CERTIFICATIONS

EDWOSB

GSA MAS Holder

CMMC Level 1 & 2

ISO 27001-Aligned

Transformative. Adaptable. Resilient.

ABOUT

10.13 Enterprise is a Washington, D.C.-based IT modernization and cybersecurity firm delivering secure, intelligent, and resilient solutions to mission-driven organizations. As an EDWOSB, GSA MAS holder, CMMC Level 2 compliant, and ISO 27001-aligned provider, we bring disciplined execution and operational rigor to high-impact federal missions — stabilizing legacy environments while building scalable, future-ready solutions.

PAST PERFORMANCE

- **USPTO** — Security Operations Support (SOS)
- **USPTO** — Transformation, Innovation, Communication & Culture Solutions (TICCS)
- **USPTO** — Microsoft Endpoint Configuration Manager (MECM)
- **USPTO** — Enterprise Operations Support (EOS)
- **USPTO** — Information Technology Service Support (ITSS)
- **USPTO** — Program, Project & Portfolio (P3) Management

Sample Project Outcomes

- **USPTO SOS:** Built automated tooling for EOL OS decommissioning; led Log4j patching and KEV vulnerability remediation enterprise-wide.
- **USPTO TICCS:** Achieved 99% system availability; automated FedRAMP/FISMA/NIST compliance reporting.
- **USPTO MECM:** Managed desktop environment for 17,000+ users; delivered 450+ SCT reports across three baselines.
- **USPTO EOS:** Decommissioned 6,000+ Linux/Windows servers and supported full cloud migration.
- **USPTO P3:** Supported \$100M ESSD budget growth; reduced negative balance reports by 95%.

CORE COMPETENCIES

Security Engineering

- Security Operations Center (SOC) services
- Zero Trust cloud modernization
- DevSecOps engineering & security automation
- AI-driven threat & vulnerability operations
- Data intelligence, observability & performance analytics

Security Compliance

- FISMA, NIST & FedRAMP-aligned support
- Continuous ATO and ongoing authorization
- POA&M development, tracking & closure
- Governance, Risk & Compliance (GRC) programs
- AI-driven compliance operations

Enterprise Modernization & Delivery

- Cloud migration & legacy system modernization
- Program, Project & Portfolio (P3) management
- Technical debt assessment & remediation
- Change management & organizational enablement
- Performance metrics, dashboards & executive reporting

DIFFERENTIATORS

- **EDWOSB-certified** woman-owned small business based in Washington, D.C.
- **7+ years** delivering essential federal IT solutions; **40+ years** combined leadership experience.
- Proven federal **cybersecurity compliance** and **vulnerability management** experience
- Integrated governance, compliance, SOC, and engineering cybersecurity support
- **Zero Trust** and **AI** aligned cybersecurity modernization expertise
