

## **Handyman**

**Gilbert Altuna** – 571 575-5844. Recommended by Liz Segall, Sugarbush and Peg Desko, former homeowner.

**Jim the Handyman** – (703)-503-9699. I have used Jim the Handyman for years and have been very pleased. I chose him originally because I had several handyman companies come out to do an estimate for a bunch of different things, and his estimate did not contain the overly inflated estimates for simple things that some of the others did. I highly recommend him.

JenniferGittins-Harfst, Banff St.

Here is a recommendation for Jim the Handyman services I used March 5, 2021. All I can say is I wished I had called them sooner. I was so impressed by the work done, I now have another list started. I would like to start with Jorge Falcones, who repaired dry wall in my basement after we had to have the ceiling opened up to repair vent issues. He repaired the ceiling like a pro, by looking at it you would not have known there was any repair. He also replaced a bathroom heat/light/fan in the basement bathroom much to the delight of my kids. For the exterior, Joss & Rakeen repaired the foundation walls by scraping, filling in cracks and painting it. They also replaced the deck flood light, added casing in the garage attic opening, fixed the attic ladder. Just incredible work! The interior dining/kitchen ceiling where water damage had been done, was masterfully repaired by Franco & his assistant. He also repaired some caulking in the kitchen and secured some loose toe-kick boards in the kitchen. I cannot thank Jorge, Joss, Rakeen and Franco and their assistants enough for their outstanding professional level work. Cindy Griffin, Bromley Ct.
