

## Colorado Convention Center Labor Rules - Vendor Reminders

- The POV drop off is located off Welton Street. You will not be permitted to unload your own vehicles at this facility unless you're able to HAND CARRY your items to your booth. Anything that cannot be hand carried, you will be required to order labor or cartload service to have your items brought to your booth from the POV drop-off. These services can be ordered beforehand on Shepard's ExhibitorPro Portal or at the time of your arrival.
- The POV drop off is on a first come, first serve basis. It will be available during published exhibitor move-in and move-out hours only. You may gain access to the POV drop-off by checking in at the entrance off Welton Street with the security guard. Please be aware that the overhang above this area is 12'H. If your vehicle is taller than this, you will need to arrange for dock drop-off, which can be done with the security guard at the entrance to the POV drop-off.
- Please note the POV drop-off is on street level. The Exhibit Hall is on the Upper Level.

- You may not operate any type of mechanical or powered equipment at any time at this facility, including hand pallet jacks, 2- or 4-wheel dollies and wagons. This is a hand carry only facility.
- No power tools may be used to install anything in your booth. Hand tools only. You may perform up to one hour of labor per 100 sq ft of booth space to build your booth during move in and move out. You may set products in your booth space without any time constraints.
- You may hand carry your items from one booth space to another. Nothing with wheels may be used to accomplish this task. If you need assistance, you may order labor from the Shepard Service Desk.
- If you are purchasing a booth at the end of Market, you may hand carry your items to your vehicle at the end of Market. You may not operate any type of mechanical or powered equipment, including hand pallet jacks, 2- or 4-wheel dollies and wagons to remove products from the facility. If you need assistance removing products from the booth to your vehicle, you may order labor from the Shepard Service Desk.
- Marshalling Yard information can be found below.
