

## AQUATIC SOLUTIONS GROUP LEARN TO SWIM LESSONS 2020

**STATEMENT OF PURPOSE:**

*Every child is unique and will learn to swim at a different pace. We will strive to work with the kinesthetic, developmental, psychological and social differences of each child with positive and affirming instruction. The uniqueness of each child will have an impact on the results achieved. As instructors we reserve the right to make changes in class size and class placement in order facilitate individual success when in a group setting.*

*In the end it is our goal for every participant to develop correct technique and skills from the start that enable them to become proficient and safe swimmers based upon their abilities for their age and temperament.*

*We are grateful for your patronage and referrals through the years. Your trust in our "Learn to Swim" program is appreciated. We look forward to serving you in 2020!!*

**CLASS DESCRIPTIONS:** The guidelines below are to help with class selection for your child. We reserve the right to move participants up or down in skill level so that success is achieved. Class sizes will be based upon skill level and instructor's discretion.

**WATER BABIES AND ADVANCED WATER BABIES will also be offered by appointment in order to better serve our clients and their schedules. Requests will be taken throughout the year for those interested in having a "group class" and scheduled based upon similar interests. (ie. time frame and days). If you are interested in scheduling your child please email us at [dgills2010@gmail.com](mailto:dgills2010@gmail.com) or submit online with your request.**

**Waterbabies** - Prerequisites: No experience, parent(s) in the water. You and your baby/toddler will learn together and enjoy a fun and positive water experience. This class helps your child to develop a comfort level in and around the water for your child as well as a readiness to swim. "Play with a Purpose" is a combination of games and skills that involve blowing bubbles, front crawl arm stroke and kicking, back float with sculling and going underwater. Additional skills include pushing off, jumping in and underwater swimming. The main objective is water experience, skill acquisition and safety skills for the child and assisting parents in gaining confidence with handling their child in the water. Age level: 6 months to 4 years.

**Class limit = 2 or more.**

**Adv. Waterbabies (Adv WB)** - Prerequisites: Parent(s) in the water, bubble blowing, hold breath to count of five and go under water with no fear. If your child shows no fear and will go underwater willingly and come up smiling, this is the class for you and your child. Front and back crawl arm stroke, front and back floating with finning, pushing off, jumping in and underwater swimming are skills developed in this class. "Play with a Purpose", is a combination of games and skills, is integrated for a fun-packed 30 minutes. Age level: 18 months to 4 years. **Class limit = 2 or more**

**Preschool Level I (BEG), II (INT), III (ADV)** - Introduction to Water Skills. Prerequisites: Ages 2 - 4 who are trained, parent(s) ready to go in the water. Designed to help participants feel comfortable in the water, acquire basic swimming technique and to enjoy the water safely. Students will learn basic personal water safety information and skills. This class is great for those new to swimming or who may be fearful. **Class limit = 2**

**Level II - IIA** - Prerequisites: Enter independently, using either the ladder, steps or side, travel at least 5 yards, bob 3 times then safely exit the water. (Participants can walk, move along the gutter or "swim".) Glide on front at least 2 body lengths, roll to a back float for 3 seconds and recover to a vertical position with or without support. Designed to give participants success with fundamental skills. Participants learn to float without support and to recover to a vertical position, further develop simultaneous and alternating arm and leg actions on the front and back all strokes. **Class limit = 4**

**Level IIA - IIB** - Prerequisites: Jump in and go under, front float 5 seconds, roll to back, float for 5 seconds and then return to vertical position. Repeat from back to front. Swim using combined arm and leg action on front and back without support 3 to 5 body lengths. Designed to improve fundamental skills. **Class limit = 4**

**Level III** - Prerequisites: Independently move from front to back float for 5 seconds or more. Push off and swim using combined arm and leg actions on front for 5 body lengths, roll to back, float for 15 seconds, roll to the front then continue swimming for 5 body lengths. Designed for stroke development and survival skills (survival float, elementary backstroke, treading water). In addition to furthering front and back crawl, head first entries are introduced. **Class limit = 4 or more.**

**Level IV** - Prerequisites: Jump into deep water from the side, swim front crawl for 15 yards, maintain position by treading or floating for 30 seconds and
