CALIFORNIA OVERSIZE PERMIT INFORMATION

CALIFORNIA DOT PHONE# (916)322-1297

PERMITS: *California oversize permits are valid for seven days*

OPERATING TIME: *Continuous travel normally allowed if load does not require escorts, detours off State Routes, and does not exceed a two-vehicle configuration. Load must be lighted for Night Travel.*

RESTRICTED TRAVEL: *Restricted times (no travel) for loads over 10' wide, Monday through Friday:*

1. *Sacramento, San Francisco and San Diego areas: 7:00am - 9:00am & 4:00pm - 6:00pm.*
2. *Los Angeles Area: 6:00am - 9:00am & 3:00pm - 6:00pm.*
3. *San Francisco/Oakland Bay Bridge: 6:30am - 9:00am & 3:30pm to 6:30pm*

Over 11' wide or overheight require highway patrol escort. Over 12' wide restricted to 11:00am - 1:00pm Monday - Friday. Call (707)648-4180. Holiday travel restrictions usually apply only for larger loads.

CALIFORNIA OVERSIZE PERMIT INFORMATION

LEGAL DIMENSIONS

LENGTH:

- *75' (65' On Non-Designated Highways)*
- *48' Semitrailer*

NOTE: *53' Semi-Trailer are not legal unless the Kingpin to center of rear axles does not exceed 40'. Longer trailers can be permitted only if they are stretched for a specific load, or it can otherwise be justified by the load*

OVERHANG: *10' as long as length including overhang does not exceed 75' overall*

WIDTH: *8'6"*

HEIGHT: *14' (over height not permitted on flatbed, see next section)*

WEIGHT: *80,000 Gross*

- *Steer - 12,500 lbs.*
- *Single - 20,000 lbs.*
- *Tandem - 34,000 lbs.*
- *Tridem - Depends on axle spread Spread Axle Tandem (10' to 10'2" Spread) is legal at 40,000 (20,000 lbs. - 20,000 lbs.)*

CALIFORNIA OVERSIZE PERMIT INFORMATION

ROUTINE PERMITS LIMITS

LENGTH: *Generally up to 135'*

OVERHANG: *When rear overhang puts the tractor/trailer over 75' total length, California may deny a permit and require the load to be on a stretch trailer*

WIDTH: *15'*

HEIGHT: *Depends on route. Over legal height not permitted on a flatbed trailer unless the load length justifies use of a flatbed*

WEIGHT:

- *Steer - 12,500 lbs.*
- *Single - 20,000 lbs.*
- *Tandem - 46,000 lbs.*
- *Tridem - 58,061 lbs. To 60,000 lbs.*

These vary depending on axle spacings and routes (ex. Tridem with 9' of spacing can get 59,168 pounds). Spread axle tandems (8' to 10'2" spread) can only have 40,000 pounds maximum

OVER 15' WIDE, 17' HIGH OR 135' LONG ARE CONSIDERED SUPER LOADS

CALIFORNIA OVERSIZE PERMIT INFORMATION

ESCORTS

LENGTH

- *Over 100' in Los Angeles City - Two Escorts*
- *Over 120' to 135' - One or More Escorts*

OVERHANG: *Over 30' Front or Rear - One or More Escorts*

WIDTH:

- *Over 12' - One or Two Escorts (Some local routes may need escort under 12')*
- *Over 13' on two lane - Two Escorts on some routes*
- *Over 14' 11" on Interstate and Four lane - Two Escorts*
- *Over 16' (over 15' on two-lane) also needs California Highway Patrol Escorts ([3] California Highway Patrol Cruisers)*

HEIGHT: *Over 18' - One escort with high pole, utility clearance and route survey. California Highway Patrol escorts may also be required. If escort is desired for a lower height, it must be stated on the permit, or you will be subject to a fine*

CALIFORNIA OVERSIZE PERMIT INFORMATION

MISCELLANEOUS: *No rear overhang is allowed for loading shipping containers, 5' rear allowed for empties. Overheight not permitted for shipping containers. Buckets, blades, counterweights do not need to be removed. Blade can be detached and hauled on same trailer with overweight dozer, but permit must state it ("BLADE DETACHED AND RELOADED"). Permits are not issued for tow-aways without an inspection report on the tow-away unit, or Cal-Trans permission and inspection appointment. If the tow-away is not registered, it also need a temporary CA Registration, which will be ordered when the permit is ordered. Four-Axle Tractors must have a CA Inspection report or permission and inspection appointment. Single axle jeeps and booster must have a Caltrans Inspection before they can be permitted in California.*

CALIFORNIA OVERSIZE PERMIT INFORMATION

SIGNS, FLAGS & LIGHTS: *Signs and Flags are required on vehicles over 8'6" wide, over 80' Long, or with 10' overhang. Signs are also required when overweight only. For night running, amber marker lights are required at front corners of load and one on left outside extreme edge, visible from front and sides, and red at rear corners visible from rear and sides. Los Angeles County also requires the amber lights at all protrusions and at 5' intervals completely around the load (and red in the rear), not over 5' intervals completely around the load (and red in the rear), not over 5' above ground level. When a rear overhang is 4' or greater, it requires at least two lights or rear light bar at night. Rear light bar not needed on long load in daylight unless turn signals and brake lights are hidden by load.*

Trailers exceeding 48' in length are not legal in California unless the kingpin to center of rear axle does not exceed 40'! Longer trailers can be permitted only when justified by length of the load

COLORADO OVERSIZE PERMITS INFORMATION

COLORADO DOT PHONE# (303)757-9539

PERMITS: *Colorado oversize permits are valid for five days*

OPERATING TIME: *Sunrise to sunset. Up to 12' wide, night travel is allowed with proper lighting (See signs, Flags & Lights. Below). Over 12' wide but not over 14' wide requires an escort for night running.*

RESTRICTED TRAVEL: *Curfew times are shown on the addendum that accompanies an oversize permit. Eisenhower Tunnel on Interstate-70: Maximum overall height allowed is 13'11". Higher loads use United States Route-6 to bypass the tunnel. Over 11' wide permitted loads must pull over and call to get clearance to pass through tunnel, but wider loads can use it. Loads into or out of Denver require a city permit for city streets, but Denver is very slow in turning them around (average 2-3 days).*

COLORADO OVERSIZE PERMITS INFORMATION

MISCELLANEOUS: *Dozer blade can be detached and hauled with the dozer on the same trailer if the load would be overweight with or without the blade. Colorado chain law: All commercial vehicle truck-tractors operating on Interstate-70 between Dotsero (Milepost-133) and Morrison (Milepost 259) between September 1st to May 31st must carry sufficient chains to be in compliance with the Colorado Chain Law. You can be fined for failure to comply. A permit is now available for overweight divisible loads on tractor/trailer with tandem, tridem or Quad Trailer.*

COLORADO OVERSIZE PERMITS INFORMATION

SIGNS, FLAGS & LIGHTS: *"Oversize Load" signs are required front and rear for all oversized loads. They are not required and should not be used for overweight only loads. Flags are required at all four corners of any extremities for wide and over length loads, and at the end of load projections greater than 4'.*

For night travel of wide loads, a flashing yellow light mounted on front of the vehicle and two or three mounted to the extreme rear are required. Over length or with rear overhang (over 10') may run at night with a flashing yellow light mounted to front of vehicle and from one to three cluster lights mounted to overhang (red for rear overhang, yellow for front overhang) for night travel with legal overhang (10' rear or less) but greater than 4' rear, a red light or lantern plainly visible for 500' is required at the end of load projection

SEASONAL LOAD (WEIGHT) RESTRICTIONS: *Winter load increases (allowing 10% over maximum axle weights) usually go into effect sometime in December. The start date changes from year to year. Over legal axle/group weights are usually not allowed during the spring thaw period, usually from about February 1, or March 1 (depending on zone) through early to mid May, then middle-range limits take effect until about May 31.*

SIGN, FLAGS & LIGHTS: *"Oversize Loads" signs required when escorts are required or when over 12' wide. They must be lit up to run at night. Flags (18" square) are required whenever rear overhang exceeds 4', or when vehicle/load exceeds 9' in width or 75' in length. Flags should be mounted at tip of overhang, at corners and widest points on each side of the load if it extends beyond the corner flags. Overhang exceeding 4' requiresvlight at night. Flashing amber lights are usually required on the permit when over 12' wide*

- *Dimensions defining a "Superload" vary by state (see the "Routine Permit Limits" section for states in question).*
- *Some States take one to two weeks to approve and issue a superload permit, Expecdt delays.*
- *States may require letters from the shipper, route surveys , district-by-district engineering approvals, etc. which can delay the approval process.*
- *Measure your load carefully, An inch or two of added height can make a big difference in routing and turnaround time on a superload*

- ***MISCELLANEOUS** - Blades and buckets which cannot be angled to not exceed 14' in width must be removed. A blade or bucket, if its part of the original equipment being hauled, may be detached and hauled with the equipment without being considered a divisible load. Beams, Poles, Pipes, Structural material don't need permit up to 85' long, daylight only, on Interstates and designated roads.*
- ***Multiple Pieces Rule:** North Carolina does not allow or permit for multiple pieces on an overlength vehicle/Load (over 60' Overall Length) on "Non-Designated" Highways. If you are hauling two farm tractors end-to-end and your overall length is 70', we cannot get a North Carolina permit except for Interstates and "Designated" US Routes (Mainly 4-Lane US Highways). If your route is on other highways (including most US Highway), North Carolina will not give us a permit unless we claim that it is for a single piece.*
