high temperature operation, in which solid, semisolid, liquid, or gaseous combustible refuse is ignited and burned efficiently, and from which the solid residues contain little or no combustible material, as acceptable to the Environmental Protection Commission.

4. Scavenging. Take or collect any solid waste that has been placed out for collection on any premises, unless such person is an authorized solid waste collector.

106.07 CONTRACT REQUIREMENTS. No person shall engage in the business of collecting, transporting, processing or disposing of solid waste from residential premises for the City without first entering into a contract with the City. This section does not prohibit an owner from transporting solid waste accumulating upon premises owned, occupied or used by such owner, provided such refuse is disposed of properly in an approved sanitary disposal project. Furthermore, a contract is not required for the removal, hauling, or disposal of earth and rock material from grading or excavation activities, provided that all such materials are conveyed in tight vehicles, trucks or receptacles so constructed and maintained that none of the material being transported is spilled upon any public right-of-way.

106.08 COLLECTION FEES. The collection and disposal of solid waste as provided by this chapter are declared to be beneficial to the property served or eligible to be served and there shall be levied and collected fees therefor in accordance with the following:

(Goreham vs. Des Moines, 1970, 179 NW 2nd, 449)

1. Schedule of Fees. The fee for solid waste collection and disposal service, used or available, shall be:

B. Each occupied dwelling unit of a multiple-family dwelling shall be charged \$14.75 per month for solid waste removal plus \$6.60 per month for operation and maintenance of the sanitary landfill.

C. Each non-dwelling user of any City utilities shall be charged \$6.60 per month for operation and maintenance of the sanitary landfill.

(Subsection 1 – Ord. 225 – Apr. 22 Supp.)

2. Payment of Bills. All fees are due and payable under the same terms and conditions provided for payment of a combined service account as contained in Section 92.04 of this Code of Ordinances. Solid waste collection service may be discontinued in accordance with the provisions contained in Section 92.05 if the combined service account becomes delinquent, and the provisions contained in Section 92.08 relating to lien notices shall also apply in the event of a delinquent account.

(Section 106.08 – Ord. 206 – Jan. 20 Supp.)

106.09 LIEN FOR NONPAYMENT. Except as provided for in Section 92.07 of this Code of Ordinances, the owner of the premises served and any lessee or tenant thereof are jointly and severally liable for fees for solid waste collection and disposal. Fees remaining unpaid and delinquent shall constitute a lien upon the property or premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

In making the determination, the governing body shall consider estimated construction costs, estimated revenue and contributions required from similarly situated customers. The advance shall be credited to the customer's account in equal monthly installments over a 10-year period. Any balance remaining upon termination of the service by the depositor shall revert to the utility.

3. **Extensions to New Subdivisions.** Extensions to newly platted subdivisions of four or more lots may require a contribution in aid of construction or an advance for construction costs in an amount determined by the utility governing body. In making the determination, the governing body shall consider estimated construction costs, estimated revenue and contributions required from similarly situated customers.

4. **Temporary Service.** Where service is likely to be temporary by determination of the municipal utility, the municipal utility shall supply temporary electric service upon payment of an advance contribution in aid of construction payment equal to related costs. The utility will provide a standard single-phase, 120/240 volt, 60 or 100 Ampere, temporary service for a cash deposit of \$50.00. 112.11 DISCONTINUANCE OF SERVICE. In the event of discontinuance of cable service by Grantee, the Grantee agrees to bargain in good faith with any subsequent cable service Grantee and the City, as its interest may appear, regarding all fixtures and installations in existence at that time.

All licenses or leases required by this section shall be granted by the Council.

140.03 FEES REQUIRED. No franchise, license or lease for the use of public right-of-way or other public property shall be granted without requiring the Grantee thereof to pay a reasonable and competitively neutral fee for the use of public right-of-way or other public property. The fees will be as follows:

1. The usage fee shall be five percent of the gross receipts.
2. A license or lease fee will be assessed on all new licenses or leases for space in the right-of-way. This license or lease fee is a one-time fee for the term of the license or lease. Payment is expected when the license or lease is signed; however, a payment schedule may be entered into between the City and the licensee or lessee. Any payment schedule must require full payment of the fee by the end of the fifth year of the license or lease. If the license or lease is renewed, a new license or lease fee will be assessed. The fee shall be \$1,000.00.

3. In addition to the license or lease fee, an annual right-of-way management fee will be assessed on July 1 of each year that the license or fee is in force. The fee is based on the number of linear feet of wire laid in the City right-of-way, and reflects the actual management cost the City incurs while managing the right-of-way. The fee is established as follows: \$.10 per linear foot.

4. In addition to the license or lease fee and annual management fee, any person or other entity shall pay a fee every time such person's facility requires excavation in the right-of-way. This fee will cover costs for street degradation and replacement, inspection and obstruction and routing of pedestrian and vehicle traffic. The established fee is \$1,000.00. All or part of this fee may be waived if work is done in conjunction with City construction.

140.04 LIMIT ON TERM. No franchise, license or lease for use of the public right-of-way or other public property shall be granted for a term of more than 15 years.

140.05 PLACEMENT OF FACILITIES. The facilities, fixtures and equipment of the distribution, transmission or sale of any utility services or services provided under license or lease or easement shall be placed and maintained so as not to unnecessarily or unreasonably interfere with the travel on the streets, highways, avenues, alleys, bridges and public places in the City. Such facilities, fixtures and equipment shall not interfere with the proper use of the same, including, but not limited to, ordinary drainage, or the functioning of the sewers, underground pipe or other property of the City. In the event that facilities, fixtures and equipment of any person located within a public right-of-way must be relocated because of paving, road construction or road reconstruction, sewer construction or sewer reconstruction, or the construction or reconstruction of public drainage systems or similar public works or the construction or reconstruction of the facilities of any City-owned utility, such relocation, at the written request of the City, shall be completed by the owner of such facilities at the owner's cost. The City shall upon request of any person or other entity holding a franchise, license or lease, review any plans for the construction of facilities, fixtures and equipment within the public right-of-way and advise the person of any conflict such construction may have with planned or anticipated public improvements, but failure of the City to so advise such person will not relieve the owner of such facilities of its obligations under this chapter. Notwithstanding the foregoing, the City Clerk may require placement of equipment or facilities belonging to any holder of a franchise, license or lease be limited to locations designated by the Clerk if such limitation is deemed by the Clerk to be necessary to protect the integrity or use of present and future users of the public right-of-way or other public property.

140.06 INDEMNIFICATION AND BOND. The holder of any franchise, license or lease shall indemnify and hold the City harmless at all times during the term of the franchise, license or lease from and against all claims for injury or damage to any person or property, including payments under worker's compensation laws, caused by the construction, erection, operation or maintenance of its facilities, fixtures or equipment, or the negligence of its contractors or its employees. In case of any suit or action at law being commenced against the City, upon any claim for damage arising out of any loss, injury or damage claimed to have been caused by any installation, improvement, obstruction or excavation made or left in, under or upon such street, sidewalk, alley or public place by the holder of a franchise, license or lease, its agents, contractors or employees, upon being notified in writing by the City of such action or proceeding, the holder of said franchise, license or lease shall appear and make proper defense thereto at the expense of the holder of the franchise, license or lease; and if any judgment or decree shall in any such case be rendered against the City therein, the holder of said franchise,

license or lease shall assume, pay and satisfy such judgment or decree, with the cost thereof. Immediately upon issuance of the franchise, license or lease, the holder of the franchise, license or lease shall purchase general liability insurance. The amount of insurance shall be a minimum of \$1,000,000.00 with a maximum deductible of \$5,000.00. The holder of the franchise, license or lease shall file with the Clerk a certificate of insurance which clearly discloses on its face coverage in conformity with these requirements. Upon request of the City, the holder of the franchise, license or lease shall submit a certified copy of the policy.

140.07 REGULATION BY THE CITY. The City reserves the right to make reasonable general regulations for the use of streets and other public property which unless otherwise specifically provided shall apply to any holder of a franchise, license or lease.

140.08 CONSTRUCTION AND EXCAVATION. A written permit will be obtained from the Clerk whenever it becomes necessary for the holder of any franchise, license or lease to excavate in streets or public grounds of the City. Such permits shall state a particular part or point of the street where the excavation is to be made and the length of time in which such permit shall authorize the work to be done. An exception to a requirement for a permit shall be made in cases of emergency involving public safety, in which case a permit will be obtained at the earliest opportunity after the work has started. In making excavations in the streets, the holder of any franchise, license or lease shall proceed with such work as to cause the least possible inconvenience to the public. The holder of any franchise, license or lease shall properly protect, according to safety standards generally accepted at the time of placement, as may be determined from time to time by the Clerk, all excavations and obstructions by proper placement of shoring, surface plates, barricades, warning lights and such other or additional devices as circumstances may warrant. If in the opinion of the Clerk, such excavation or obstruction is not properly and safely protected, the Clerk shall notify such holder of a franchise, license or lease, who shall immediately comply with such reasonable instructions. Immediately after use, any trenches for excavations which the holder of a franchise, license or lease has opened shall be filled. However, no trench or excavation in the streets shall be filled or covered without giving the City the right to inspect the same. All backfilling in streets will be according to City specifications. Temporary street surfacing will be placed in such excavations as soon as the same has been backfilled. Pavements, sidewalks, curbs and gutters or other portions of streets and public places opened, disturbed or damaged shall be promptly restored and replaced with like materials at the expense of the holder of a franchise, license or lease and left in as good condition as before the opening, disturbance or damage occurred. In the event like replacement materials are not available, the holder of the franchise, license or lease shall notify the Clerk, who must approve the use of any alternate materials. In the event that the holder of a franchise, license or lease fails to comply with the provision of this section, after having been given reasonable notice, the City may do such work as may be needed to properly repair such pavements, sidewalks, curbs and gutters or other portions of streets and public places and the cost thereof shall be repaired to the City by the holder of the franchise, license or lease. In cases where a cut or disturbance is made in a section of street paving or sidewalks, but causes greater disturbance than to just the area cut, rather than replace only the area cut, the holder of a franchise, license or lease shall replace that area as may be ordered by the Clerk, which in no event shall exceed the panel or panels disturbed.

140.09 CITY CONSTRUCTION AND PAVING. Whenever the City shall pave or repave any street or shall change the grade line of any street or public place or shall construct or reconstruct any conduit, water main service or water connection, sewer or other City-owned public works or City-owned utility, it shall be the duty of the holder of any franchise, license or lease, when so ordered by the City, to relocate its service lines and other property in the streets

or other public places at its own expense so as to conform to the established grade or line of such street or public place and so as not to interfere with the public improvements so constructed or reconstructed. In the case of other public improvements, including but not limited to urban renewal projects, the City may require the holder of a franchise, license or lease to relocate its poles, service lines and appurtenances in the streets at the owner's expense. The City may at its discretion assign personnel for inspection of excavation and related work being performed by the holder of a franchise, license or lease. Should the holder of the franchise, license or lease fail or refuse to do and perform the things provided in this section, the City may, after reasonable notice, perform the work and charge the expense thereof to the holder of the franchise, license or lease and the holder of the franchise, license or lease shall promptly pay said charges.

140.10 DESIGN NOTICE TO CITY. The holder of a franchise, license or lease shall promptly, upon request, furnish the Clerk a detailed map or maps of its distribution system both within the City limits and the area within two miles surrounding the City unless that area is within another City. The holder of a franchise, license or lease shall thereafter update the map or maps at least annually or upon request, showing all subsequent additions or deletions to the distribution system. Prior to any excavation by the City or its agents, a representative must contact the holder of any franchise, license or lease regarding current information on the location of underground lines or facilities in the area concerned. The obligation to contact the holder of a franchise, license or lease under this section shall be satisfied if contact is made with the corporation organized pursuant to Code of Iowa Chapter 480 or an entity with a similar function utilized by both the City and the Company, currently the Iowa One Call System.

140.11 ABOVE-GROUND CABLES, WIRES, CONDUITS AND POLES. All cables, wires, and conduits shall be placed underground except where above-ground connection to buildings or other locations above ground are reasonably necessary. Such above-ground connection shall be by means of poles located, as far as reasonably practical, within alleys. No such poles shall be installed or erected until the City Engineers have approved the proposed location, construction and pole heights.

140.12 ASSIGNMENT. No sale or assignment of any franchise, license or lease of the use of the public right-of-way or other public property shall be effective until it is approved by the Council and until the holder thereof has filed in the office of the Clerk written notice of the proposed sale, transfer, disposition or assignment, such notice to clearly summarize the proposed procedure and the terms and conditions thereof. Such approval by the City shall not be unreasonably withheld. The proposed vendee, assignee or lessee shall similarly file an instrument, duly executed, reciting such proposal, accepting the terms of the franchise, license or lease and agreeing to perform all of the conditions thereof.

140.13 FORFEITURE. The violation of any material portion of a franchise, license or lease by the holder thereof or its successors or assigns or its failure promptly to perform any of the provisions of this chapter shall be cause for forfeiture of said franchise, license or lease and the termination of all rights thereunder. Such forfeiture shall be accomplished by ordinance of the City after written notice to the holder thereof and a continuation of the violation, failure or default specified on the notice for at least 30 days from the date the notice was served.

140.14 APPLICATION. This chapter shall apply to all franchises, licenses or leases and easements granted by the City, including all existing franchises, licenses or leases and easements.

140.15 HOME RULE. This chapter is intended to be and shall be construed as consistent with the reservation of local authority contained in the 25th Amendment to the Iowa Constitution granting cities Home Rule powers. To such end, any limitation on the power of the City contained herein is to be strictly construed and the City reserves to itself the right to exercise all power and authority to regulate and control its local affairs and all ordinances and regulations of the City shall be enforceable against the holder of any franchise, license or lease.

140.16 NEW TECHNOLOGIES. Should, within the term of any franchise, license or lease, developments within the field for which the grant was made offer to the holder thereof the opportunity to effectively, efficiently and economically serve its customers through use of a substance or material other than those for which the grant was originally made, then the holder of the franchise, license or lease may petition the Council, which, with such requirements or limitation as it deems necessary to protect public health, safety and welfare, may allow the use of such substances under the terms and conditions of the franchise, license or lease.

140.17 CONSTRUCTION WITHIN THE PUBLIC RIGHT-OF-WAY. No person shall perform any construction or make improvements to the property outside the lot and property lines and inside the curb lines upon public streets without first obtaining a permit from the City Clerk. In the absence of a curb, such property shall extend from the property line to that portion of the public street used or improved for vehicular purposes. *(Ord. 197 – Oct. 18 Supp.)*

140.18 PERMIT. The applicant for a construction permit must be a person with the legal authority to take action in accordance with the permit. In general, this means that applications should be made by the owners or lessees of the subject property or their agents, or persons who have contracted to purchase property contingent upon their ability to acquire the necessary permits, or their agents.

The applicant must be submitted on an approved form and must be complete. An application shall be complete when it contains all the information necessary for the Mayor to decide whether construction is appropriate.

A construction permit may be issued only after review and approval of the submitted application by the Mayor. An application and plan shall only be approved upon determination that the construction, if completed as proposed, will not impede the flow of water within the right-of-way.

(Section 140.18 – Ord. 197 – Oct. 18 Supp.)

140.19 PENALTIES. The failure of a person to obtain a permit as provided for in this ordinance shall be deemed to have committed a municipal infraction and shall be subject to the penalties set forth in Chapter 3 of the Code of Ordinances.

If a person performs construction or makes improvements in the right-of-way without first obtaining a permit, the City may perform the required action to put the property back into the same condition as it was prior to the unauthorized construction, keeping an accurate account of the expense incurred. The itemized expense account shall be filed with the Clerk, who shall pay such expenses on behalf of the City.

The Clerk shall send a statement of the total expense incurred by certified mail to the property owner who has failed to obtain a permit as provided for in this ordinance, and if the amount shown by the statement has not been paid within one month, the Clerk shall certify the costs to the County Treasurer and such costs shall then be collected with, and in the same manner as, general property taxes.

All buildings or structures that are structurally unsafe or not provided with adequate egress, or that constitute a fire hazard, or are otherwise dangerous to human life, or that in relation to existing use constitute a hazard to safety or health, or public welfare, by reason of inadequate maintenance, dilapidation, obsolescence, or abandonment, are, for the purpose of this chapter, unsafe buildings. All such unsafe buildings are hereby declared to be public nuisances and shall be abated by repair, rehabilitation, demolition, or removal in accordance with the procedure specified in this chapter.

(Code of Iowa, Sec. 657A.1 & 364.12[3a])

145.03 UNSAFE BUILDING. “Unsafe building” means any structure or mobile home meeting any or all of the following criteria:

5. Abandoned. Whenever any portion of a building or structure remains on a site after the demolition or destruction of the building or structure or whenever any building or structure is abandoned for a period in excess of six months so as to constitute such building or portion thereof an attractive nuisance or hazard to the public.

145.04 NOTICE TO OWNER. The enforcement officer shall examine or cause to be examined every building or structure or portion thereof reported as dangerous or damaged and, if such is found to be an unsafe building as defined in this chapter, the enforcement officer shall give to the owner of such building or structure written notice stating the defects thereof. This notice may require the owner or person in charge of the building or premises, within 48 hours

or such reasonable time as the circumstances require, to commence either the required repairs or improvements or demolition and removal of the building or structure or portions thereof, and all such work shall be completed within 90 days from date of notice, unless otherwise stipulated by the enforcement officer. If necessary, such notice shall also require the building, structure, or portion thereof to be vacated forthwith and not reoccupied until the required repairs and improvements are completed, inspected, and approved by the enforcement officer.

(Code of Iowa, Sec. 364.12[3h])

1. Notice Served. Such notice shall be served by sending by certified mail to the owner of record, according to Section 364.12[3h] of the *Code of Iowa*, if the owner is found within the City limits. If the owner is not found within the City limits, such service may be made upon the owner by registered mail or certified mail. The designated period within which said owner or person in charge is required to comply with the order of the enforcement officer shall begin as of the date the owner receives such notice.
2. Hearing. Such notice shall also advise the owner that he or she may request a hearing before the Council on the notice by filing a written request for hearing within the time provided in the notice.

145.05 CONDUCT OF HEARING. If requested, the Council shall conduct a hearing in accordance with the following:

1. Notice. The owner shall be served with written notice specifying the date, time and place of hearing.
2. Owner's Rights. At the hearing, the owner may appear and show cause why the alleged nuisance shall not be abated.
3. Determination. The Council shall make and record findings of fact and may issue such order as it deems appropriate.[†]

145.06 POSTING OF SIGNS. The enforcement officer shall cause to be posted at each entrance to such building a notice to read: "DO NOT ENTER. UNSAFE TO OCCUPY. CITY OF ANTHON, IOWA." Such notice shall remain posted until the required demolition, removal or repairs are completed. Such notice shall not be removed without written permission of the enforcement officer and no person shall enter the building except for the purpose of making the required repairs or of demolishing the building.

145.07 RIGHT TO DEMOLISH; MUNICIPAL INFRACTION. In case the owner fails, neglects, or refuses to comply with the notice to repair, rehabilitate, or to demolish and remove the building or structure or portion thereof, the Council may order the owner of the building prosecuted as a violator of the provisions of this chapter and may order the enforcement officer to proceed with the work specified in such notice. A statement of the cost of such work shall be transmitted to the Council. As an alternative to this action, the City may utilize the municipal infraction process to abate the nuisance.

(Code of Iowa, Sec. 364.12[3h])

[†] **EDITOR'S NOTE:** Suggested forms of notice and of a resolution and order of the Council for the administration of this chapter are provided in the APPENDIX to this Code of Ordinances. Such costs shall be charged to the owner of the premises involved and levied as a special assessment against the land on which the building or structure is located, and shall be certified to the County Treasurer for collection in the manner provided for other taxes. In addition, the City may take any other action deemed appropriate to recover costs incurred.

151.11 Inspection and Removal

151.12 Rate

151.01 PURPOSE. The purpose of this chapter is to beautify and preserve the appearance of the City by regulating and providing for the planting, care and removal of trees.

151.02 DEFINITION. For use in this chapter, “parking” means that part of the street, avenue, or highway in the City not covered by sidewalk and lying between the lot line and the curb line or, on unpaved streets, that part of the street, avenue, or highway lying between the lot line and that portion of the street usually traveled by vehicular traffic.

151.03 TREES IN PARKING. The owners of all lots or parcels of land are hereby granted the right and privilege of planting and maintaining trees on the parking in front of and beside their property, except as hereinafter provided, and upon the express condition that the right is reserved to the City at any time to use the same for street or sidewalk purposes and to remove all trees therefrom, or other things growing thereon, and providing further that all trees shall be planted and maintained in accordance with the requirements of this chapter.

151.04 PLANTING RESTRICTIONS. No tree shall be planted in any parking or street except in accordance with the following:

1. Alignment. All trees planted in any street shall be planted in the parking midway between the outer line of the sidewalk and the curb. In the event a curb line is not established, trees shall be planted on a line 10 feet from the property line.
2. Spacing. Trees shall not be planted on any parking that is less than nine feet in width, or contains less than 81 square feet of exposed soil surface per tree. Trees shall not be planted closer than 25 feet from street intersections (property lines extended) and 10 feet from a driveway, alley or fire hydrant. If it is at all possible, trees should be planted inside the property lines and not between the sidewalk and the curb.
3. Prohibited Trees. No person shall plant in any street any fruit-bearing tree or any tree of the kinds commonly known as cottonwood, poplar, box elder, Chinese elm, evergreen, soft maple, willow, or black walnut.
4. Utilities. No tree may be planted in the parking under or within 10 lateral feet of any overhead utility wire or over or within five lateral feet of any underground water line, sewer line, transmission line or other utility.

151.05 VISION. No tree shall be maintained upon the parking in such a manner as to interfere with the clear vision of drivers of vehicles, or within 25 feet of any intersection, and any trees existing contrary to the provisions hereof may be removed by the Public Works Superintendent without compensation to the abutting property owners.

151.06 DUTY TO TRIM TREES. The owner or agent of the abutting property shall keep the trees on, or overhanging the street, trimmed so that all branches will be at least 15 feet above the surface of the street and eight feet above the sidewalks and do not interfere with or obscure utility wires or street lights.

151.07 ENFORCEMENT PERIOD. If the abutting property owner fails to trim or maintain the trees as required in this chapter, the City may serve notice on the abutting property owner. The notice shall be by certified mail and allow five days after mailing said notice as a period of time to eliminate the violations. Return receipt with signature is not required for this notice. If the owner fails to act within the prescribed five-day time period, the City may perform or cause to be performed the required action and assess the costs against the property for collection in the same manner as a property tax.

151.08 REMOVAL OF TREES. The Public Works Superintendent shall remove or cause or order to be removed any tree on the parking which by reason of its nature is injurious to sewers, electric power lines, gas lines, water lines or other public improvements. The Public Works Superintendent shall additionally remove any trees on the parking, not on private property, which are dead or have become diseased, or which constitute a danger to the public, or which may otherwise be declared a nuisance.

151.09 REMOVAL OF STUMPS. It shall be the duty of the owner or agent of the abutting or adjacent property to remove any tree stumps in the parking so that the stump does not project above the surface of the ground.

151.10 DISEASE CONTROL. Any dead, diseased or damaged tree or shrub which may harbor serious insect or disease pests or disease injurious to other trees is hereby declared to be a nuisance.

151.11 INSPECTION AND REMOVAL. The Council shall inspect or cause to be inspected any trees or shrubs in the City reported or suspected to be dead, diseased or damaged, and such trees and shrubs shall be subject to the following:

1. City Property. If it is determined that any such condition exists on any public property, including the strip between the curb and the lot line of private property, the Council may cause such condition to be corrected by treatment or removal. The Council may also order the removal of any trees on the streets of the City which interfere with the making of improvements or with travel thereon.
2. Private Property. If it is determined with reasonable certainty that any such condition exists on private property and that danger to other trees or to adjoining property or passing motorists or pedestrians is imminent, the Council shall notify by certified mail the owner, occupant or person in charge of such property to correct such condition by treatment or removal within 14 days of said notification. If such owner, occupant, or person in charge of said property fails to comply within 14 days of receipt of notice, the Council may cause the condition to be corrected and the cost assessed against the property.

(Code of Iowa, Sec. 364.12[3b & h])

151.12 RATE. The rate at which a property owner shall be assessed for the City's performance of the required action under this chapter shall be fifty dollars (\$50.00) per hour, with a minimum charge of fifty dollars (\$50.00).

CHAPTER 152

WEEDS AND GRASS

152.01 Purpose

152.02 Definitions

152.03 Cutting Specification

152.04 Noxious Weeds

152.05 Enforcement Period

152.06 Additional Violation

152.01 PURPOSE. The purpose of this chapter is to provide for the cutting and mowing of all lawns and lots so as to beautify and preserve the appearance of the City and to provide for such cutting and mowing by the City and for the assessment of the cost and expenses thereof to the property in the event of the owner's failure to comply after due notice.

152.02 DEFINITIONS. For use in this chapter, the following terms are defined:

1. "Curb," "curb line" or "curbing" means the outer boundaries of a street at the edge of that portion of the street usually traveled by vehicular traffic.
2. "Cut," or "mow" means to mechanically maintain the growth of grass, weeds or brush at a uniform height.
3. "Owner" means a person owning private property in the City and any person occupying or in control of private property in the City.
4. "Parking" means that part of the street, avenue or highway in the City not covered by a sidewalk and lying between the lot line or property line and the curb line; or on unpaved streets, that part of the street, avenue or highway lying between the lot line and that portion of the street usually traveled by vehicular traffic.

152.03 CUTTING SPECIFICATION. Every owner shall cut, mow and maintain all grass, weeds and brush upon the owner's property and adjacent to the curb line or outer boundary of any street, which includes the parking area abutting the owner's property, to a height not to exceed eight inches.

152.04 NOXIOUS WEEDS.

1. Every owner shall cut and control noxious weeds upon the owner's property and adjacent to the curb line or outer boundary of any street, which includes the parking area abutting the owner's property, by cutting noxious weeds to ground level or use of herbicides to eliminate or eradicate such weeds.
2. Noxious weeds include any weed growth or plant designated as noxious by the State Department of Natural Resources rules and regulations or by the *Code of Iowa*.

152.05 ENFORCEMENT PERIOD. If the owner refuses or fails to cut, mow and maintain all grass, weeds and brush as required in this chapter, the City may serve notice on the last known owner or person in control. The notice shall be by certified mail and allow five days after mailing said notice as a period of time to eliminate the violations. Return receipt with signature is not required for this notice. If the owner fails to act within the prescribed five-day time period, the City may perform or cause to be performed the required action and assess costs against the property for collection in the same manner as a property tax.

152.06 ADDITIONAL VIOLATION. Any owner who violates the provisions of this chapter will be given one notice per summer and the City will be authorized to respond to additional violations without additional written notice being given.

155.01 PURPOSE. The purpose of this chapter is to provide and establish reasonable rules and regulations for the erecting and altering of buildings in the City, as well as the use and occupancy of such buildings.

(Code of Iowa, Sec. 364.1)

155.02 BUILDING OFFICIAL. The Mayor is the Building Official and is responsible for the administration and enforcement of this chapter.

155.03 PERMIT REQUIRED. No building or other structure shall be erected or altered within the City without first receiving a permit. A permit is required for work such as new homes, additions, patios, decks, porches, garages, accessory buildings, or for work that would change the outside dimensions of an existing building. A permit is not required for interior remodeling, roofing, window replacement, or siding a building. The construction of a fence does not require a building permit, but the construction of such fence shall comply with standards established in this chapter.

155.04 APPLICATION. Application shall be made in writing, filed with the Building Official and contain the following information:

1. Name. The name and address of the applicant.
2. Location. The street address and full legal description of the property.
3. Proposed Work. The nature of work proposed to be done.
4. Use. The use for which the structure is or will be used.
5. Plans. Application for permits shall be accompanied by such drawings of the proposed work, including such floor plans, sections, elevations and structural details, as the Building Official may require. There shall also be filed a diagram or sketch in a form and size acceptable to the Building Official with all dimensions figured, showing accurately the size and location of the lot to be built upon, and the location and size of the building or structure to be erected or altered.

155.05 FEE. A permit fee, as established by resolution of the Council, shall be paid to the City prior to issuance of the permit. In the event that work has commenced without first obtaining a permit, the permit fee shall be doubled. The payment of such double fee shall not relieve any persons from fully complying with the requirements of this chapter in the execution of the work.

155.06 AMENDMENTS. Nothing shall prohibit the filing of amendments to an application or to a plan or other record accompanying same, at any time before the completion of the work for which the permit was sought. Such amendments, after approval, shall be filed with and be deemed a part of the original application.

155.07 APPLICATION APPROVED. It is the duty of the Building Official to examine applications for permits within a reasonable time after filing. If, after examination, the Building Official finds no objection to the same and it appears that the proposed work will be in compliance with the laws and ordinances applicable thereto, the Building Official shall forward findings to the Council for its approval or disapproval.

155.08 EROSION CONTROL. When a land-disturbing activity, as defined in the Code of Iowa, is to occur as a part of a project for which a permit hereunder is sought, no permit shall be issued unless there is on file with the City a soil erosion control plan which covers the proposed project and is approved by the Soil Conservation District Commissioners.

155.09 ACTION BY COUNCIL. After receiving the findings of the Building Official, the Council shall, within a reasonable time, either approve or disapprove the application. If disapproved, the Council shall state its reasons for disapproval and notify the applicant of same. If approved, the Council shall instruct the Building Official to issue the building permit to the applicant. Said permit shall be issued in duplicate, one copy for the applicant and one copy to be retained in the City records.

155.10 APPLICATION DENIED; APPEAL. If the Building Official denies an application for permit, the reasons for such denial shall be stated and the applicant notified of such denial and of the right to appeal to the Council. The Council upon appeal may affirm, modify, or reverse the determination of the Building Official; provided, however, no application shall be approved and permit issued which would result in an abrogation of the intent and purpose of this chapter.

155.11 RESTRICTIONS. No permit for the erection or alteration of a building or similar structure shall be granted unless it definitely appears that such erection or alteration shall not cause or be the source of the following:

(Code of Iowa, Sec. 414.24)

1. Noise. Any undue noise.
2. Electrical Interference. Any undue radio or television interference.
3. Odors. Any offensive odors.
4. Refuse. Any offensive or unsightly refuse.
5. Smoke. Any offensive or undue smoke.
6. Fire Hazard. Any fire hazard.
7. Appearance. Any unsightliness due to the appearance of any building or structure on the premises.

8. Congestion. Any undue gathering, congregating, parking of cars or undue congestion of people or traffic.
9. Other. Any effect that will be obnoxious, offensive, dangerous, or injurious to the health, welfare, and safety of citizens.

155.12 CONDITION OF THE PERMIT. All work performed under any permit shall conform to the approved application and plans, and approved amendments thereof. The location of all new construction as shown on the approved plan, or an approved amendment thereof, shall be strictly adhered to. It is unlawful to reduce or diminish the area of a lot or plot of which a plan has been filed and has been used as the basis for a permit, unless a revised plan showing the proposed change in conditions shall have been filed and approved, provided that this shall not apply when the lot is reduced by reason of a street opening or widening or other public improvement.

155.13 POSTING OF PERMIT. A copy of the permit shall be kept on the premises open to public inspection during the prosecution of the work and until the completion of same. The Building Official may require a certified copy of the approved plans to be kept on the premises at all times from the commencement of the work to the completion thereof. The Building Official shall be given at least 24 hours' notice of the starting of the work under a permit.

155.14 REVOCATION. The Building Official may revoke a permit or approval issued under the provisions of this chapter in case there has been any false statement or misrepresentation as to a material fact in the application or plans on which the permit or approval was based.

155.15 PERMIT VOID. The permit becomes null and void if work or construction authorized is not commenced within 60 days, or if construction or work is suspended or abandoned for a period of 120 days at any time after work is commenced, or if the work is not completed within the time frame specified in the building permit. Extensions to these time frames may be granted by an affirmative vote of three-fourths of all of the members of the Council.

155.16 RESTRICTED RESIDENCE DISTRICT. The following area is hereby defined and established as a restricted residence district:

All that area lying within the corporate limits of the City except the commercial area as designated on the Official Restricted Residence District Map. The Official Restricted Residence District Map, on file in the office of the Clerk, is hereby adopted by reference and declared to be a part of this chapter.[†]

155.17 PROHIBITED USE. No building or other structure, except residences, schoolhouses, churches, and other similar structures, shall be erected, altered, used, or occupied within the restricted residence district as defined herein without first receiving from the Council a special use permit. No such special use permit shall be issued without the affirmative vote of three-fourths of all of the members of the Council.

(Code of Iowa, Sec. 414.24)

[†] See Editor's Note at the end of this chapter ordinances amending the Restricted Residence District Map.

155.18 EXCEPTIONS. The provisions of the preceding section shall have no application to any business, store, shop, or factory existing and in operation in a restricted residence district on March 13, 1989, except in the matter of reconstruction, alteration or change in use of the structure.

155.19 NOTICE REQUIREMENTS. Whenever a restricted residence district is established or its boundaries changed, a public hearing must be held, notice of which shall be given at least seven days in advance of the hearing and in the manner prescribed in Section 18.05 of this Code of Ordinances. In no case shall the public hearing be held earlier than the next regularly scheduled City Council meeting following the published notice.

(Code of Iowa, Sec. 414.24)

155.20 FRONT YARD REQUIREMENTS. Within the restricted residence district there shall be a front yard of not less than 25 feet (measured from the front lot line), except as follows:

(Code of Iowa, Sec. 414.24)

1. **Between Existing Buildings.** Where a building is to be erected on a parcel of land that is within 100 feet of existing buildings on both sides, the minimum front yard shall be a line drawn between the closest front corners of the adjacent buildings on the two sides, or
2. **Adjacent to Existing Building.** Where a building is to be erected on a parcel of land that is within 100 feet of an existing building on one side only within the same block, such building may be erected as close to the street as a line drawn from the closest front corner of that building to a point 25 feet back from the front lot line measured at the center of the lot on which the proposed building is to be erected.
3. **Double Frontage.** Where lots have a double frontage, the front yard as required herein shall be provided on both streets.

155.21 SIDE YARD REQUIREMENTS. Within the restricted residence district no building shall be erected closer than five feet to either side lot line.

(Code of Iowa, Sec. 414.24)

155.22 REAR YARD REQUIREMENTS. Within the restricted residence district there shall be a rear yard provided for each principal building of not less than 25 feet (when measured from the rear lot line) or 40 percent of the depth of the lot, whichever amount is smaller.

(Code of Iowa, Sec. 414.24)

155.23 RESIDENTIAL DWELLING STANDARDS. All residential dwelling units shall meet the following minimum standards:

1. The dwelling unit must have a minimum width of 22 feet for at least 65 percent of the length of the dwelling unit, said dimension to be exclusive of attached garages, porches or other accessory structures.
2. All dwelling units including attached garages shall be placed on a permanent frost-free foundation.
3. All dwelling units shall provide for a minimum of 900 square feet of floor space.
4. All dwelling units shall have a minimum roof pitch of 3:12. This requirement shall not apply to manufactured housing if the housing otherwise complies with 42 U.S.C. Sec. 5403.

155.24 GARAGES AND OTHER ACCESSORY BUILDINGS. A garage or other similar accessory building may be built in a rear yard, but such garage or accessory building shall not occupy more than 30 percent of a rear yard. In addition, the garage or accessory building shall not be nearer than five feet to any side or rear lot line, except that when a garage is entered from an alley it shall not be located closer than ten feet to the alley line, and except that a garage that is located closer than ten feet to the rear line of the main building shall provide the side yard for the main building. Also, a garage or accessory building may be built in a side yard if compliance is made with the same side yard requirements as for the main building.

155.25 FENCES.

1. **Frames.** The frame of a fence, including posts and supports, shall be placed on the inside of the fence. This section does not apply to fences erected as of the effective date of this Code of Ordinances.
2. **Materials.** Fences shall be constructed of material commonly used for landscape fencing such as masonry block, lumber, chain-link, wrought iron or natural plantings, but shall not include corrugated sheet metal or salvage material. The owner of a fence shall provide and maintain a two-foot setback from adjoining property for the purpose of fence maintenance access.
3. **Height.** Fences and walls not exceeding six feet in height are permitted within the limits of side and rear yards. A fence or wall not exceeding four feet in height is permitted within the limits of front yards. In the case of retaining walls supporting embankments, the above requirements shall apply only to that part of the wall above the ground surface of the retained embankment.
4. **Placement.** Front yard fences shall be no closer than six inches to the lot line. Front yard hedges and trees shall be no closer than three feet to the front lot line. Side and rear yard fences shall be no closer than two feet to any side or rear yard lot line. Side and rear yard hedges and trees shall be no closer than three feet to any side or back yard lot line. No fence shall be erected within 30 feet of the intersection of two street lines.

155.26 EXISTING LOTS. No yard or lot existing on the March 13, 1989, shall be reduced in dimension or area below the minimum requirements established in this chapter.

155.27 VARIANCES. Variances to minimum yard or fence requirements may be approved by securing an affirmative vote of three-fourths of all of the members of the Council. Said variance must include the reason for a variance, why the variance was granted and specific description of the property for which the variance was granted.

155.28 CERTIFYING ORDINANCES. Within 15 days of the effective date of the adoption of any amendments to the provisions of this chapter, the Clerk shall certify such amendment to the County Recorder.

(Code of Iowa, Sec. 380.11)

155.29 ABATEMENT OF VIOLATION. Any building or structure erected, altered, used or occupied in violation of this chapter shall be determined a nuisance, and the same may be abated by the City or by any property owner within said district in the manner provided for the abatement of nuisances.

160.01 STATUTORY AUTHORITY, FINDINGS OF FACT AND PURPOSE.

1. Statutory Authority. The Legislature of the State of Iowa has in Chapter 364, *Code of Iowa*, as amended, delegated the power to cities to exercise any power and perform any function that said cities deem appropriate to protect and preserve the rights, privileges, and property of the City or of its residents, and to preserve and improve the peace, safety, health, welfare, comfort, and convenience of its residents.

2. Findings of Fact.

A. The flood hazard areas of the City of Anthon are subject to periodic inundation, which can result in loss of life and property, health, and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety, and general welfare of the community.

B. These flood losses, hazards, and related adverse effects are caused by: (i) the occupancy of flood hazard areas by uses vulnerable to flood damages, which create hazardous conditions as a result of being inadequately elevated or otherwise protected from flooding; and (ii) the cumulative effect of obstructions on the flood plain, causing increases in flood heights and velocities.

3. Statement of Purpose. It is the purpose of this chapter to protect and preserve the rights, privileges, and property of the City and its residents and to preserve and improve the peace, safety, health, welfare, and comfort and convenience of its residents by minimizing those flood losses described in Section 160.01(2)(A) of this chapter with provisions designed to:

A. Restrict or prohibit uses that are dangerous to health, safety, or property in times of flood or which cause excessive increases in flood heights or velocities.

B. Require that uses vulnerable to floods, including public facilities that serve such uses, be protected against flood damage at the time of initial construction or substantial improvement.

C. Protect individuals from buying lands that may not be suited for intended purposes because of flood hazard.

D. Assure that eligibility is maintained for property owners in the community to purchase flood insurance through the National Flood Insurance Program.

160.02 DEFINITIONS. Unless specifically defined below, words or phrases used in this chapter shall be interpreted to give them the meaning they have in common usage and to give this chapter its most reasonable application.

1. "Base flood" means the flood having a one percent chance of being equaled or exceeded in any given year. (See "100-year flood.")
2. "Basement" means any enclosed area of a building which has its floor or lowest level below ground level (subgrade) on all sides. (Also see "lowest floor.")
3. "Development" means any manmade change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation, or drilling operations.
4. "Existing construction" means any structure for which the start of construction commenced before the effective date of the first flood plain management regulations adopted by the community and may also be referred to as "existing structure."
5. "Existing factory-built home park or subdivision" means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) was completed before the effective date of the first flood plain management regulations adopted by the community.
6. "Expansion of existing factory-built home park or subdivision" means the preparation of additional sites by the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).
7. "Factory-built home" means any structure designed for residential use which is wholly or in substantial part made, fabricated, formed, or assembled in manufacturing facilities for installation or assembly and installation on a building site. For the purpose of this chapter, factory-built homes include mobile homes, manufactured homes, and modular homes and also includes recreational vehicles that are placed on a site for greater than 180 consecutive days and not fully licensed for and ready for highway use.
8. "Factory-built home park" means a parcel or contiguous parcels of land divided into two or more factory-built home lots for sale or lease.
9. "Flood" means a general and temporary condition of partial or complete inundation of normally dry land areas resulting from the overflow of streams or rivers or from the unusual and rapid runoff of surface waters from any source.
10. "Flood elevation" means the elevation floodwaters would reach at a particular site during the occurrence of a specific flood. For instance, the 100-year flood elevation is the elevation of floodwaters related to the occurrence of the 100-year flood.

11. “Flood Insurance Rate Map” (FIRM) means the official map prepared as part of (but published separately from) the Flood Insurance Study and which delineates both the flood hazard areas and the risk premium zones applicable to the community.
12. “Flood plain” means any land area susceptible to being inundated by water as a result of a flood.
13. “Flood plain management” means an overall program of corrective and preventive measures for reducing flood damages and promoting the wise use of flood plains, including but not limited to emergency preparedness plans, flood control works, flood proofing, and flood plain management regulations.
14. “Flood proofing” means any combination of structural and nonstructural additions, changes, or adjustments to structures, including utility and sanitary facilities, which will reduce or eliminate flood damage to such structures.
15. “Floodway” means the channel of a river or stream and those portions of the flood plains adjoining the channel which are reasonably required to carry and discharge floodwaters or flood flows so that confinement of flood flows to the floodway area will not cumulatively increase the water surface elevation of the base flood by more than one foot.
16. “Floodway fringe” means those portions of the flood plain, other than the floodway, which can be filled, leveed, or otherwise obstructed without causing substantially higher flood levels or flow velocities.
17. “Historic structure” means any structure that is:
 - A. Listed individually in the National Register of Historic Places, maintained by the Department of Interior, or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing in the National Register;
 - B. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
 - C. Individually listed on a State inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or
 - D. Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either: (i) by an approved State program as determined by the Secretary of the Interior; or (ii) directly by the Secretary of the Interior in states without approved programs.
18. “Lowest floor” means the floor of the lowest enclosed area in a building including a basement except when all the following criteria are met:
 - A. The enclosed area is designed to flood to equalize hydrostatic pressure during floods with walls or openings that satisfy the provisions of Section 160.09(4)(A); and
 - B. The enclosed area is unfinished (not carpeted, dry-walled, etc.) and used solely for low damage potential uses such as building access, parking, or storage; and

- C. Machinery and service facilities (e.g., hot water heater, furnace, electrical service) contained in the enclosed area are located at least one foot above the 100-year flood level; and
- D. The enclosed area is not a basement as defined in this section.

In cases where the lowest enclosed area satisfies criteria A, B, C and D above, the lowest floor is the floor of the next highest enclosed area that does not satisfy the criteria above.

- 19. “Minor projects” means small development activities (except for filling, grading and excavating) valued at less than \$500.00.
- 20. “New construction” (new buildings, factory-built home parks) means those structures or development for which the start of construction commenced on or after the effective date of the first flood plain management regulations adopted by the community.
- 21. “New factory-built home park or subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of the first flood plain management regulations adopted by the community.
- 22. “100-year flood” means a flood, the magnitude of which has a one percent chance of being equaled or exceeded in any given year or which, on the average, will be equaled or exceeded at least once every 100 years.
- 23. “Recreational vehicle” means a vehicle that is:

 - C. Designed to be self-propelled or permanently towable by a light duty truck; and
 - D. Designed primarily not for use as a permanent dwelling but as a temporary living quarters for recreational, camping, travel, or seasonal use.
- 24. “Routine maintenance of existing buildings and facilities” means repairs necessary to keep a structure in a safe and habitable condition that do not trigger a building permit, provided they are not associated with a general improvement of the structure or repair of a damaged structure. Such repairs include:
 - A. Normal maintenance of structures such as re-roofing, replacing roofing tiles and replacing siding;
 - B. Exterior and interior painting, papering, tiling, carpeting, cabinets, counter tops and similar finish work;
 - C. Basement sealing;
 - D. Repairing or replacing damaged or broken window panes;
 - E. Repairing plumbing systems, electrical systems, heating or air conditioning systems and repairing wells or septic systems.

25. “Special flood hazard area” means the land within a community subject to the 100-year flood. This land is identified as Zone A, AE, A1-A30, AO, and AH on the Flood Insurance Rate Map.
26. “Start of construction” includes substantial improvement, and means the date the development permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement or permanent construction of a structure on a site, such as pouring of a slab or footings, the installation of pile, the construction of columns, or any work beyond the stage of excavation; or the placement of a factory-built home on a foundation. Permanent construction does not include land preparation, such as clearing, grading, and filling, nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of the building, whether or not that alteration affects the external dimensions of the building.
27. “Structure” means anything constructed or erected on the ground or attached to the ground, including (but not limited to) buildings, factories, sheds, cabins, factory-built homes, storage tanks, and other similar uses.
28. “Substantial damage” means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damage condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.
29. “Substantial improvement” means any improvement to a structure which satisfies either of the following criteria:
- A. Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure, either: (i) before the start of construction of the improvement; or (ii) if the structure has been “substantially damaged” and is being restored, before the damage occurred. The term does not, however, include any project for improvement of a structure to correct existing violations of State or local health, sanitary, or safety code specifications that have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions. The term also does not include any alteration of a historic structure, provided the alteration will not preclude the structure’s designation as a historic structure.
 - B. Any addition that increases the original floor area of a building by 25 percent or more. All additions constructed after the effective date of the first flood plain management regulations adopted by the community shall be added to any proposed addition in determining whether the total increase in original floor space would exceed 25 percent.
30. “Variance” means a grant of relief by a community from the terms of the flood plain management regulations.
31. “Violation” means the failure of a structure or other development to be fully compliant with the community’s flood plain management regulations.

160.03 LANDS TO WHICH CHAPTER APPLIES. The provisions of this chapter apply to all lands and uses that have significant flood hazards. The Flood Insurance Rate Map (FIRM) for Woodbury County, City of Anthon, Panel 19193C0313D, dated September 29, 2011, which was prepared as part of the Woodbury County Flood Insurance Study, shall be used to identify such flood hazard areas and all areas shown thereon to be within the boundaries of the 100-year flood shall be considered as having significant flood hazards. Where uncertainty exists with respect to the precise location of the 100-year flood boundary, the location shall be determined on the basis of the 100-year flood elevation at the particular site in question. The City of Anthon Flood Insurance Study is hereby adopted by reference and is made a part of this chapter for the purpose of administering flood plain management regulations.

160.04 COMPLIANCE. No structure or land shall hereafter be used and no structure shall be located, extended, converted, or structurally altered without full compliance with the terms of this chapter and other applicable regulations that apply to uses within the jurisdiction of this chapter.

160.05 ABROGATION AND GREATER RESTRICTIONS. It is not intended by this chapter to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this chapter imposes greater restrictions, the provisions of this chapter shall prevail. All other ordinances inconsistent with this chapter are hereby repealed to the extent of the inconsistency only.

160.06 INTERPRETATION. In their interpretation and application, the provisions of this chapter shall be held to be minimum requirements and shall be liberally construed in favor of the governing body and shall not be deemed a limitation or repeal of any other powers granted by State statutes.

160.07 WARNING AND DISCLAIMER OF LIABILITY. The standards required by this chapter are considered reasonable for regulatory purposes. This chapter does not imply that areas outside the designated areas of significant flood hazard will be free from flooding or flood damages. This chapter shall not create liability on the part of the City or any officer or employee thereof for any flood damages that result from reliance on this chapter or any administrative decision lawfully made hereunder.

160.08 SEVERABILITY. If any section, clause, provision or portion of this ordinance is adjudged unconstitutional or invalid by a court or competent jurisdiction, the remainder of this ordinance shall not be affected thereby.

160.09 GENERAL FLOOD PLAIN MANAGEMENT STANDARDS. All uses must be consistent with the need to minimize flood damage and meet the following applicable performance standards. Where 100-year flood data has not been provided in the Flood Insurance Study, the Iowa Department of Natural Resources shall be contacted to determine: (i) whether the land involved is either wholly or partly within the floodway or floodway fringe; and (ii) the 100-year flood level. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determination.

1. All Development. All development within the areas of significant flood hazard shall:
 - A. Be consistent with the need to minimize flood damage.
 - B. Use construction methods and practices that will minimize flood damage.

- C. Use construction materials and utility equipment that are resistant to flood damage.
 - D. Obtain all other necessary permits from Federal, State, and local governmental agencies including approval when required from the Iowa Department of Natural Resources.
2. **Residential Buildings.** All new or substantially improved residential structures shall have the lowest floor, including basement, elevated a minimum of one foot above the 100-year flood level. Construction shall be upon compacted fill, which shall, at all points, be no lower than one foot above the 100-year flood level and extend at such elevation at least 18 feet beyond the limits of any structure erected thereon. Alternate methods of elevating (such as piers) may be allowed, subject to favorable consideration by the City Council, where existing topography, street grades, or other factors preclude elevating by fill. In such cases, the methods used must be adequate to support the structure as well as withstand the various forces and hazards associated with flooding. All new residential structures shall be provided with a means of access that will be passable by wheeled vehicles during the 100-year flood.
3. **Nonresidential Buildings.** All new or substantially improved nonresidential buildings shall have the lowest floor (including basement) elevated a minimum of one foot above the 100-year flood level, or together with attendant utility and sanitary systems, be flood proofed to such a level. When flood proofing is utilized, a professional engineer registered in the State shall certify that the flood proofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the 100-year flood; and that the structure, below the 100-year flood level, is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum) to which any structures are flood proofed shall be maintained by the Administrator.
4. **All New and Substantially Improved Structures.**
- A. Fully enclosed areas below the lowest floor (not including basements) that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or meet or exceed the following minimum criteria:
 - (1) A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.
 - (2) The bottom of all openings shall be no higher than one foot above grade.
 - (3) Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

Such areas shall be used solely for parking of vehicles, building access, and low damage potential storage.

- B. New and substantially improved structures must be designed (or modified) and adequately anchored to prevent flotation, collapse or lateral

movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.

C. New and substantially improved structures must be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

5. Factory-Built Homes.

A. All factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be elevated on a permanent foundation such that the lowest floor of the structure is a minimum of one foot above the 100-year flood level.

B. All factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be anchored to resist flotation, collapse or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors.

6. Utility and Sanitary Systems.

A. On-site waste disposal and water supply systems shall be located or designed to avoid impairment to the system or contamination from the system during flooding.

B. All new and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of floodwaters into the system as well as the discharge of effluent into floodwaters. Wastewater treatment facilities (other than on-site systems) shall be provided with a level of flood protection equal to or greater than one foot above the 100-year flood elevation.

C. New or replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system. Water supply treatment facilities other than on-site systems shall be provided with a level of protection equal to or greater than one foot above the 100-year flood elevation.

D. Utilities such as gas or electrical systems shall be located and constructed to minimize or eliminate flood damage to the system and the risk associated with such flood damaged or impaired systems.

7. Storage of Flammable Materials and Equipment. Storage of equipment and materials that are flammable, explosive, or injurious to human, animal, or plant life is prohibited unless elevated a minimum of one foot above the 100-year flood level. Other material and equipment must either be similarly elevated or: (i) not subject to major flood damage and anchored to prevent movement due to floodwaters; or (ii) readily removable from the area within the time available after flood warning.

8. Flood Control Structures. Flood control structural works such as levees, flood walls, etc. shall provide, at a minimum, protection from a 100-year flood with a minimum of three feet of design freeboard and shall provide for adequate interior drainage. In addition, structural flood control works shall be approved by the Department of Natural Resources.

9. Watercourse Alterations. Watercourse alterations or relocations must be designed to maintain the flood carrying capacity within the altered or relocated portion.

In addition, such alterations or relocations must be approved by the Department of Natural Resources.

10. Subdivision. Subdivisions (including factory-built home parks and subdivisions) shall be consistent with the need to minimize flood damages and shall have adequate drainage provided to reduce exposure to flood damage. Development associated with subdivision proposals (including the installation of public utilities) shall meet the applicable performance standards of this chapter. Subdivision proposals intended for residential use shall provide all lots with a means of access that will be passable by wheeled vehicles during the 100-year flood. Proposals for subdivisions greater than five acres or 50 lots (whichever is less) shall include 100-year flood elevation data for those areas located within the area of significant flood hazard.

11. Accessory Structures.

A. Detached garages, sheds, and similar structures accessory to a residential use are exempt from the 100-year flood elevation requirements where the following criteria are satisfied:

- (1) The structure shall not be used for human habitation.
- (2) The structure shall be designed to have low flood damage potential.
- (3) The structure shall be constructed and placed on the building site so as to offer minimum resistance to the flow of floodwaters.
- (4) The structure shall be firmly anchored to prevent flotation which may result in damage to other structures.
- (5) The structure's service facilities such as electrical and heating equipment shall be elevated or flood proofed to at least one foot above the 100-year flood level.

B. Exemption from the 100-year flood elevation requirements for such a structure may result in increased premium rates for flood insurance coverage of the structure and its contents.

12. Recreational Vehicles.

A. Recreational vehicles are exempt from the requirements of subsection 5 of this section regarding anchoring and elevation of factory-built homes when the following criteria are satisfied.

- (1) The recreational vehicle shall be located on the site for less than 180 consecutive days; and
- (2) The recreational vehicle must be fully licensed and ready for highway use. A recreational vehicle is ready for highway use if it is on its wheels or jacking system and is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.

B. Recreational vehicles that are located on the site for more than 180 consecutive days or are not ready for highway use must satisfy requirements of subsection 5 of this section regarding anchoring and elevation of factory-built homes.

13. Pipeline Crossings. Pipeline river and stream crossings shall be buried in the streambed and banks or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering.

160.10 SPECIAL FLOODWAY STANDARDS. In addition to the general flood plain standards, uses within the floodway must meet the following applicable standards. The floodway is that portion of the flood plain which must be protected from developmental encroachment to allow the free flow of floodwaters. Where floodway data have been provided in the flood insurance study, such data shall be used to define the floodway. Where no floodway data has been provided, the Department of Natural Resources shall be contacted to provide a floodway delineation. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determination.

1. No use shall be permitted in the floodway that would result in any increase in the 100-year flood level. Consideration of the effects of any development on flood levels shall be based upon the assumption that an equal degree of development would be allowed for similarly situated lands.
2. All uses within the floodway shall:
 - A. Be consistent with the need to minimize flood damage.
 - B. Use construction methods and practices that will minimize flood damage.
 - C. Use construction materials and utility equipment that are resistant to flood damage.
3. No use shall affect the capacity or conveyance of the channel or floodway of any tributary to the main stream, drainage ditch, or any other drainage facility or system.
4. Structures, buildings, and sanitary and utility systems, if permitted, shall meet the applicable general flood plain standards and shall be constructed or aligned to present the minimum possible resistance to flood flows.
5. Buildings, if permitted, shall have a low flood damage potential and shall not be for human habitation.
6. Storage of materials or equipment that are buoyant, flammable, explosive, or injurious to human, animal, or plant life is prohibited. Storage of other material may be allowed if readily removable from the floodway within the time available after flood warning.
7. Watercourse alterations or relocations (channel changes and modifications) must be designed to maintain the flood carrying capacity within the altered or relocated portion. In addition, such alterations or relocations must be approved by the Department of Natural Resources.
8. Any fill allowed in the floodway must be shown to have some beneficial purpose and shall be limited to the minimum amount necessary.
9. Pipeline river or stream crossings shall be buried in the streambed and banks or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering or due to the action of flood flows.

160.11 SPECIAL SHALLOW FLOODING AREAS STANDARDS. In addition to the general flood plain standards, uses within shallow flooding areas must meet the following applicable standards.

1. In shallow flooding areas designated as an AO Zone on the Flood Insurance Rate Map (FIRM), the minimum flood proofing/flood protection elevation shall be equal to the number of feet as specified on the FIRM (or a minimum of two feet if no number is specified) above the highest natural grade adjacent to the structure.
2. In shallow flooding areas designated as an AH Zone on the Flood Insurance Rate Map, the minimum flood proofing/flood protection elevation shall be equal to the elevation as specified on the FIRM.

160.12 ADMINISTRATION. The City Clerk shall implement and administer the provisions of this chapter and will herein be referred to as the Administrator. Duties and responsibilities of the Administrator shall include, but not necessarily be limited to, the following:

1. Review all flood plain development permit applications to assure that the provisions of this chapter will be satisfied.
2. Review all flood plain development permit applications to assure that all necessary permits have been obtained from Federal, State, and local governmental agencies including approval when required from the Department of Natural Resources for flood plain construction.
3. Record and maintain a record of the elevation (in relation to North American Vertical Datum) of the lowest floor (including basement) of all new or substantially improved structures.
4. Record and maintain a record of the elevation (in relation to North American Vertical Datum) to which all new or substantially improved structures have been flood proofed.
5. Notify adjacent communities and/or counties and the Department of Natural Resources prior to any proposed alteration or relocation of a watercourse and submit evidence of such notifications to the Federal Emergency Management Agency.
6. Keep a record of all permits, appeals, and such other transactions and correspondence pertaining to the administration of this chapter.

160.13 FLOOD PLAIN DEVELOPMENT PERMIT REQUIRED. A flood plain development permit issued by the Administrator shall be secured prior to any flood plain development (any manmade change to improved and unimproved real estate, including but not limited to buildings or other structures, mining, filling, grading, paving, excavation or drilling operations) including the placement of factory-built homes.

160.14 APPLICATION FOR PERMIT. Application for a flood plain development permit shall be made on forms supplied by the Administrator and shall include the following information:

1. Work To Be Done. Description of the work to be covered by the permit for which application is to be made.

2. Location. Description of the land on which the proposed work is to be done (i.e., lot, block, tract, street address, or similar description), which will readily identify and locate the work to be done.
3. Use or Occupancy. Indication of the use or occupancy for which the proposed work is intended.
4. Flood Elevation. Elevation of the 100-year flood.
5. Floor Elevation. Elevation (in relation to North American Vertical Datum) of the lowest floor (including basement) of buildings or of the level to which a building is to be flood proofed.
6. Cost of Improvement. For buildings being improved or rebuilt, the estimated cost of improvements and market value of the building prior to the improvements.
7. Other. Such other information as the Administrator deems reasonably necessary (e.g., drawings or a site plan) for the purpose of this chapter.

160.15 ACTION ON APPLICATION. The Administrator shall, within a reasonable time, make a determination as to whether the proposed flood plain development meets the applicable standards of this chapter and shall approve or disapprove the application. For disapprovals, the applicant shall be informed, in writing, of the specific reasons therefor. The Administrator shall not issue permits for variances except as directed by the Council.

160.16 CONSTRUCTION AND USE TO BE AS PROVIDED IN APPLICATION AND PLANS. Flood plain development permits, issued on the basis of approved plans and applications, authorize only the use, arrangement, and construction set forth in such approved plans and applications and no other use, arrangement, or construction. Any use, arrangement, or construction at variance with that authorized shall be deemed a violation of this chapter. The applicant shall be required to submit certification by a professional engineer or land surveyor, as appropriate, registered in the State, that the finished fill, building floor elevations, flood proofing, or other flood protection measures were accomplished in compliance with the provisions of this chapter, prior to the use or occupancy of any structure.

160.17 VARIANCES. The City Council may authorize upon request in specific cases such variances from the terms of this chapter that will not be contrary to the public interest, where, owing to special conditions, a literal enforcement of the provisions of this chapter will result in unnecessary hardship. Variances granted must meet the following applicable standards:

1. Cause. Variances shall only be granted upon: (i) a showing of good and sufficient cause; (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant; and (iii) a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local codes or ordinances.
2. Prohibited. Variances shall not be issued within any designated floodway if any increase in flood levels during the 100-year flood would result. Consideration of the effects of any development on flood levels shall be based upon the assumption that an equal degree of development would be allowed for similarly situated lands.
3. Required To Afford Relief. Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

4. Notice To Applicant. In cases where the variance involves a lower level of flood protection for buildings than what is ordinarily required by this chapter, the applicant shall be notified in writing over the signature of the Administrator that: (i) the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as \$25.00 for \$100.00 of insurance coverage; and (ii) such construction increases risks to life and property.

5. Approval. All variances granted shall have the concurrence or approval of the Department of Natural Resources.

160.18 FACTORS UPON WHICH THE DECISION TO GRANT VARIANCES SHALL BE BASED. In passing upon applications for variances, the Council shall consider all relevant factors specified in other sections of this chapter and:

1. The danger to life and property due to increased flood heights or velocities caused by encroachments.
2. The danger that materials may be swept on to other land or downstream to the injury of others.
3. The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination, and unsanitary conditions.
4. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.
5. The importance of the services provided by the proposed facility to the City.
6. The requirements of the facility for a flood plain location.
7. The availability of alternative locations not subject to flooding for the proposed use.
8. The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.
9. The relationship of the proposed use to the comprehensive plan and flood plain management program for the area.
10. The safety of access to the property in times of flood for ordinary and emergency vehicles.
11. The expected heights, velocity, duration, rate of rise, and sediment transport of the floodwaters expected at the site.
12. The cost of providing governmental services during and after flood conditions, including maintenance and repair of public utilities (sewer, gas, electrical, and water systems), facilities, streets and bridges.
13. Such other factors relevant to the purpose of this chapter.

160.19 CONDITIONS ATTACHED TO VARIANCES. Upon consideration of the factors listed in Section 160.18, the Council may attach such conditions to the granting of variances as it deems necessary to further the purpose of this chapter. Such conditions may include, but not necessarily be limited to:

1. Modification of waste disposal and water supply facilities.
2. Limitation of periods of use and operation.

3. Imposition of operational controls, sureties, and deed restrictions.
4. Requirements for construction of channel modifications, dikes, levees, and other protective measures, provided such are approved by the Department of Natural Resources and are deemed the only practical alternative to achieving the purposes of this chapter.
5. Flood proofing measures.

160.20 NONCONFORMING USES.

1. A structure or the use of a structure or premises which was lawful before the passage or amendment of this chapter, but which is not in conformity with the provisions of this chapter, may be continued subject to the following conditions:
 - A. If such use is discontinued for six consecutive months, any future use of the building premises shall conform to this chapter.
 - B. Uses or adjuncts thereof that are or become nuisances shall not be entitled to continue as nonconforming uses.
2. If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than 50 percent of the market value of the structure before the damage occurred, unless it is reconstructed in conformity with the provisions of this chapter. This limitation does not include the cost of any alteration to comply with existing State or local health, sanitary, building, or safety codes or regulations or the cost of any alteration of a structure listed on the National Register of Historic Places, provided that the alteration shall not preclude its continued designation.

160.21 PENALTIES FOR VIOLATIONS. Violations of the provisions of this chapter or failure to comply with any of the requirements shall constitute a misdemeanor. Any person who violates this chapter or fails to comply with any of its requirements shall upon conviction thereof be fined not more than \$500.00 or imprisoned for not more than 30 days. Nothing herein contained shall prevent the City of Anthon from taking such other lawful action as is necessary to prevent or remedy violation.

160.22 AMENDMENTS. The regulations and standards set forth in this chapter may from time to time be amended, supplemented, changed, or repealed. No amendment, supplement, change, or modification shall be undertaken without prior approval from the Department of Natural Resources.

APPENDIX TO CODE OF ORDINANCES

USE AND MAINTENANCE OF THE CODE OF ORDINANCES

The following information is provided to assist in the use and proper maintenance of this Code of Ordinances.

DISTRIBUTION OF COPIES

1. OFFICIAL COPY. The “OFFICIAL COPY” of the Code of Ordinances must be kept by the City Clerk and should be identified as the “OFFICIAL COPY.”

2. DISTRIBUTION. Other copies of the Code of Ordinances should be made available to all persons having a relatively frequent and continuing need to have access to ordinances which are in effect in the City as well as reference centers such as the City Library, County Law Library, and perhaps the schools.

3. SALE. The sale or distribution of copies in a general fashion is not recommended as experience indicates that indiscriminate distribution tends to result in outdated codes being used or misused.

4. RECORD OF DISTRIBUTION. The City Clerk should be responsible for maintaining an accurate and current record of persons having a copy of the Code of Ordinances. Each official, elected or appointed, should return to the City, upon leaving office, all documents, records and other materials pertaining to the office, including this Code of Ordinances.

(Code of Iowa, Sec. 372.13[4])

NUMBERING OF ORDINANCES AMENDING THE CODE OF ORDINANCES

It is recommended that a simple numerical sequence be used in assigning ordinance numbers to ordinances as they are passed. For example, if the ordinance adopting the Code of Ordinances is No. 163, we would suggest that the first ordinance passed changing, adding to, or deleting from the Code be assigned the number 164, the next ordinance be assigned the number 165, and so on. We advise against using the Code of Ordinances numbering system for the numbering of ordinances.

RETENTION OF AMENDING ORDINANCES

Please note that two books should be maintained: (1) the Code of Ordinances, and (2) an ordinance book. We will assist in the maintenance of the Code of Ordinances book, per the Supplement Agreement, by revising and returning appropriate pages for the Code of Ordinances book as required to accommodate ordinances amending the Code. The City Clerk is responsible for maintaining the ordinance book and must be sure that an original copy of each ordinance adopted, bearing the signatures of the Mayor and Clerk, is inserted in the ordinance book and preserved in a safe place.

SUPPLEMENT RECORD

A record of all supplements prepared for the Code of Ordinances is provided in the front of the Code. This record will indicate the number and date of the ordinances adopting the original Code and of each subsequently adopted ordinance which has been incorporated in the Code. For each supplemented ordinance, the Supplement Record will list the ordinance number, date, topic, and chapter or section number of the Code affected by the amending ordinance. A periodic review of the Supplement Record and ordinances passed will assure that all ordinances amending the Code have been incorporated therein.

DISTRIBUTION OF SUPPLEMENTS

Supplements containing revised pages for insertion in each Code will be sent to the Clerk. It is the responsibility of the Clerk to see that each person having a Code of Ordinances receives each supplement so that each Code may be properly updated to reflect action of the Council in amending the Code.

AMENDING THE CODE OF ORDINANCES

The Code of Ordinances contains most of the laws of the City as of the date of its adoption and is continually subject to amendment to reflect changing policies of the Council, mandates of the State, or decisions of the Courts. Amendments to the Code of Ordinances can only be accomplished by the adoption of an ordinance.

(Code of Iowa, Sec. 380.2)

The following forms of ordinances are recommended for making amendments to the Code of Ordinances:
