

MOBILE

CONSIGNMENT SERVICE

Dealerwerx™
consignment +

Introducing our innovative mobile consignment service, designed to offer unparalleled convenience and efficiency for our valued members considering consignment options. With this service, we bring the consignment process directly to your doorstep, ensuring a personalized and hassle-free experience.

Here's how it works:

1. Members book an appointment for our mobile consignment agent to visit. During this appointment, items intended for consignment are declared, complete with all necessary details.
2. Upon arrival, our agent will introduce themselves and proceed to review all pertinent documents and arrangements concerning the consignment item with the member.
3. With the member's approval, the agent will then photograph and promptly list the approved items for consignment.
4. Finally, we will establish arrangements for the delivery of the consignment item to our Safezone location, where it will be available for sale.

Please note, this is a fee-based service. The scheduling for the display and sale of consignment items is subject to the agent's discretion, depending on the availability of time and space at the Dealerwerx Safezone. This service is crafted to streamline the consignment process, providing a seamless bridge between you and potential buyers, all with the professional support of our dedicated agents.
