Designing with Wood

Wood is one of the most versatile materials in the world. Wood is also our most environmentally responsible structural and decorative material. In its natural form it has thousands of uses, but few realize that it's naturally available in colors such as red, purple, black, grey, pink, orange and in a vast range of tan and brown colors. Wood fiber is reconfigured into structural panels and decorative panels that provide a bewildering array of spectacular surfaces for commercial and residential projects. Every color and pattern imaginable provides a treat for the eyes then tactile pleasure is derived from surfaces that are deeply and luxuriously textured, silky smooth or have a mirror-like shine. Call us today and we'll help you make the most for you, your customers and the environment by Designing with Wood.

Cordially,

Jake Pabisz
General Manager, Pacific Northwest Region

- Sommet® series with VIVA™, BRAVA™ and FERIA™ is now the biggest EIR collection in the industry with 3 textures and 24 colors
- All 24 Sommet decors in stock
- All panels are two-sided with EIR or synchronized texturing, providing the look and feel of real wood
- Matching edgebanding available
- 3DL mouldings available
- Other Tafisa designs are available in the Prelude series. Ask your local rep for details

FERIA™

TAFISA®

BRAVA™

VIVA™

karisma

Karisma, the new milestone of the Prelude Series, is a new texture that perfectly reproduces a wire-brushed effect.

Karisma’s magnetism has made it a go-to industry staple. Its random mix of brush-stroked embossing and matte-infused accents give it a natural, authentic look.

Armorite™ Exterior MDF Engineered for the Elements

Unlike standard MDF that is for dry locations only, Armorite™ Exterior MDF is engineered and designed for exterior applications including outdoor living spaces, signage, trim, cabinets, and for high-humidity environments such as bathrooms and mudrooms. Built to stand tough, Armorite™ is manufactured with a formaldehyde-free resin, resists water (MR50 rating) and uses zinc borate to prevent rot, decay, and termites.

- Faster project turnaround
- Superior machinability and less wear-and-tear on your equipment
- Better paint coverage
- Easier fastening
- Exceptional warranty coverage

Roseburg Armorite™ EXTERIOR MDF

Reconstituted Wood Veneers

- High quality, reconstituted, real wood veneer
- 16 popular patterns
- 0.6mm and 2.0mm matching edgebanding
- Veneer sheets or custom panel lay up
- Subject to volume and lead time, an infinite array of custom colors and patterns available
- NAUF and NAF options
- FSC® certified available on request

Our reconstituted wood products echo nature's most desired and rare species without impacting the sustainability of these great forests. The use of common wood fiber from well managed, plantation grown and FSC® certified forests, are used for the production of Echo Wood® products. Reconstituted veneer provides the same look as the most expensive and rare woods. Echo Wood® provides the highest quality, architectural wood veneers, panels and edge tape that are defect free and consistent in color and grain.

NEW - Dragon Ply UV Panels Now Feature Antimicrobial UV Finish

Dragon Ply UV prefinished panels now feature Antimicrobial protection in addition to its many other value-added attributes that make it the best in the industry.

SUPERIOR surface quality. 100% of Dragon Ply SMART production utilizes a multi-step calibration lamination.

MATERIALS are the first step in ensuring consistent top quality plywood. Face veneers are individually inspected by our Quality Control staff.

ANTIMICROBIAL UV technology uses a nano silver ion antibacterial agent to provide users with additional peace of mind. This laboratory tested UV options kills 99.9% of bacteria.

RELIABLE performance in every panel. Quality Control staff rigorously inspects products from around the globe to ensuring Dragon Ply SMART delivers the most reliable performance.

THICKNESS tolerance. Dragon Ply SMART thickness tolerance is +/- 0.3mm. This is two times more stringent than ANSI/HPVA standards.
