Lovely Ladies we have a commitment with Body of Christ and Brother Martin in the Bahamas. Brother Martin paid for my ticket back to New Jersey in 2013 to get my license. Brother Martin and his wife were trying to help me.

The Body of Christ took me in and I lived with the Pastor. I was living with the pastor's family in training to be a minister to my family.

See i had so many people trying to help me. They just couldn't understand why i couldn't excel at the time.

If the church in the Bahamas needs work done. That is the least I can do. That is why we are blessed by God to have this Island. Are you with me? It is just respect and love.

I need to transport my equipment on the landing craft. It feels good inside to build something and participate in someone joy. I love construction ladies. Are you with me in loading this into Landing Craft when i am not able to

On September 15, 2001. I wanted to sign up to go to the world trade center to help. I was educated by veterans to stay away from ground zero.

You have diseases and things you can see that may come later as health issues. You are not trained for that. Stay away.

So i am saying to you. If you don't want to see things that will turn your stomach, then speak now. EMS and First Responders will direct the operator how to move item with the excavator and rigging to lift items off the wounded.

Liquids. I am not trained to see the things i might see. However, this is my gift to God. If i saved only one, I pleased him.

I will not agree to taking children under 15 years old to a FEMA Site.

This is my agreement i am signing to Save Souls.

I will need to on the Landing Craft to lift yachts or ships that came on land.

I will not have a 14-Hour window to drive. All these items we need to have on the Landing Craft.

- *Must have a generator for electric*
- *Must have lights in the affected area to recover the MIA*
- *Must have refrigerated trailers onsite*

- *Must have Internet to look up Google Maps of what the Area look like before to do recovery with a excavator. We need to know what is debri or what is curb or roadway when moving debris*
- *Must have Dump Trailer onsite*
- *Must have portable bathrooms to stop human feces in flood waters*
- *Must have a travel kit to go at the moment notice within 1,500 miles Radius from Raleigh.*
- *Not including what FEMA requires. (Wet Suits, Two-Way Radios, NEVER, NEVER, NEVER BE ALONE IN RECOVERY SITE, The recovery team need to hear voices and if you are not responded. You take away from the injured. We must find those that have a chance of living first.*

We have only a 1,200 nautical miles range with this setup i am looking to purchase and the fabrication i need to load these machines in Edenton, NC if possible. The bridges i have to go under, The width of the waterway.

So we have to wait until 48 hours max and leave Edenton, NC if a storm is coming. We have to use Rocket Science like we are going to the moon. . We must go around the storm to follow it to East Coast to be effective.

We will travel due east for 500 miles then turn 180 degrees south for 100 miles then turn to 270 degrees and follow the storm to the states

The more of a range we can leave out sooner. That is why I am looking at more landing craft.

The Chowan River is a 50-mile blackwater waterway formed by Virginia's Blackwater and Nottoway rivers, flowing south into North Carolina's Albemarle Sound. Averaging 16 feet deep and reaching up to 2 miles wide, it features cypress swamps, remote water-access platform campsites, and excellent fishing for largemouth bass and catfish

*For large yachts or sailboats with air drafts higher than **29 feet**, passage under these fixed bridges will require lowering the mast or proceeding via an alternate route, as there are no drawbridges on the upper river to open for taller vessels*

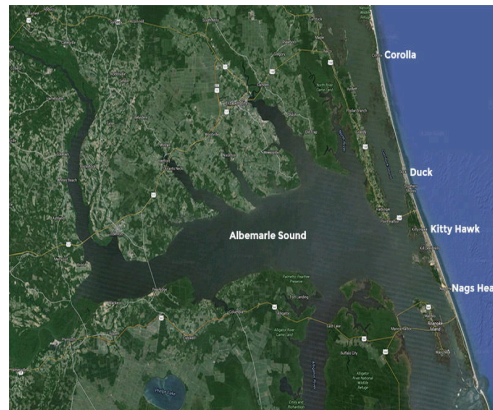

*For most cruising yachts and sailboats transiting the Albemarle Sound (such as the Highway 32/37/94 Fixed Bridge) or cruising the wider Intracoastal Waterway (ICW), you can safely assume a standard vertical clearance of **65 feet**.*

Replenished Life

To Replenish Life to the Poor and Needed

To Build Homes where my wives can retreat from America to Pink Sand Beach, where God has me to be a King of my own Island

Bahamas - Cat Island Beach Front (500+ Acre Island of our own). No company,a retreat from the States

- ***600 Nautical Miles from Outer Banks***
- ***Yacht Home with Yacht Crew has Homes on the Island as well***
- ***To create a little island of its own without the need to provide the entire infrastructure, such as travel and basic facilities***

550+ acres with over half a mile of undisturbed pink sanded beachfront affords the savvy investor the best of both worlds;

St Croix, US Virgin Island - Amazing opportunity to purchase a large property on the North Shore. This 32+ acre plot just across the road from the seashore is listed at a great price due to its status of being largely in a floodplain. There is more than an acre at the back of the property outside the floodplain that would have fabulous views from its 10-20 foot elevation. Build your home overlooking this large space with fabulous sea breezes and wide open sea views.

For the ladies main purpose or role in spreading the truth of God to a fabrication world without truth or afraid of truth.

Now you see who is God's spirit in man. A man of God doesn't want fame.

The harder the man must fall before God. We don't like suffering.

Bahamas - Cat Island Beach Front (**500+ Acre Island of our own**). No company, a retreat from the States

- 600 Nautical Miles from Outer Banks
- Yacht Home with Yacht Crew has Homes on the Island as well
- To create a little island of its own without the need to provide the entire infrastructure, such as travel and basic facilities

550+ acres with over half a mile of undisturbed pink sanded beachfront affords the savvy investor the best of both worlds;

St Croix, US Virgin Island - Amazing opportunity to purchase a large property on the North Shore. This 32+ acre plot just across the road from the seashore is listed at a great price due to its status of being largely in a floodplain. There is more than an acre at the back of the property outside the floodplain that would have fabulous views from its 10-20 foot elevation. Build your home overlooking this large space with fabulous sea breezes and wide open sea views.

For the ladies main purpose or role in spreading the truth of God to a fabrication world without truth or afraid of truth.

Now you see who is God's spirit in man. A man of God doesn't want fame.

The harder the man must fall before God. We don't like suffering.

*You must have patience for the
world. They don't have the truth.
They only know fabrication and
you are the truth. Don't force
God on others.*

*Learning the process that you
put a Ring on my finger. Knowing
If God sees me as the Head.
Then you are being judged by
God as you being a Queen. The
world judges me but God judges
you. Stop the sickness in the
woman.*
