LIVING THE WORD

A Reflection on the Gospel for the Third Sunday of Lent

John 4:5-42

The Samaritan women in today's gospel is obviously a person with a past. All of us have a past, a history, a difficult time in our life, a sin we might rather keep hidden from others. This can often be a heavy burden.

Jesus is at the well because he is physically thirsty, but he sees and knows that the Samaritan woman is more thirsty than he is, and it is not for well water that she thirsts, but to be accepted, to be forgiven, to be truly loved. Jesus does not wait for her to tell him about her hidden life – he reveals it to her. He reveals, but does not judge, because Jesus is more interested in her future than in her past. Jesus knows only he can quench her thirst. Only Jesus can quench *our* thirst to be accepted, forgiven, and loved.

If we keep going to the well of our sin to drink, we will go through life parched, but if we accept Jesus' invitation to drink living water – the water of new life and possibility – then we too, like the Samaritan woman, can leave our old water jug behind and move forward towards eternal life.

Take Time for prayer and ask Jesus to quench your thirst.

MISSION STATEMENT

We, the people of Sacred Heart Parish in Pahoia Hawaii, strive to be a community of faith. We believe we are called by God to be disciples of Jesus Christ and to be good stewards within the Church and our local communities. We are called to praise and reverence God, to support one another on our journey of faith, to work for the salvation of our souls, and to labor for peace and justice. By the grace of God and the power of the Holy Spirit, we do this by communal liturgical worship, faith sharing, ongoing faith formation, stewardship, outreach ministries, and by selflessly giving of our time, talent and treasure.

**DIOCESE OF HONOLULU
PRAYER FOR THE COVID-19 CORONA VIRUS PANDEMIC**

By Bishop Larry Silva; March 12, 2020

Dear God of all the living, you sent your Son Jesus to heal us from illness and sin. We turn to his healing power in this time of anxiety over the pandemic of this potentially deadly virus.

St. Damien and St. Marianne Cope dedicated their lives to service of those who had an infectious disease. St. Marianne Cope said, "I am not afraid of any disease," because she was confident of your power to save. At the same time, she took prudent precautions of hygiene to assure that she and her Sisters would not be infected.

Let us learn from this example to put our trust in you to save us from the ravages of disease and to take prudent measures to prevent its spread. Guide us to know when to Isolate ourselves from the possibility of infection, but never let anyone be left without the care and concern of others in the community.

As our Diocese of Honolulu has been dedicated to the Divine Mercy, we pray with confidence, "Jesus, I trust in you."

Please come and join the Youth/YA ministry on Friday's at 4pm for the Outdoor stations of the cross. Thank you!!!!

Take Action and Do My Part

HOMEMADE MULTI-PURPOSE DISINFECTANT and DEODORIZING SPRAY

Full credits to Kristin Marr/<https://livesimply.me/homemade-disinfectant-spray/>

Below is a recipe from www.livesimply.me on how to make my own disinfectant spray. I made it. The only strong odor you will smell is the alcohol. I added Lavender essential oil to reduce the strong smell of the alcohol.

Ingredients:

- 1 cup 100 proof alcohol (Vodka) or the highest proof alcohol you can find or rubbing alcohol or vinegar. (I could only find the 91% rubbing alcohol)
- 1 cup white distilled vinegar or *more alcohol*
- 50-60 drops tea tree or lavender essential oil

Instructions:

1. Pour the alcohol into a 16 ounce spray bottle. Then the essential oil(s). Shake the bottle to combine the alcohol and oils. Finally, add the vinegar and shake the bottle again. **This recipe is not safe to use on special stone surfaces, like granite or marble, due to the vinegar.**

Recipe Notes:

The essential oil is added as an antibacterial ingredient. Hydrogen peroxide can also work as a disinfectant when used straight (not diluted). Just be careful with hydrogen peroxide as it can bleach colored fabrics.
