

Brian Donnelly is the Managing Partner of Sun State Organics, LLC. an Ocala Florida Manufacturer of Organic Solutions for Food, Soil and Energy Production. Since founding the company in 2009, Mr. Donnelly, an expert in sustainability, designed an integrated suite of equipment that converts organic waste into food, soil and energy, through composting, vermiculture, vertical growing and waste to energy digesters.

Mr. Donnelly, is the inventor of the Growpol Vertical Growing System, which has been approved and endorsed by a wide range of urban farming and gardening professionals worldwide. Sun State Organics has partnered with nonprofit organizations assisting people with special needs, hunger and poverty issues.

As Chief Executive Office of his company, World Waste Systems (formerly Microlife, USA, Inc.), Mr. Donnelly created a company responding to the global need to process Municipal Solid Waste quickly and inexpensively whilst achieving recycling rates as high as 95%. As CEO of Microlife USA the company was the first in USA history to pass Minnesota Class 1 compost standards.

Microlife USA was chosen by the U.S. Olympic Committee and the Environmental Protection Agency (EPA) to pioneer the first environmental component to the Olympic Games in 1996. The company achieved an incredible 92% recycling record, which has not been broken to this day.

Mr. Donnelly has been on the advisory board and chief technical engineer at O2E Recycling Technologies Ltd for Biowaste systems. Together, O2E and SSO were named in the top 100 companies globally in sustainability at Sustainia.

Mr. Donnelly assisted in creating a farm to table project in Gainesville Florida that won the Golden Shovel Award – the highest honor in agriculture in Florida. The GET project is a teaching center for people with special needs.

**CLEANTECH  
INNOVATE**

Together, World Waste Systems and O2E won the Cleantech innovate contest and were named one of the top 4 companies in the United Kingdom for its innovations in recycling municipal solid waste and waste to energy systems.

Mr. John Madole has been an associate of Mr. Donnelly since 1994. Mr. Madole is an Environmental Planner, Project Manager and Strategic Business Partner with 35 years of experience in Waste Management, Renewable Energy Development, and Sustainability Planning, John Christopher Madole Associates has worked diligently to enhance the quality of the environment and wellbeing of many communities nationally and internationally.
