Objective

Highly-experienced excavation supervisor seeking employment in the natural gas industry. Accustomed to working with large Natural Gas/Environmental companies in the excavation, preparation, and construction of natural gas drilling sites and environmental reclamation/restoration sites.

Experience

SUPERVISOR | US ECOLOGY | 2016-PRESENT

- Supervisor of multiple remediation jobs subject to erosion control measures which include: silt fence, silt soc, hay bales, seeding, mulching and pumping water.
- *IMTT Tank Terminal Bayonne, NJ*
 - Supervised the remediation of contaminated soils (chromium, oil and coal tar) within the terminal.
- *Amtrak site Queens, NY*
 - Supervised the remediation of 4,000 ton of Diesel Fuel contaminated soil and also backfilled this site with clean material to grade.
- *Lowell, MA*
 - Supervised the remediation of 1,000 ton of PCB contaminated soils and backfilled to grade.
- *Circleville, OH*
 - Supervised the remediation of 30,000 ton of lead contaminated stream, approximately a half mile long. Surveyed and backfilled to grade.

OPERATOR | PINE BELT ENERGY SERVICES | 2015-2016

- Operated excavators and bulldozers to perform pipeline repair.
- Repaired slips on the pipeline right away.
- All repairs included hot lines.

SUPERINTENDENT | T.K. STANLEY | 2010-2015

- Oversaw operations in West Virginia, Ohio and Pennsylvania.
- Supervised the building of access roads, drilling pads and frac pits.
- Involved in the process of Rig moving in all three states.
- Responsible for day to day activities, scheduling, and the ordering of all materials that were needed for each job.
- Responsible for the billing of all day to day activities and I held the Title of Safety Man with no recordable incidents.
- Responsible for working with local townships and other authorities for the rig moving process and the moving of construction equipment.

OWNER/OPERATOR | COLLINS EXCAVATING, LLC. | 2004-2010

- Owner/operator of an excavating company working in the oil/natural gas industry in north-central Pennsylvania.
- Operated a 12-man crew with subcontractors.
- Performed drill site construction, access roads, frac pits, built tank batteries, set pump jacks, etc.
- Plumbed in wells and pipelined from wells to tank batteries, backfilled, seeded and mulched.
- Operated another crew to timber on a daily basis.
- Gained experience in working with local townships and other authorities to ensure all construction activities were performed in compliance with local, state, and federal regulations.

SUPERVISOR | CLEAN EARTH ENVIRONMENTAL SERVICES, INC. | 1999-2004

- *Motiva Enterprises Delaware City, DE*
 - Supervised the neutralization of contaminated soil (mixing/addition of lime), adjusting pH to acceptable levels.
 - Site improvements included the construction and improvement of facility roads, installation of a new site driveway; and the forming and pouring of new concrete pads.
- *Valero Paulsboro, NJ*
 - Supervised the remediation of sludge basins, including the excavation, stabilization, basin restoration, final grading, and off-site disposal of 10,000 tons of contaminated sludge.
- *PPG Industries Jersey City, NJ*
 - Supervised site restoration activities including chromium cleanup and site capping, remediation excavation, installation a slurry containment wall, and the installation of a synthetic cap over a 15-acre site.
 - Work also required shoreline restoration including the installation of rip rap and new plantings.
 - Installed/upgraded recovery and treatment systems, landfill cover, and storm water systems.
 - Gained experience in wetlands remediation/restoration and removal of above ground and underground storage tanks.

WELL TENDER/ FIELD SUPERVISOR | MID EAST OIL COMPANY | 1992-1999

- Responsible for the maintenance of over 200 natural gas wells, including well installation and development, installation and maintenance of gas pipelines, equipment repair and maintenance, and water supply delivery.
- Responsible for three compressor stations.
