# HISTORY

Roger Industries Limited (formerly known as Roger Exports) was founded in 1979 as a leather upper export unit. Over the years, and particularly towards the close of the 20th century, the company evolved and expanded exponentially, transforming into a fully integrated fashion footwear manufacturer with comprehensive design, development, and production capabilities.

# ACCREDITATIONS

Roger Industries Limited operates in full compliance with internationally recognised manufacturing, quality, and ethical standards. Our facilities are regularly audited and accredited by leading global bodies, reflecting our commitment to quality assurance, responsible sourcing, worker welfare, and sustainable manufacturing practices. These accreditations reinforce the trust placed in us by international brands and partners worldwide.

## CSR

At Roger Industries Limited, sustainability extends beyond manufacturing to creating a positive impact on society and the environment. In alignment with ISO 14001:2015, our facilities are equipped with solar power systems to reduce our carbon footprint and rainwater harvesting infrastructure to promote responsible water conservation.

Complementing our environmental initiatives, our (CSR) efforts are led through the Roger Foundation. The Foundation operates a subsidised medical clinic and pharmacy, organises regular medical camps for employees and the local community, and actively supports nearby schools to strengthen access to education. Through these initiatives, Roger remains committed to responsible growth, community well-being, and long-term sustainable development.

## ADVANCE MACHINERIES

Roger is equipped with state-of-the-art machinery across its cutting, finishing, and packing departments, enabling high precision, consistent quality, and efficient production. These advanced technologies support superior craftsmanship while ensuring scalability, accuracy, and reliability at every stage of manufacturing.

## QUALITY & TESTING

Roger conducts regular audits through in-house and third-party inspectors, with quality checks aligned to each customer's standards.

Our in-house testing team routinely evaluates raw materials for physical and chemical compliance to ensure consistent quality as per the customer's requirements.

## WORKFORCE

With a daily production capacity of 7,000 pairs, Roger is supported by a well-structured and skilled team across R&D and production. Many members of our workforce have been with us for one, two, and even three decades, reflecting strong loyalty, deep workmanship expertise, and continuity. Ongoing training and regular professional audits ensure our teams remain motivated, highly skilled, and aligned with evolving industry practices.

## PRODUCTION

Roger offers a comprehensive range of fashion and functional footwear across multiple categories and constructions. Backed by integrated manufacturing capabilities, the company has the capacity to produce up to 2 million pairs of fashion footwear annually, enabling it to serve both large-scale international programs and specialised collections with consistent quality and reliability.

Together with its sister concern, Euro Safety Footwear, the Roger Group has a combined annual production capacity of 4.7 million pairs, spanning fashion, safety, tactical, and other functional footwear categories.
