

## PowerStream Solutions UL 891 Switchboards

### PowerStream PSB™

**PowerStream Solutions understands the critical role that reliable electrical distribution plays in your operations. That's why we are excited to introduce our UL 891 Switchboards, designed to meet the highest industry standards and elevate your electrical infrastructure to new heights.**

#### **UL 891 Certification:**

Our switchboards comply with the rigorous safety and performance standards set by Underwriters Laboratories (UL), ensuring that your electrical systems are of the highest quality and reliability.

#### **Modular Design for Flexibility:**

The modular design of our switchboards allows for easy customization to meet the specific needs of your facility.

- 600 Vac or 250 Vdc Max Voltage
- 4000A, 100 kA SCCR Maximum
- NEMA 1 and NEMA 3R
- Stainless Steel Construction Optional
- 20-week base lead-time

#### **Advanced Safety Features:**

Safety is our top priority. Our UL 891 Switchboards can be equipped with advanced safety features, including:

- MMS
- ERMS
- Fault detection
- Overload protection
- Short-circuit prevention

#### **Reliability and Quality:**

With our UL 891 Switchboards designed and built by PowerStream Solutions utilizing Schneider Electric components, you can count on rugged construction and high-quality components ensuring reliability even in the most demanding environments.

#### **Proud to Partner with:**
