

The
Ultimate
PSU Delivery
System

Deliver More.TM

Put it ANYWHERE! *FAST!*

The ability to easily jump curbs and float over soft yards allows you to put boxes where you never imagined possible before.

Navigating tight parking lots is easier than ever!

Using the Mule, you can slide the PSU box into a space the size of a parking spot or less.

The PSUG2 Mule offers new and innovative technology such as High Torque Drive Hubs, Automatic Tracking, and On Board Diagnostics. Powered by a 24HP Honda engine and with more than 97,000 lbf. in. of axle torque, the PSUG2 Mule offers you unprecedented power and flexibility.*

PSUG2 MULE

Patented

Wireless Remote Control

The Cardinal PSU Trailer offers you the acclaimed Cardinal technology without needing to have CDL-certified drivers. You can also use a truck you already have, saving on up-front costs.

PSU TRAILER

Patented

Level load and unload...

The Cardinal PSU Truck Body is most widely-acclaimed in PSU moving. With no bulky moving system, you can simply park along the street and slide your box off with the Cardinal PSU G2 Mule and put it anywhere the customer wants it - fast and easy.

PSU TRUCK

Patented

Level load and unload...
