

## **Position Description Speech-Language Pathologist**

### DESCRIPTION OF BASIC FUNCTION AND RESPONSIBILITIES

Primary job function is the provision of speech-language therapy treatment to children. Position requires independent clinical judgment, well-developed communication skills, and the ability to work with a variety of children and families.

### ESSENTIAL/TYPICAL DUTIES

- Provides therapy services including assessments, developing treatment plans, and delivering individual and group therapy.
- Completes accurate therapy documentation and entries in company systems.
- Participates in meetings with families and/or school special education team members on the appropriate implementation of educational programs; collaborates and coordinates speech-language therapy goals with the educational program.
- Collaborates with medical professionals, agencies and/or educators relative to the treatment of patients.
- Provide services related to expertise: mentoring, supervising, collaboration, presentations and workshops, etc.
- Other duties as assigned.

### JOB REQUIREMENTS

- Education: Master's degree from an accredited college or university with coursework in speech-language pathology
- Current certification through the American Speech-Hearing Association
- Current licensure through the State of Michigan
- No unacceptable violations found through legal background check process.
