

# CLIENT RETURN TO IN-PERSON SERVICES CRITERIA

**Must meet all of the criteria in the box to return to in-person services**

*~~If symptoms are due to another health condition, documentation from health professional is required prior to any services and the following criteria do not apply.~~*

- Negative results from COVID-19 lab-based (not rapid) test *or* at least 10 days have passed from the onset of symptoms
- Resolution of fever (100.4) without the use of fever-reducing medications
- Significant improvement in symptoms

Symptoms

If test is done and results are positive for COVID-19, go to "Confirmed Case"

Close Contact

- At least 14 days from any close contact with the individual with COVID-19\*

Probable Case

- At least 14 days from close contact with the individual with COVID-19\*
- At least 10 days have passed from the onset of symptoms
- Resolution of fever (100.4) without the use of fever-reducing medications
- Significant improvement in symptoms

If test is done and results are positive, go to "Confirmed Case"

If test is done and results are negative, go to "Close Contact"

Confirmed Case

- Must have mild to moderate illness (severe to critical should be discussed with management)
- At least 24 hours have passed since last fever without the use of fever-reducing medications
- At least 10 days have passed since symptoms first appeared or, for asymptomatic positive cases, at least 10 days from first positive test
- Symptoms (e.g., cough, shortness of breath) have improved

\*For situations of living with the close contact individual, see CDC guidelines to establish return date for in-person services.
