

OCEANBOTICS™ SRV-8

INTRODUCING THE MOST MANEUVERABLE AND AGILE ROV

**8 thrusters, battery
powered and depth rated
to 305 meters** – the SRV-8
underwater drone allows
you to navigate through
your missions with ease.

FLY THE SRV-8 IN MINUTES

- One person portable
- Deploy and operate within
3 minutes
- Configure for any mission
with customizable modular
platform

Advanced Software allows for easy recording and playback of all video, sonar and navigation data on a laptop computer.

Built for the future, the SRV-8 can easily integrate add-on features from Oceanbotics™ and other third-party vendors.

ABOUT RJE OCEANBOTICS

RJE Oceanbotics was formed in June 2017 as a division of RJE International, Inc. (27+ year leader in underwater mission critical products) with the goal of creating a “drone-like” underwater experience for professionals in the marine industry.

After an intensive engineering effort from our amazing and dedicated team, we can proudly say that we have reached our goal. Learn more at www.oceanbotics.com or call +1.949.656.8038.
