~ We recommend participants new to Aquatic Solutions swim lessons select the 8 or 12 lesson options to start regardless of age, previous experience, perceived abilities, etc.

When looking for swim lesson instruction for your family, Aquatic Solutions feels it is important to look at an instructor's certifications, years of experience and the quality of lessons that takes into consideration the character, physical maturity and learning style of each individual participant.

At Aquatic Solutions, where we have served North East Houston and the surrounding areas for over 30 years, we offer the best overall price points for your family with quality instructors who are American Red Cross certified and then trained within our program requirements. It is our opinion that every child is unique and will learn to swim at a different pace. We will strive to work with the kinesthetic, developmental, psychological and social differences of each child with positive and affirming instruction. The uniqueness of each child will have an impact on the results achieved.
