

Auto Repair

Car Doctor - (703) 560-8870. I have used Car Doctor, for over 20 years. They specialize in foreign cars, but can do some basic American car repairs. When I bought a used car a few years ago, it turned out that the person I bought the car from had also used Car Doctor, and the car has turned out to be in great shape. I highly recommend them. Jennifer Gittins-Harfst, Banff St.

W T Auto Body - 703-385-0018 Fairfax, VA 22031. We've had two very positive experiences with W T Auto Body, in both cases after our car was hit. The first case was a relatively minor side-swipe, the second resulted in severe damage to both the back and front of a 4-month old car after we were rear-ended. In both cases, W T Auto Body worked with the insurance companies and repaired the vehicles so that one would never know the damages had occurred. We highly recommend them for quality and professionalism. Lowell Tonnessen, Fidelity Ct.
