

Norths Army Return to Play Update

With Stage 3 restrictions now in effect, the Norths Committee has been working hard on arrangements to return to training and is currently working with Craigslea SHS to re-access the hall as soon as possible. We are hopeful that access should be reinstated in the coming weeks.

Going forward all Norths activities (including the recommencement of training) will be conducted in compliance with the approved Industry COVID Safe Plan for Indoor Sports groups. In preparation for the recommencement of training, we set out below a number of important principles that will guide our return to activities. We encourage all members, parents and supporters to review and become familiar with these principles and to raise any questions you may have with any member of the Committee.

- ✦ We encourage all members, parents, spectators and visitors to sign up to the COVID Safe App;
- ✦ We ask that no members, parents, spectators or visitors attend any Norths activities if they are sick (including experiencing mild symptoms such as runny nose, sore throat, cough, fatigue, fever or flu like symptoms) and to leave immediately if they begin to feel unwell during any activity;
- ✦ When attending Norths activities adhere to physical distancing wherever possible (including outside and inside the venue);
- ✦ Observe all signage indicating venue entry and exist points and only use identified entry and exit points;
- ✦ Do not enter the venue until your teams scheduled start time and in any event not before the previous group has vacated the venue and cleaning has been completed;
- ✦ Before entering the venue sign in/ record attendance using the dedicated sign in system;
- ✦ During training and other activities, do not move between the sectioned off areas;
- ✦ Minimise unnecessary physical contact during court activities (i.e. hand slapping and hugging during celebrations);
- ✦ Frequently wash and sanitise hands before, and after activities;
- ✦ Bring your own pre-filled water bottle and towel; and
- ✦ Following the conclusion of training quickly vacate the venue using the designated exit point.

Please see over page for the venue layout and designated access points that will be adopted for the recommencement of Norths activities.

The Norths Committee asks that all members assist in ensuring that the above principles are adhered to and in turn can permit activities to safely recommence.

The Norths Committee is very much looking forward to welcoming everyone back out on the court.
