SNACK TIME AT CAS

Did you know that CAS offers a fruit or vegetable every day for snack? It's true! Our staff members take great care to provide healthy options for our children after school. Each day, at least two food groups are provided and one of those is always a fruit or veggie. We also provide at least two protein-rich snacks each week, and none of our snack choices are considered "high-sugar, low-nutrition." Now that's something to celebrate!

Every once in a while, CAS might provide a treat as part of an activity or special event, but those times are few and far between, and *never* replace the daily snack. Please check out our monthly snack calendars to see what's coming up, and don't forget, your children can always pack additional or alternate snacks! (Nut-free, of course).

HEALTH/SAFETY

Please make sure your child is prepared for Ohio's unpredictable March weather. Snow/Rain boots or a change of shoes & socks, hats, gloves, and coats will allow your child to be able to participate in outdoor activities while at CAS.

HOMEWORK TIME

While CAS is not an extension of the school day, we do offer a quiet time for homework for 20-30 minutes, Monday-Thursday.

Children are always permitted to continue with schoolwork once this quiet time concludes. CAS is unable to provide individual tutoring, or check work for completeness or accuracy. Please ask your Site Director for more site-specific details.

OLDER KIDS ACTIVITIES

Care After School knows that our 4th and 5th graders are reaching the age when they're becoming more independent. That is why our staff members work very hard to design a calendar that includes activities exclusively for them. Many of these students have been in CAS for several years and look forward to becoming an "Older Kid." This allows them the privilege of helping plan some events for the younger group, work on more challenging activities, and have a space to themselves. We know that many of our younger children look forward to their turn to participate in these activities too! Please tell them to hang in there, they're already growing up too fast!
