GENERAL INFORMATION

About Norton

Our Mission

We offer powerful, precise, user-friendly solutions, which enable our customers to cut, shape and finish all materials even in the most complex and challenging applications. By working closely with end-users and our grinding expert partners, we design and provide customized solutions to secure the best option for performance, cost and safety.

Our Expertise

Norton is the leading brand of Saint-Gobain Abrasives, with more than 135 years of experience in manufacturing abrasives.

We are committed to providing access to our expert's knowledge whenever you need it. Whether it is through ongoing training programs, or through on-line expert articles and white papers you can stay up-to-date with Norton where and when you need it.

Bring us your grinding challenges, we have solutions!

Our Commitment

You be the final judge in performance! We are so confident of the superior performance of our abrasive products, as recommended for specific applications, that we invite in-plant tests against any other brand of abrasive product on the market. Contact your Norton Representative to find out more about our No Risk test policy or visit www.nortonabrasives.com

ProSand®

OUR PRODUCT EVOLUTION IS YOUR CUSTOMER'S **EASIEST SANDING SOLUTION**

GET IT. **FINISHED.**™

With Norton ProSand, we've packaged the best sanding sheets and sponges into a new look while raising the performance and durability level in order to deliver a new industry standard for sanding made easier.

SIT, STAND, STACK OR HANG... THE OPTIONS ARE YOURS

SIT

STAND

STACK

HANG

The new retail friendly clamshell packaging for Norton ProSand Multi-Air Cyclonic and UVH discs provides a secure, rugged, durable, highly-visible package that allows customers to see, touch, and feel the disc. It also provides retailers a variety of display options including sitting, standing, stacking, or hanging the package of discs.

What material are you hand sanding?

GENERAL WOOD, PAINT, PLASTIC, ETC.	DRYWALL & PLASTER	METAL & RUST	PRIMER, SEALER, TOP COATS
---------------------------------------	-------------------	--------------	---------------------------

What level of smoothness do you need?

GRIT	APPLICATION	GRIT	APPLICATION	GRIT	APPLICATION	GRIT	APPLICATION
Coarse	Stripping	Coarse	First Coat	Coarse	Stripping	Fine	Initial Coats
Medium	Smoothing	Medium	Second Coat	Medium	Smoothing	Super Fine	Between Coats
Fine	Finishing	Fine	Final Coat	Fine	Polishing	Ultra Fine	Final Finish

How large is the project?

Small to Medium Jobs with One Sanding Step: Sanding Sponge	Small Touch-Up Jobs: Sanding Sponge	Small to General Purpose Jobs: Sanding Sponge	Small to General Purpose Jobs: Sanding Sponge
Medium to Larger Jobs with Multiple Sanding Steps: Sandpaper	Small to Medium DIY Jobs: Sanding Screen	Light Deburring and Cleaning: Non-Woven Pad	Large Jobs With Focus on High-End Finish: (i.e. Automotive Refinishing) Sandpaper

Do you want high performance and productivity or lowest initial cost?

Performance: ProSand Sheets & Sponges	Performance: WallSand Screen	Performance: MetalSand Cloth Sheets, Metal Finishing Non-Woven	Performance: SandWet Sheets
Opening Price Point: MultiSand Sheets & Sponges	Opening Price Point: WallSand Paper, WallSand Sponges	Opening Price Point: MultiSand Sponges	Opening Price Point: SandWet Sponges

Heavy removal, stripping, dimensioning, and shaping	Moderate removal and stripping	Removing surface imperfections, sanding, and stripping	For light removal and smoothing of bare surfaces	Light stock removal and surface leveling	Fine surface preparation	Final surface smoothing and initial between coats	After priming, staining, or sealing	Between coats sanding

ProSand

Premium abrasive provides superior cut on all surfaces, lasts substantially longer and cuts faster than conventional abrasives and has been open abrasive grain coated to resist clogging and loading during sanding. Available in a wide range of grits to tackle any job, ProSand Sheets are perfect for sanding paint, drywall, and wood.

Grit Guide

60 COARSE	80 COARSE	100 MEDIUM	120 MEDIUM	150 MEDIUM	180 FINE	220 VERY FINE	320 EXTRA FINE	400 SUPER FINE
Heavy removal, stripping, shaping, and dimensioning	Moderate removal and stripping	Moderate to light removal and stripping	Light stock removal and surface leveling	Fine surface preparation	Final surface smoothing and initial between coats	After priming, staining, or sealing	Between coats sanding	Final finish

Features & Benefits

- Premium heat-treated abrasive offers faster cut and longer sanding life than 3X technology. Heat treating toughens the grain allowing it to stay sharp and last longer under extreme pressure, making it the most durable abrasive on the market. Super sharp edges allow grain to remove material faster.
- Increased backing weight. Fiber reinforcement and latex saturation offer better grain retention with higher flexibility for easy folding and unfolding without tearing.
- Non-pigmented, waterbased stearate, anti-clog (No-Fil) open coat design. Anti-clog provides best resistance to premature loading during sanding.
- No color dye in coating process so there is no chance of color transfer to work piece.

“ I shall continue to only have Norton abrasives in my shop. I've only come across one other brand that could compete in the past, but your ProSand is like a quantum leap above the rest. ”

- Jim Attwooll

PERCENTAGE STOCK REMOVAL 80, 150, & 200 GRIT SEQUENCE

* PERCENTAGE BASED ON TOTAL GRAMS CUT OVER 12 MINUTES OF SANDING ON RED OAK WITH VIBRATING SHEET SANDER

* Results based on internal testing performed using a vibrating sheet sander. Performance data reflects cumulative stock removal of red oak panels over the course of an 80, 150, 220 grit sanding sequence.

SandWet

For wet, oil or dry sanding primer, sealer, varnish, lacquer, enamel and other top coats.

- Flexible, fiber-reinforced backing
- Non-pigmented, water-based stearate (anti-clog) coating, open coat
- No color dye in coating process
- Superior sanding performance for a premium surface finish
- To increase sanding flexibility, soak in water for 15 minutes prior to use
- The wet dry sheets create an exceptionally smooth surface

How to Cut a 9" x 11" Full Sheet to Fit Your Sander

1/2 sheet

1/4 sheet

1/3 sheet

Block

ProSand No-Fil A259PS

Premium, P-graded aluminum oxide abrasive with fiber-reinforced backing. Specially coated to resist loading and tearing for three times the life over conventional aluminum oxide products. First choice when performance counts on sanding tough finishes or looking for exceptional finish. High flexibility.

Premium No-Fil A275 (B-wt)

Premium, P-graded aluminum oxide abrasive resin bonded to a B-weight backing. Specially coated to resist loading and tearing over conventional aluminum oxide products.

No-Fil Aluminum Oxide A296 (C-wt)

P-Graded premium aluminum oxide abrasives produce a quick, cool cut and a more consistent surface finish. Strong C-weight high latex/paper backing resists tearing while staying comfortable and flexible. Water-based, non-loading (No-Fil) stearated coating minimizes clogging and increase disc life

Adalox A213 (C-wt)

For dry sanding hardwood, metal and composites by hand or machine. Long lasting, aluminum oxide abrasive is open coated on high tensile paper.

E-Z Flex Metalite K225 (J-wt)

For deburring, cleaning and polishing of metal. Rugged aluminum oxide abrasive is electro-coated onto a flexible cloth backing. Outperforms natural grains, like emery.

Emery K622

For scouring and polishing non-rated metals and utensils. Emery abrasive is durabonded onto a flexible cloth backing.

Garnet A513 (C-wt)

For rough through finish hand sanding of softer woods and cabinet work. Use dry on bare wood prior to coating. Natural garnet abrasive is electro-coated on high tensile paper.

Tufbak Durite Waterproof T461 (C-wt)

For sanding between coats of primers and other finishes on wood or metal with water or other lubricants. Diamond-like silicon carbide abrasive is electro-coated to a tough, waterproof paper backing.

Tufbak Durite Waterproof T401 (A-wt), T414 (A-wt)

For generating the ultimate finish in wet sanding applications. The premium ultra fine silicon carbide abrasive combined with a unique A-weight paper and strong resin bond system provides ultimate flexibility, long life and wet curl resistance.

Tufbak Waterproof T280 (A-wt)

For wet or dry sanding between coats as well as final sanding. The premium ultra fine P-graded aluminum oxide abrasive is coated on a durable waterproof paper providing an ultra fine finish with improved tear resistance.

No-Fil Durite A475 (B-wt)

For sanding between coats of primers and other finishes. The combination of sharp silicon carbide abrasive, a strong resin bond and special anti-clog coating gives it increased sanding life in dry applications.

ProSand

Our super-sharp abrasive and new coating method make these sponges resist clogging, cut faster and last longer than general sanding sponges and up to 5X longer than conventional sandpaper. The various sizes and grit combinations offer maximum versatility and flexibility for sanding curved, contoured or flat surfaces of wood, metal, paint, plastic, and drywall.

Grit Guide

STRIPPING
Coarser grits remove heavy coatings or heavy stock
SMOOTHING
Medium grits prepare surfaces for finishing
FINISHING
Finer grits finish work prior to applying stain, sealer, varnish, or paint

Features & Benefits

- Durable, abrasive-coated foam lasts up to 5X longer than sandpaper with resistance to tearing
- High-performance, open-coat aluminum oxide grain cuts faster, lasts longer and resists clogging
- Flexible and conformable to shapes and contours making sanding of various surfaces and hard-to-reach areas easier
- Washable for extended life; rinse and reuse

**Packaged in convenient display case format. No inner minimum package.

“ The corner sponge rides with the irregularities and leaves no marks, while also making a great looking sharp inside corner.

- Jack Faville

MultiSand

Offered in various styles and grits for general purpose sanding on a variety of materials. Norton MultiSand Sponges offer exceptional versatility and will help you be prepared for every step of your sanding process. Covering a wide variety of applications, these all-purpose sponges will provide superb cutting action and finishing on wood, metal, paint, plastics, ceramics, and drywall.

Abrasive Rolls

Available in three different backings. Choose the one that's best for your application,

- **Screen** – For sanding where life and load resistance are most important. Coated on both sides with silicon carbide abrasive, the open mesh design also allows you to rinse and reuse.
- **Paper** – For fast, easy sanding when long life and consistent finish are most important. High strength latex backing offers superior strength and reduced edge wear. PSA backing for easy on/off.
- **Cloth** – For general-purpose sanding where flexibility and tear resistance are most important. Cloth backing provides increased strength and durability.

Screen

- sanding plastic pipe prior to gluing
- preparing copper pipe and fittings prior to soldering
- sanding softer materials where loading is a major problem such as plaster, wood, drywall, brass, etc.

WallSand Sponges

Offered in various styles and grits for sanding of paint and drywall. Abrasive sanding sponges are extremely flexible foam, coated with abrasive on four sides. These sponges are made for use in hand sanding applications, and are easy to use on curved, contoured, or flat surface applications on drywall and joining compound. The aluminum oxide coating provides a superior finish and is the durable choice of professionals. These sponges are designed to resist clogging, simply rinse to reuse.

PART #	UPC-A	GRIT	GRADING	QTY/ PACK	PACKS/ CASE

Discs and Rolls

Mesh Application

MeshPower features a full ceramic abrasive grain which offers a superior cut rate over traditional aluminum oxide. Norton No-Fil technology works to prevent clogging for a better finish and longer life, saving operators time and money. It also allows the grain to wear evenly resulting in finer scratch pattern, and faster, more consistent results throughout the product life. Open mesh construction of the backing allows dust particles to flow freely through thousands of tiny holes, creating a virtually dust-free sanding environment.

Paper Disc Application

Aluminum Oxide abrasive for ultra smooth finish of drywall compound. Anti-clog coating on disc decreases loading and promotes optimal dust collection. The rugged hook and loop fastening system assures quick and easy disc change.

Paper Roll Application

Paper rolls offer an economical choice over precut sheets and screens. Generally preferred for larger jobs. Cut to desired length.

WallSand Accessories

Norton WallSand Drywall Tools help deliver flawless results when sanding drywall. The lightweight, durable designs reduce fatigue and extend the life of the tool. The easy change handle allows you to convert from a hand sander to a pole sander for extra versatility. These premium products are guaranteed to help you achieve a fast and superior finish every time.

	PART #	UPC-A	QTY/ PACK	PACKS/ CASE
	Easy snug clips tighten for secure fit. Firm handle provides solid grip. For use with die-cut drywall and plaster sanding sheets or screens on pages 15-16.			
Hand Sander	07660702411	07660702411 4	1	6**
	Use with threaded handle for sanding high walls and ceilings. For use with die cut drywall and plaster sanding sheets and screens on pages 15-16.			
Pole Sander	07660702412	07660702412 1	1	8**
	Ideal for sanding larger surface areas. The light-weight, circular design virtually eliminates flipping and allows change of direction up/down and left/right without lifting off the wall. Works with a 9" hook and loop sanding disc.			
9" Disc Sander	07660768104	07660768104 1	1	6**
	9" 360 Disc Sander conveniently comes with a pole adapter making this product ideal for sanding larger surface areas and increases the versatility to reach taller walls and ceilings. Works with 9" a hook and loop sanding disc.			
9" Disc Sander with Pole Adaptor	07660768241	07660768241 3	1	6**

	PART #	UPC-A	QTY/ PACK	PACKS/ CASE
	Simultaneously sands both inside seams of a drywall corner. The light-weight, 90° design provides a smooth edge with less risk of wall damage commonly caused by sanding each side separately. Works with 8" x 7" hook and loop sanding sheet.			
Inside Corner Sander	07660768105	07660768105 8	1	6**
	Ideal for sanding hard to reach areas. The light-weight, 1/3 sheet hook and loop design eliminates fumbling with wing nuts and clamps. Works with 3-2/3" x 9" hook and loop sanding sheet.			
1/3 Sheet Sander	07660768106	07660768106 5	1	6**
	Easily converts Norton hand sanders to pole sanders for extra flexibility in stairwells, on ceilings and hard-to-reach areas.			
Pole Adapter	07660768107	07660768107 2	1	6**

“

I am in the remodeling business, and I end up doing a lot of drywall finishing and wall repair. I really like the 9" round disc sander for big open areas and valley and butt joints on drywall.

- Jack Faville

”

What material are you power sanding?

GENERAL
WOOD, PAINT, PLASTIC,
FIBERGLASS, ETC.

What power tool are you using?

Belt Sander:

Portable Belts, Benchstand Belts

Features & Benefits

- Precision laser-cut, spiral-hole hook and loop vacuum design removes material consistently throughout the life of the disc while maximizing dust extraction for a cleaner work environment
- Specialized multi-hole pattern allows for use on any random orbital sander regardless of hole pattern - including unique Festool®* sander models
- Premium ceramic abrasive provides a superior cut on all surfaces, lasts substantially longer and removes material faster than conventional abrasives and uses a No-Fil coating to resist clogging/loading during sanding
- Unique fiber-reinforced latex/paper backing is flexible, strong, and tear-resistant

Festool® is a registered trademark of TTS TOOLTECHNIC SYSTEMS AG & CO. KG

ProSand UVH (Universal Vacuum Hole)

The patented Norton Hook and Loop Universal Vacuum Hole Discs offer superior results when used on high-speed power tools and can fit on both 5 and 8 hole random orbital sanders. The premium ceramic abrasive provides a superior cut on all surfaces, lasts substantially longer, and removes material faster than conventional abrasives. Our unique fiber-reinforced latex/paper backing is flexible, strong, and tear-resistant.

MeshPower

Powerful dust extraction for a breath of fresh air!

Sanding often times can be dusty and messy. With Norton MeshPower sanding discs we have created a product that provides virtually dust-free sanding; meaning a cleaner and healthier working environment, a better finish and a much more comfortable sanding experience.

Grit Guide

40 EXTRA COARSE	60 COARSE	80 COARSE	100 MEDIUM	120 MEDIUM	150 MEDIUM	180 FINE	220 VERY FINE	320 EXTRA FINE
Heavy removal, stripping, dimensioning, and shaping	Moderate removal and stripping	Removing surface imperfections, sanding, and stripping	For light removal and smoothing of bare surfaces	Light stock removal and surface leveling	Fine surface preparation	Final surface smoothing and initial between coats	After priming, staining, or sealing	Between coats sanding

Features & Benefits

- MeshPower discs are a multi-functional abrasive, designed with thousands of holes, created by the unique open mesh backing
- This mesh structure allows for powerful and effective dust extraction in any application.
- Patented Norton No-Fil technology works to prevent clogging for a better finish and longer life, saving operators time and money.
- It also allows the grain to wear evenly resulting in a finer scratch pattern, and faster, more consistent results throughout the product life.

Competitive Benchmarking

MultiSand – Hook and Loop – Paper

Norton MultiSand Hook and Loop Discs offer a superior cut rate and consistent finish. The unique fiber-reinforced backing is edge tear-resistant and features a hook and loop backing that makes for quick and easy disc changes. Water-based zinc stearate coating reduces loading and prevents finish contamination.

MultiSand – Stick & Sand – Paper

Norton MultiSand Stick & Sand PSA Discs and Rolls feature a durable, sharp aluminum oxide grain for aggressive and cool cutting.

The non-pigmented, water-based anti-clog coating resists loading and won't contaminate the finish. Pressure sensitive adhesive allows for quick and easy disc changes.

MultiSand – Stick & Sand – Cloth

Norton MultiSand Cloth Stick & Sand PSA Discs are used for a variety of applications including rough sanding of primed and painted surfaces, stripping paint and primers, and heavy stock removal of wood, metal, plastic, and fiberglass.

Applications:

Electric Random Orbital Sanders

For use on contours or flat surfaces for light- to medium-pressure grinding, blending, leveling, and finishing applications.

Stationary Disc Sanders

Used in woodworking and metalworking for stock removal, sanding/grinding flat surfaces, dimensioning and finishing.

Flap Disc

Our Norton flap disc portfolio offers right angle grinding versatility with a product that can grind and finish in a single operation. The abrasive flaps are adhered to a rigid backing plate. It is the back plate that provides stability during operation with cooler cut, less vibration and smoother finish without gouging.

Applications: Grinding, stock removal, edge chamfering/beveling, weld blending, deburring/deflashing, rust removal, blending, cleaning and finishing

NOTE: Use at 15°-25° angle. More severe angles will weaken edges.

Flap Disc Shapes

GRIND AT FLATTER ANGLES: 0° - 15°

Type 27 Flat - The Best Choice for Finishing

- Used primarily on flat surfaces
- The best choice for blending and smooth finishing

GRIND AT STEEPER ANGLES: 15° - 25°

Type 29 Conical - The Best Choice for Aggressive Stock Removal

- Conical flap discs have angled flaps and may be used on both contoured and edge work
- The angle provides greater surface contact for stock removal on flat surfaces
- The best choice when speed and stock removal are primary considerations

Abrasive Flap Density

Standard Density

- Excellent for heavy-duty applications and rapid stock removal

Rapid Strip

Non-woven depressed center discs have three components: strong synthetic fiber mesh and quality abrasives, bonded together by a smear-resistant adhesive.

Rapid Strip discs have an open web construction that enables aggressive cutting action while maintaining a cool, non-loading surface.

STOCK REMOVAL IN GRAMS OVER 6 MINUTES OF SANDING ON HARD MAPLE ON BELT SANDER

■ Norton ProSand Belt ■ Premium Competitive Belt ■ Norton A/O Belt

Red Heat

Norton Red Heat belts utilize a premium ceramic alumina grain delivering a superior cut rate to anything on the market. This ceramic grain “micro-fractures” during the sanding process, leaving a razor sharp edge throughout the life of the belt. It’s symmetrically-shaped design leaves a much finer scratch pattern compared to other abrasives, allowing for an aggressive cut without deep scratches that might be seen after staining or finishing. Combine all of this with a heavy cotton backing and you have ultimate durability and longevity.

Grit Guide

36 GRIT	50 GRIT	80 GRIT	120 GRIT
Heavy Removal	Heavy Removal	Moderate Removal	Light Removal

Features & Benefits

- Utilizes ceramic alumina abrasive for five times the product life over conventional abrasives on the hardest woods and finishes
- Symmetrical shape of the ceramic alumina grain allows the belt to cut aggressively while leaving a finer scratch on the surface which results in a superior finish and less time sanding
- The super-sharp micro-fracturing ceramic grain cuts cooler and resists loading which minimizes belt changes
- Heavy cotton backing is durable and tear resistant

MultiSand – Aluminum Oxide Portable / Benchstand Belts

MultiSand Aluminum Oxide Portable and Benchstand Belts are ideal for all your metal and woodworking applications. Found in a wide variety of grits and sizes they can be used for tackling the following projects:

- Heavy stock removal
- Finish sanding
- Deburring of steel
- Polishing
- Dimensioning and shaping
- Removing saw marks

NORTON

SAINT-GOBAIN

clipper®

CUTTING & GRINDING OFFERING FOR ALL YOUR CUTTING NEEDS!

The NEW Norton Clipper Classic Multi-Material cutting and grinding wheels' innovative technology eliminates the need for specialty abrasive products. They cut and grind ALL types of materials including: meta-inox, stone, aluminum, PVC, ceramic and tiles, and at the same time save you time and money.

FEATURES & BENEFITS

- Cut and grind ALL materials with one single product; no need for multiple wheels for different applications and materials
- These wheels are also ideal for cordless machines, giving minimal resistance when in use
- Free-cutting action absorbs less energy from the battery

Clipper Classic Cutting & Grinding

The Norton Clipper Classic cut-off line delivers a range of sizes and thickness for the most demanding portable and fixed-base applications on metal, stainless, tubing, and other building materials. Designed to give the user an optimal cut rate with improved life to increase productivity over conventional products.

Cut-Off Wheels

The Norton Clipper cutting wheels consists of flat Type 01/41 and Type 27/42 wheels that have fast and efficient cutting power for all your cutting needs. From metal, to concrete, to wood; the superior bond and high-quality aluminum oxide grain offers a great wheel life.

Grinding Wheels

The Norton Clipper Classic depressed center wheel line (also referred to as raised hub wheels) is designed to handle the most severe right angle grinding applications from heavy stock removal to rough blending different types of ferrous metals. Wheels are designated by shape type with Type 27 being the most popular. Combination wheels provide a fast, time-saving cut while adding the grinding power all in one wheel.

Chop Saw Reinforced Cut-Off Wheels

Another addition to the Norton Clipper line are our chop saws. Chop saws are a light and low-horsepower portable machine. Though they are similar to compound miter saws, chop saws are designed to handle cutting denser materials. Metal bar, tubing, and pipes are excellent applications for chop saws. Chop saw cut-off wheels are designed specifically for this machine with finer grit, softer grades, and reinforcement layers that match the application.

Stationary Saw Reinforced Cut-Off Wheels

The Norton Clipper stationary saw reinforced cut-off wheels consist of Type 01/41 wheels, designed to fit on fixed-base stationary saws that are free standing or mounted on a workbench.

Diamond Blades

Norton Clipper diamond blades are the choice of professionals because of their faster cut rate, constant depth of cut, and less downtime versus standard abrasive blades. The Norton Clipper Classic is a workhorse and quality blade that no shop should be without.

Segmented Rim

- Most aggressive cutting action for use on the widest variety of materials.
- Typically used on high-speed, walk-behind and masonry saw blades.

Continuous Rim

- Provides the smoothest cut.
- For use on porcelain, ceramic tile, marble and other hard materials requiring a high quality cut.

Turbo Rim

- Aggressive cutting action with a smoother quality cut.
- For use on harder materials such as granite, marble and stone, to reduce chipping.

Tuck Pointing

- Economical for small to medium tuck pointing jobs. High-quality performance for heavy grout removal or mortar jointing.
- Heavy-duty wide segment reduces wear in abrasive materials.

Wire Wheels and Brushes

Norton wire wheels and brushes readily remove oxidation and rust, paint, slag, weld spatter, and other unwanted surface contaminants. Using a wire wheel or brush can prevent loss of the base material that you are working on. The flexibility of wire wheels and brushes allows you to get into every nook and crevice, for a thorough clean, which more rigid products cannot get to.

Crimped

Crimped wire brushes' individual filaments are supported only by each other – creating extra flexibility. Ideal for work on irregular surfaces, finer surface finishing, and light- to medium-duty contaminant removal applications.

Standard Twist Knot

Ensuring longer life, making them the choice for more aggressive applications requiring higher-impact action, and a rougher surface finish. Standard twist knot brushes are made with straight wire filaments that are twisted together to make more rigid rope- or cable-like pieces.

Stringer Bead Twist Knot

Stringer bead twist knots (vs. standard twist knots) are more tightly twisted to the end of the knot, creating a narrower face and highest-impact action. The choice for tough weld scale cleaning, removing the bead scale that occurs at the initial joining of two sections of pipe, root and hot weld pass cleaning, and the most aggressive brushing applications.

Norton Painter's Plastic

Our multi-purpose plastic sheeting protects virtually any area from sanding dust and paint overspray with ease – even after repositioning. Mono films and linear low density plastics (LLDPE) don't compare.

Features & Benefits

- Resists tearing and solvent bleed-through with lightweight .31 mil High-Density Polyethylene (HDPE) plastic
- Holds in place as it clings to horizontal or vertical surfaces during taping with its natural electrostatic properties
- Attracts and holds sanding debris for a dust free finish
- Drapes easily over furniture

Norton Hand Masking Film

Norton Hand Masking Film is specially designed to resist paint flaking during multiple-coat paint applications. Paint overspray adheres to the outside layer of plastic, preventing flaking into the base coat and resulting in a cleaner overall work space. Offered in four different sizes with a .375 mil thickness, this clear film will allow you to achieve a high quality job in less time and protect from overspray.

Norton Steel Wool

The perfect all-purpose choice for professional contractors and do-it yourselfers. Made of thin bundled fibers, the soft abrasive can be used for cleaning, smoothing and polishing with grades varying from extra coarse #4 for heavy stripping to super fine #0000 for finishing. Color-coded packaging and grade indicator make it easy to choose the right coarseness for the job at hand, whether it's removing rust, dirt, varnish, or stripping paint from exterior woodwork. This product has been designed get into those hard-to-reach areas and compress to any shape for endless uses.

Application/Grit Recommendation Guide

4 EXTRA COARSE	3 COARSE	2 MEDIUM/ COARSE	1 MEDIUM	0 FINE	00 VERY FINE	000 EXTRA FINE	0000 SUPER FINE
COARSER ←							→ FINER

Features & Benefits

- Ideal for most household projects, including removing rust, dirt, varnish, or stripping paint from exterior woodwork
- Thin metal fibers bundled together easily compress to any shape so pads can be used in hard-to-reach areas and contoured surfaces
- Available in grades ranging from extra coarse #4 for heavy stripping to super fine #0000 for finishing and polishing
- Color coded packaging and grade indicator chart make finding the right grit easy

Features & Benefits

- Synthetic non-woven hand pads made of a nylon web with abrasive grain and resin bond
- They are designed for applications ranging from heavy-duty cleaning to polishing
- Compatible with both solvent-based and water-based stains and finishes

Non-Woven Pads and Rolls

Non-woven pads are an ideal replacement for steel wool for heavy-duty cleaning and stripping through finishing to light-duty polishing.

- Flexible - can be cut or folded
- Won't rust, shred or splinter
- Washable and reusable
- Use with/without chemicals

Micro-Fiber

Micro-fiber cloths have edges that collect debris as opposed to pushing it away. The particles are trapped in between the fibers and can be rinsed or machine washed to release heavily embedded particles. Micro-fiber products can be washed up to 300+ times without losing cleaning and trapping abilities, which will save you labor time and additional costs of multiple cleaning products and chemicals.

- Cleaning cloth (blue) is used for general wet or dry cleaning applications
- Dry tack cloth (red) has a low profile to resist snagging and pick up embedded debris
- Polishing cloth (yellow) is ideal for streak-free cleaning of mirrors and optical lenses

TECH TIP

Micro-fiber is virtually scratch resistant but may pick up debris that can scratch. Clean micro-fiber products often for best results.

SG H920 Ceramic Alumina

- Durable and friable Norton seeded gel ceramic alumina abrasive ensures fast, aggressive, yet cool cutting action and maximum life
- Strong F-weight paper, synthetically-coated, provides maximum durability and resistance to edge chipping and shedding
- Closed coat and sharp grain make this a premiere product for metal fabricating and blending; ideal for soldered and welded areas

BlueFire H822 Zirconia Alumina

- Patented zirconia alumina abrasive provides 2X-3X life over aluminum oxide products
- Strong F-weight paper, synthetically-coated for excellent durability and chip resistance; pressure sensitive adhesive and linked disc roll format allow easy application, removal, and dispensing
- Non-stearated (no anti-loading agents) for non-contaminating; often required for prime auto and aerospace paint applications

Refer to the Sanding Accessories section for back-up pads and accessories.

BlueFire H875P Zirconia Alumina

- Next-generation, self-sharpening zirconia alumina abrasive provides 2-3 times the life of aluminum oxide discs, longer life versus original zirconia alumina discs, improved cut rate, and minimal heat
- Strong E-weight latex/paper backing resists tearing while staying conformable and flexible
- Open coat contributes to minimized loading

Improved Dust Extraction / Increased Productivity

The upgrade to precise, flat, laser-cut holes instead of die-punched holes, dramatically increases surface area contact allowing Norton Multi-Air Cyclonic discs to improve productivity by 32% versus conventional multi-hole sanding and by 60% versus non-vacuum sanding.

The end result is more holes for dust extraction, more abrasive coverage for a better cut and no deformation – for full surface contact utilizing all the cutting power of the premium ceramic grain.

Blaze A995 No-Fil Ceramic Alumina

- P-graded, next-generation sharper-edged ceramic aluminum oxide abrasive ensures fastest cut rate and longest life of any paper disc
- Unique polyester-reinforced, D-weight latex saturated backing provides maximum tear strength while retaining flexibility
- Water-based, non-pigmented stearate No-Fil coating and open coat provide maximum load resistance and no color transfer to work

A275OP No-Fil Aluminum Oxide

- Premium P-graded, heat treated, toughened aluminum oxide abrasive delivers superior life, fast cut rate, consistent finish
- Unique fiber reinforced, flexible B-weight latex saturated backing provides 50% - 60% improvement in tear strength while retaining flexibility
- Water-based, non-pigmented stearate No-Fil coating and open coat provide maximum load resistance and no color transfer to work
- 5" and 6" individual PSA discs in fine grits have a tabbed, white translucent liner to protect the PSA adhesive from airborne contaminants; the tab allows easier removal of the paper liner

Durite A475 No-Fil Silicon Carbide

- Sharp and hard, P-graded, silicon carbide abrasive easily penetrates the hardest material and veneers to create finer finishes where finish is critical
- Flexible, B-weight fiber reinforced, latex paper backing provides flexibility and resistance to tearing
- Water-based, non-pigmented stearate No-Fil coating and open coat provide maximum load resistance and no color transfer to work

Gold Reserve A296 No-Fil Aluminum Oxide

- P-graded premium aluminum oxide abrasive produces a quick, cool cut and a more consistent surface finish
- Strong C-weight high latex/paper backing resists tearing while staying conformable and flexible
- Water-based, non-loading (No-Fil) stearate coating minimizes clogging and increases disc life

Multi-Air Foam Interface Pads

- Designed for use with fine grit Multi-Air Cyclonic hook and loop sanding discs to improve both surface finish and cut rate
- Use with Multi-Air hook and loop disc back-up pads
- Align the interface pad with the Multi-Air back up pad then simply attach the disc to the interface pad because the holes do not have to be lined up
- Ideal for use with new Mesh discs

SIZE (D x T)	DESCRIPTION	STD. PKG.	PART #
Multi-Air Foam Interface Pads with Vacuum Holes			
5" x 1/2"	Multi-Air Hook and Loop Interface Pad	8	636425 85864
6" x 1/2"	Multi-Air Hook and Loop Interface Pad	12	076607 19359

Multi-Air Hook and Loop Back-up Pads with Vacuum Holes

- Innovative design optimized for maximum air flow and powerful dust extraction
- Pads are engineered with a durable urethane foam, heat-resistant plastic, a molded-in 5/16"-24 spindle, and hooked face
- Holes in the disc do not have to be matched up with the holes in the pad, so changeover is fast and easy
- Ideal for use with new Mesh discs

SIZE (D)	DESCRIPTION	MAX. RPM	STD. PKG.	PART #
Multi-Air Hook and Loop Back-up Pads with Vacuum Holes				
5" (125mm) with 5/16"-24 Shank	Medium-Density Urethane Pad	15,000	5	666233 76000
6" (150mm) with 5/16"-24 Shank	Medium-Density Urethane Pad	15,000	5	636425 06160

Low-Profile Pads for Dual Action / Random Orbital Sanders

- Soft density low-profile pads utilize 1/2" thick foam for fine finish sanding and offer moderate conformability
- Medium low-profile pads have 1/2" thick urethane foam for intermediate and finish sanding
- Available with PSA (pressure sensitive adhesive) or hook and loop faces; both designs are shock resistant and have a fiberglass backing plate with a riveted 5/16"-24 threaded shank for added strength and increased heat resistance
- Available with standard hole patterns for vacuum-assist sanding

Packed in individual clamshell

Tapered Pads for Dual Action / Random Orbital Sanders

- Designed with medium density polyurethane foam and a tapered edge for conformability, these pads are firm enough for flat surfaces, yet soft enough for severe curves and contours
- Available with either PSA (vinyl, pressure sensitive adhesive) or hook and loop faces in vacuum or non-vacuum
- The 5" and 6" pads are shock resistant and have a fiberglass backing plate with a riveted 5/16"-24 threaded shank for use on random orbital or dual action sanders
- The 8" pads have a 5/8"-11 threaded female hub

Half Moon Hand Pad

- The unique half moon pad takes a standard 5" hook and loop disc folded in half, which adheres to the hooks on the pad face
- The straight edge of the pad allows the operator to sand corners, contours, narrow crevices and minute imperfections without over-sanding

SIZE (D)	DESCRIPTION	STD. PKG.	PART #
5"	Hook and Loop	10	636425 02768

Polishing Adapter Pad

- Converts your standard hook and loop pad into a soft polishing pad
- The foam adapter is 3/8" thick and is excellent for fine grits where minimal removal is required
- It is ideal for either flat or contour surfaces

SIZE	DESCRIPTION	MAX. RPM	STD. PKG.	PART #
5"	Hook and Loop Adapter Pad	3,786	10	636425 03121

Ergonomic Hand Sanders

- The ergonomic palm sander is uniquely designed to be user-friendly, with finger indentations for the operator
- It quickly converts standard 5" and 6" hook and loop discs into hand sanders for finishing flat surfaces

SIZE (D)	DESCRIPTION	STD. PKG.	PART #
5"	Hook and Loop	5	636425 03147
6"	Hook and Loop	5	636425 03726

Disc Hand Pads

- Hand pads eliminate finger sanding
- The ultra-thin 3/16" thick pad is composed of a single layer of neoprene foam and is designed for maximum flexibility – producing excellent finishes
- The 1" thick pad is composed of two layers, neoprene and polyester foam, for excellent conformability and softness, resulting in fine finishes
- Each pad has an elastic hand strap to hold it firmly in place
- Available with either PSA (vinyl, pressure sensitive adhesive) faces or hook and loop face

SIZE (D x T)	DESCRIPTION	STD. PKG.	PART #
Disc Hand Pads			
5" x 3/16"	Soft Foam PSA	10	636425 03111

Panel and Adhesive Cleaner

- Removes adhesives, tar, grease, wax, body sealers, undercoating sprays, and silicone from most surfaces
- Aggressive cleaner is safe to use on most paint applications
- Packaged with squirt dispenser
- Use as directed

SIZE/DESCRIPTION	STD. PKG.	PART #
Panel and Adhesive Cleaner		
Quart Can	12	076607 82780

PSA Disc Roll Dispenser

- Norton disc roll dispensers feature heavy-duty construction and a rubberized finish to protect your product, as well as the finish on your workpiece
- These versatile dispensers are designed to accommodate any 5" or 6" disc roll or sheet roll
- They can be attached to a wall or stacked for multi-grit or multi-diameter operations
- Discs are individually dispensed and removed from the roll by a cutter bar

DESCRIPTION	STD. PKG.	PART #
PSA Disc Roll Dispenser		
Single Disc Roll Dispenser	1	636425 42772
Double Disc Roll Dispenser (shown)	1	636425 02981

Narrow Belts – Cloth

Narrow aluminum cloth belts are available in a wide variety of sizes to fit most backstand and benchstand grinders in a range of grits for most dimensioning, intermediate grinding and polishing applications. Some designs include a reversible butt splice joint so that you can use the belt in either direction for extended product life.

Racking

Modular designs for mix and match display needs

Racking

Short Peg Rack

Part # 076607**02270**

- UPC-A number 07660702270 7
- holds 4", 4-1/2", 5" bulk depressed center wheels, cut-off blades or fiber discs
- over tag area for price label
- empty wire displayer
- 6 units/box

Record Slot Wheel Rack

Part # 076607**02269**

- UPC-A number 07660702269 1
- holds 12", 14" or 16" bulk cut-off blades, chop saw blades or diamond blades
- can fit 2 SKUs per rack or 1 SKU, doubled up
- display at base due to product weight
- wire displayer (product not included)
- 2 units/box

Single Stack Blade Rack

Part # 076607**02273**

- UPC-A number 07660702273 8
- holds 6-1/2", 7", 8", 10" bulk cut-off blades
- holds 7" bulk diamond blades
- holds 5", 7", 9" bulk fiber discs
- display on pegboard or shelf
- front plate for pricing and store info
- empty wire displayer
- 2 units/box

Pocket Wheel Rack

Part # 076607**05347**

- UPC-A number 07660705347 3
- holds 12" blades in bottom pocket and 12" or 14" in top pocket
- fits 2 SKUs per rack or 1 SKU, double faced
- design more evenly distributes product weight and provides enhanced visibility of item(s)
- wire displayer (product not included)
- 1 unit/box

Long Peg Rack

Part # 076607**02271**

- UPC-A number 07660702271 4
- holds 7" hubbed depressed center wheels
- holds other mid-size diameter discs requiring better dispersement of product weight
- over tag area for price label
- empty wire displayer
- 2 units/box

Basket Bench Wheel Rack

Part # 076607**02272**

- UPC-A number 07660702272 1
- holds 6" - 8" bench & pedestal wheel boxes
- can also hold 7" job pack circular saw cut-off blade boxes
- front plate for pricing and store info
- wire displayer (product not included)
- 2 units/box

Racking

3-Way 9" x 11" Handy Pack Sheet Rack

Part # 076607**02296**

- UPC-A number 07660702296 7
- vertical, space saving 3-pocket rack for 9" x 11" handy packs
- sits on counter/shelf, mounts to an upright beam using washers on back to bolt through or hangs on pegboard
- price tag area per grit
- each pocket fits 15 packs
- 1 unit/box

Wire Tray For Bulk Portable Belts

Part # 076607**02266**

- UPC-A number 07660702266 0 (2 trays/box)
- modular unit for displaying portable belts on pegboard
- set belt boxes on wire tray to hold belts and identify size and grit
- can also be used for other products as a shelf unit
- multiple racks can be positioned vertically and/or side by side for maximum impact

9" x 11" Handy Pack Spacesaver Merchandiser

Part # 076607**48932**

- UPC-A number 07660748932 6
- space saving 3-pocket rack hangs on pegboard to display 9" x 11" Handy Pack sheets
- can be used horizontal (as shown) or vertical
- each pocket fits 15-20 packs
- 1 unit/box

9" x 11" Sheet Merchandiser

Part # 076607**01113**

- UPC-A number 07660701113 8
- displays 9" x 11" bulk sheets, job packs, and handy packs
- individual, stackable trays from bottom to top for sturdy, free-standing counter display or pegboard/wall mounting without front to back movement
- durable wire gauge to withstand wear; won't bend or sag
- full width, front plate for quick product identification
- 4 trays/box

Product Identification Strips

Part # 076607**03963**

- UPC-A number 07660703963 7
- must order with 9" x 11" Sheet Merchandiser (#01113)
- adhesive backed label for quick attachment
- color coded to match product category, bilingual
- individual grit labels provided to customize at retail
- 1 set/envelope

Grit Guide Header

Part # 076607**01967**

- UPC-A number 07660701967 7
- use with 9" x 11" Sheet Merchandiser (#01113) or any hand sanding set
- 11" w x 12" h header for selecting the right 9" x 11" sheet by application
- color coded to packaging, bilingual
- 1 unit/box

Talkers

Norton Clipper Classic Abrasive Wheel Aisle Talker Part # 70184631596

Quickly and easily, understand and sell the range of coated and bonded abrasive products in a way that keeps things aligned and easily accessible by the consumer. Size 12"w x 36"h.

Norton Clipper Classic Diamond Blade Aisle Talker Part # 70184631597

The diamond blade aisle talker describes which diamond products work best on each application. Our 5-step specification method makes it simple to recommend the right diamond product for each job. Size 12"w x 36"h.

MeshPower Shelf Talker Part # 78072724000

- UPC-A number 78072724000 1
- Colorful, and informative graphics with MeshPower features & benefits
- 6"w x 18"h, 4 color printing, two sides
- Sturdy .040 Styrene
- Two, 3" super grip signholders included

Norton Clipper Classic Multi-Material Wheel Aisle Talker Part # 70184631595

- Colorful and informative graphics with features and benefits
- 6"w x 18"h, 4 color printing, two sides
- Sturdy .040 Styrene
- Two, 3" super grip signholders included

NORTON **MESH-POWER**TM
SAINT-GOBAIN

POWERFUL DUST EXTRACTION

FOR A BREATH OF FRESH AIR

Designed for virtually dust-free sanding, Norton MeshPower ceramic discs provide for a cleaner and healthier working environment, a better finish, and a much more comfortable sanding experience.

NORTON MESHPOWER ADVANTAGE

- Mesh backing for optimum dust extraction
- Full ceramic grain for excellent cut rates and superior scratch pattern
- Norton No-Fil technology prevents clogging and creates a consistent cut throughout the product life
- Hook and loop design with no designated hole pattern is quick and easy to align to any backing pad – just apply and go!

NORTON DO-IT-YOURSELF AND CONTRACTOR MARKET

Flexibility and Conformability in the Palm of Your Hand.

Norton ProSand has every angle covered with various shapes, sizes and grit combinations of sanding sponges. Last longer than sandpaper.

For a Breath of Fresh Air.

With Norton MeshPower sanding discs feature powerful dust extraction for a virtually dust-free sanding; meaning a cleaner and healthier working environment, a better finish and a much more comfortable sanding experience.

It's Time to Clean the Air.

Norton ProSand Multi-Air Cyclonic Discs feature a multi-hole design pattern that maximizes dust extraction for all 5" & 6" random orbital sanders. For all surfaces and coatings.

Fast and Tough for the Most Demanding Jobs.

Norton Diamond Blades are the choice of professionals vs. abrasive blades with faster cut rate, constant depth of cut and less downtime.

Bulk Up Fast with Norton WallSand.

Packaged in bulk, Norton WallSand bulk drywall sanding sheets meet the unique needs of drywall contractors and deliver flawless walls and ceilings with fewer trips to the store to stock up.

Norton Has You Covered.

Norton Painter's Plastic protects virtually any area from sanding dust and paint overspray with ease - even after repositioning. Mono films and linear low-density plastics (LLDPE) don't compare.
