About Me

I am a passionate and creative game designer with a keen eye for crafting engaging and interactive experiences. With nearly three years of experience, I bring a wealth of knowledge and skills to the table. My expertise lies in game design principles, and I possess a comprehensive understanding of various game genres. Throughout my academic journey, I have successfully implemented diverse gameplay mechanics for multiple university projects. As well as had experience working in an independent games studio

Work History

Khosouf Studio | Junior Game Designer

May 2023 – Present

- Designed, mapped out, and play-tested half of the levels for the VR rhythm game 'Box To The Beat', and was present for the launch of the title. Also being the first game from the Middle East to launch on the PlayStation 5.
- Represented the company at Gamescom 2023 in Germany.
- Created and maintained various documents
- Other minor duties such as writing dialogue, creating pitch decks, and doing market research.
- Experienced the unpredictable nature and quirks of working in a small indie game studio.

SAE University | Peer Tutor

September 2022 – December 2022

- Collaborated with students to complete homework assignments and submissions, identify lagging skills, and correct weaknesses
- Helped peers build self-confidence and motivation by providing positive reinforcement and feedback.
- Consult with the management team to develop long-term commercial plans
- Promoted the development of good study habits and learning skills

Education

Bachelor of Game Development (Game Design)

SAE Institute – Dubai, UAE | *September 2020 – September 2023*
